

NIMH EMPLOYEE ENGAGEMENT SURVEY 2020

Public reporting burden for this collection of information is estimated to average 4 minutes per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden, to: NIH Project Clearance Branch, 6705 Rockledge Drive, MSC 7974, Bethesda, MD 20892-7974, ATTN: PRA (0925-0648). Thank you for all of your patience and dedication to the important work that we do at the NIMH. As discussed during NIH and NIMH town hall meetings, we are making plans to optimize the safety for those returning to work onsite.

As part of this planning, we are gathering information about your onsite workspace, and ask that you complete this survey to the best of your knowledge. There are approximately **10 questions** in this survey, and it should take you **approximately 4 minutes to complete**. Your responses will be aggregated for reporting purposes, and as such, individual responses will remain anonymous.

If you have any questions regarding this survey, please do not hesitate to reach out to Christopher Chai at christopher.chai@nih.gov.
