Symptoms

This table lists symptoms that people with this disease may have. For most diseases, symptoms will vary from person to person. People with the same disease may not have all the symptoms listed. This information comes from a database called the Human Phenotype Ontology (HPO) . The HPO collects information on symptoms that have been described in medical resources. The HPO is updated regularly. Use the HPO ID to access more in-depth information about a symptom.

Showing 4 of 4

Medical Terms	Other Names	Learn More: HPO ID		
Percent of people who have these symptoms is not available through HPO				
Autosomal dominant inheritance		0000006 🗗		
Chemodectoma		0030074 🗗		
Cutaneous angiolipomas		0006773 ♂		
Retroperitoneal chemodectomas		0006729 ৫
