

NICHSR Survey

OMB Control Number: **0925-0648**

Expiration Date: **05/31/2021**

Public reporting burden for this collection of information is estimated to average 5 minutes per response, including the time for reviewing instructions, searching existing data sources, gathering, and maintaining the data needed, and completing and reviewing the collection of information. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a current valid OMB control number. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden, to NIH, Project Clearance Branch, 6705 Rockledge Drive, MSC 7974, Bethesda, MD 20892-7974, ATTN: PRA (0925-0648). Do not return the completed form to this address.

Background

Since the early 1990s and the establishment of the National Information Center for Health Services Research and Health Care Technology (NICHSR), the National Library of Medicine (NLM) has developed specialized tools and resources targeted toward the health services research (HSR) community. These resources were designed to address challenges in accessing certain information understood to be needed by the health services research community. The purpose of the survey is to assess the NLM HSR services and/or resources that were highlighted on August 18, 2020, during the NLM webinar.

Survey Questions

1. What services or resources that NLM currently offers in the areas of health services delivery or health services research do you use? [Select all that apply]
 - a. PubMed
 - b. ClinicalTrials.gov
