

NICHD Automated Business Processes – Scoping Survey

OMB # 0925-0648
Expiration Date: 05/2021

NICHD Automated Business Processes – Scoping Survey

Thank you in advance for completing this survey to understand the current use of automation tools and/or systems at NICHD and challenges in support of the **Automated Business Processes Strategic Plan Working Group**. Your responses will assist the working group in ranking and prioritizing automation efforts across NICHD. If you have any questions regarding this survey or the working group, please contact Bryan Reed (bryan.reed@nih.gov) or Francie Kitzmiller (franciek@mail.nih.gov). Please submit responses by **April 16, 2021**.

*Public reporting burden for this collection of information is estimated to **average 5 minutes per response**, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden, to: NIH, Project Clearance Branch, 6705 Rockledge Drive, MSC 7974, Bethesda, MD 20892-7974, ATTN: PRA (0925-0648). Do not return the completed form to this address.*

Your responses are and will remain anonymous unless you choose to share your email address permitting the team to reach out with any additional questions.

I prefer not to answer.

2. What is your function? Please hover your mouse over underlined text in response options to view additional guidance.

Scientific Staff

Fellows

Administrative Staff

Support Staff

Technical Staff

Other (If other, enter description)

NICHD Automated Business Processes – Scoping Survey

For the purpose of this survey, automation refers to the process in which a tool and/or system takes an action on behalf of a user. Examples of automation include electronic signatures, routing of approvals, tracking of package statuses, and centralization of documents.

3. What tasks do you complete that could benefit from automation? Select all that apply.

Please hover your mouse over underlined text in response options to view additional guidance.

Signing documents electronically.

Routing/rerouting documents to reviewers or approvers

Tracking status of requests

Storing documents in a central location

Other (If other, enter description)

None of my tasks would benefit from additional automation
