Reason for Change	Burden Change
Plan flexibility	No
Ease of identification	No
Improved beneficiary accessibility	No
Plan flexibility	No
More inclusive language since not all MTM providers are pharmacists	No
Correct typographical errors	No
Regulatory requirement	Yes
Plan flexibility to include information that doesn't fit elsewhere	No
To avoid confusion between potential side effects and actual adverse events the patient has experienced	No
Correct a typographical error	No

Increase portability and ease of use for beneficiaries by allowing them to detach the medication list from the rest of the document (especially since the medication list is in landscape and the rest of the document in portrait orientation)	No
More inclusive language for recommendations that do not necessarily require actions, e.g. safe disposal information	No
Correct a typographical error	No
Correct a typographical error	No
To calculate a more accurate burden estimate using more current data	Yes
To calculate a more accurate burden estimate using more current data	Yes
