This survey is part of the Study of Coaching Practices in Early Care and Education Settings (SCOPE), a study being conducted for the Administration for Children and Families (ACF) at the U.S. Department of Health and Human Services (HHS) by Mathematica Policy Research. This survey asks about your experiences coaching teachers and providers of preschool-age children.

**When we refer to coaching or coaches in this survey, we mean individuals who regularly meet one-on-one with teachers or providers or with their teaching team to provide feedback and guidance to help them improve their teaching.**

**[IF SAMPLED DUE TO COACHING OF FCC PROVIDERS] Throughout the survey we would like you to focus your responses on the family child care (FCC) providers and settings you coach (even if you also coach teachers in center-based settings). We realize that coaching in FCC settings is unique, so some terms or questions may not fully apply to your work there. Although we use the term “program” throughout the survey, please think about your work in FCC settings when answering such questions.**

If you prefer to complete this survey by telephone, please call [STUDY TOLL FREE NUMBER]. If you have any questions about the study or your participation, please email us at [STUDY EMAIL]@mathematica-mpr.com.

**We would like you to know that:**

- The survey takes about 30 minutes to complete, and once you have completed it, we will send you \$20 as a thank you.
- ***Your answers will be completely private; no information that identifies you will be reported.*** Mathematica Policy Research will not associate responses with any of the individuals or centers who participate. We will not provide information that identifies you or your center to anyone outside the study team, except as required by law. Your responses will be used only for statistical purposes.
- This survey is voluntary, but your response is critical for producing valid and reliable data. You may skip any questions you do not wish to answer; however, we hope that you answer as many questions as you can. Participation in the study will not impose any risks to you as a respondent. If you have any questions about your rights as a research volunteer, contact Tim Bruursema at 202-484-3097.

I have read and I understand the above statements and agree to participate in the survey.

If you would like a copy of this disclosure statement, please email us at [tbruursema@mathematica-mpr.com](mailto:tbruursema@mathematica-mpr.com) or by phone at (202) 484-3097.

Thank you very much for your participation in this survey!
