

Option 1: **Module 3, Section A: Community Level Initiative Report**

CSBG Eligible Entities will use this form to report on initiatives intended to achieve community level outcomes. The information reported on this status page will provide valuable information about community initiatives in the current reporting period. This form also allows CSBG Eligible Entities to note initiatives that ended or were completed in the current reporting period, report on NPIs achieved, and provide comments and explanations. CSBG Eligible Entities will update the initiative's progress in future reporting periods.

Instructional Notes

Module 3 - Community Level

Module 3, Section A: Community Initiative Status Form

Section A: Community Initiative Status Form is where CSBG Eligible Entities identify initiatives intended to achieve community level outcomes. This form provides a central place to report valuable information about a single community initiative that started, continued, or ended during the current reporting period. The information reported on the status form will be selected via a dropdown menu or written as a narrative.

Module 3, Section B: Community National Performance Indicators (NPIs) - Data Entry Form

Section B: Community NPIs Data Entry Form provides an opportunity for CSBG Eligible Entities to enter data for the community level outcomes reported in Section A, Line 14. Entities may select from the indicators outlined in this section, or create their own indicator if none of the provided indicators captures what the CSBG Eligible Entity is trying to achieve. To facilitate the reporting, use, and learning from Community NPIs the Annual Report provides two types of indicators (**Counts of Change** and **Rates of Change**).

The first way to report impact is the **Counts of Change** indicators. These are basic measures that provide the number of units being measured, e.g. jobs, houses, resources, etc. that have been added (created) or subtracted (eliminated), and in some cases maintained, in the community the CSBG Eligible Entity has targeted.

The second way to report impact is the **Rates of Change** indicators. While requiring a bit more information, these indicators tell the full story of the *magnitude of the impact* a community initiative (usually involving multiple organizations) has had in a community.

Module 3, Section C: Community Strategies List

Section C: Community Strategies List provides a basic identification of strategies, arranged by Domain and by topic area. The list cannot be all-inclusive; as such, an “other” category is included. This standardized list will aid in local and state analysis of the relationship between community-level strategies and outcomes.
