

ASPA COVID-19 PUBLIC EDUCATION CAMPAIGN

A campaign to increase vaccine acceptance and reinforce basic prevention measures

CET – Annotated Questionnaire (Wave 14)

Note: The questions below are the proposed questions for the fourteenth wave of the Weekly Current Events Tracker (CET). Questions highlighted in yellow will be asked every week; questions highlighted in blue will be rotated into the survey on a monthly basis; and questions highlighted in green are meant to be asked in Wave 14 only or are being asked again to update data on a variable of interest. This wave's module is Vaccine Misinformation and Public Vaccinations. This week we have added questions assessing the response to the lift in the J&J vaccine pause, as well as attitudes towards childhood vaccination. ASPA will provide OMB with updates to the questionnaire for subsequent Waves.
