Primary domicile is that location established or claimed as the permanent residence or "home" of the participant. If primary domicile is outside the United States, use the following codes: 77777 = All Other Countries 88888 = Mexico 99999 = Canada For persons on active military duty, states should record the zip code associated with the APO or FPO as defined by the Military Postal Service Agency.  | 00000  | R                      | R             | R           | R                       | R                                    | R          | R  | R  | R   | R   | R          | R                                    | R   | R         | R                                | R    | R              | R                    | R |  |  |  |           |
| 104   | Economic/Labor Market Area and Physical Location Code | IN 9                       | Record the code (maximum of 9-digit) of the economic/labor market area and physical location in which the participant received his/her first service with significant staff involvement and is financially assisted by the program. Grants use the flexibility to use the first 5-digits of this field for identifying the economic region or labor market area in which the participant began receiving services with significant staff involvement. The next 4-digits of this field should be used to identify the physical location in which the participant began receiving services with significant staff involvement. Unless otherwise specified by ETA, codes contained within this field are determined by the grantee. Record 999999999 to indicate "statewide/virtual office" if the participant only received remote or virtual self-service or informational activities. Record 000000000 if not known. A physical location means a designated One-Stop Career Center, an affiliated One-Stop partner site, or other specialized centers and sites designed to address special customer needs, such as a company work site for dislocated workers. | 000000000  | R                      | R             | R           | R                       | R                                    | R          | R  | R  | R   | R   | R          | R                                    | R   | R         | R                                | R    | R              | R                    | R |  |  |  |           |

| 415  | Migrant and Seasonal Farmworker Designation as defined at 20 CFR 651.10                                    | IN 1                    | Record 1 if the participant is a seasonal farmworker, meaning an individual who is employed, or was employed in the past 12 months, in farmwork (as described at 20 CFR 651.10) of a seasonal or other temporary nature and is not required to be absent overnight from his/her permanent place of residence. Non-migrant individuals who are full-time students are excluded. Labor is performed on a seasonal basis where, ordinarily, the employment pertains to, or is of the kind exclusively performed at certain seasons, or periods of the year and which, from its nature, may not be continuous or carried on throughout the year. A worker who moves from one seasonal activity to another, while employed in farm work, is employed on a seasonal basis even though he/she may continue to be employed during a major portion of the year. A worker is employed on other temporary basis where he/she is employed for a limited time only or his/her performance is contemplated for a particular piece of work, usually of short duration. Generally, employment which is contemplated to continue indefinitely is not temporary.<br>Record 2 if the participant is a migrant farmworker, meaning a seasonal farmworker (as defined above) who travels to the job site so that the farmworker is not reasonably able to return to his/her permanent residence within the same day. Full-time students traveling in organized groups rather than with their families are excluded.<br>Record 0 if the participant does not meet the condition described above.<br>Leave blank if this data element does not apply to the individual. | 1 = Seasonal Farmworker<br>2 = Migrant<br>0 = No   | R   | R             | R           | R                       | R                                   | R          | R                                   | R                                       | R  | R  | R        | R                                     | R   | R         | R                              | R     | R              |                          |  |  |

| 1104   | Most Recent Date Received Staff-Assisted Job Search Activities         | DT 8                    | Record the most recent date that the participant was provided job search activities with significant staff involvement, and which are designed to help the participant plan and carry out a successful job hunting strategy. The services include resume preparation assistance, job search workshops, job finding clubs, and development of a job search plan. "Resume Assistance" - Providing instructions on the content and format of resumes and cover letters and providing assistance in the development and production of the same. "Job Search Workshops" - An organized activity that provides instruction on resume writing, application preparation, interviewing skills, and/or job lead development. "Job Finding Clubs" - Have all the elements of a Job Search Workshop, plus a period of structured application where participants attempt to obtain jobs. "Job Search Planning" - Development of a plan (not necessarily a written plan) that includes the necessary steps and timelines to achieve employment in specific occupational, industry, or geographic area. Leave blank if the participant did not receive a job search activity with significant staff involvement. Additional Note: This definition excludes participants who receive workforce information services or attend a TAP employment workshop. Those services will be collected and reported separately.  | YYYYMMDD    | R   | R             | R           | R                       | R                                   | R          | R                                   | R                                       | R  | R  | R        | R                                    | R   | R         | R                                 | R     |                |

This element has two separate requirements: 1. Severely limited employment prospects, and 2. Residence in an area of persistent unemployment. Both must be met for a "yes" answer. Severely limited employment prospects means a substantially higher likelihood that an individual will not obtain employment without the assistance of the SCSEP or another workforce development program. Persons with severely limited employment prospects have more than one significant barrier to employment; significant barriers to employment may include but are not limited to: having a substantial employment history, basic skills, and/or English-language proficiency; lacking a high school diploma or the equivalent; having a disability; being homeless; or residing in socially and economically isolated rural or urban areas where employment opportunities are limited. Persistent unemployment means that the annual average unemployment rate for a county or city is more than 20 percent higher than the national average for two out of the last three years. | 1 = Yes<br>0 = No  |   |               |              |                          |                                      |            |                                     |   |   |                                  |             |                                      |     |           |                                      | R     |                |                     | R |   |

The interpretation of the WIOA inclusion of "child of an incarcerated parent" as an eligibility factor has been a current or formerly incarcerated parent as both create higher risk of criminal offense for children.

| DATA ELEMENT NO.                                    | DATA ELEMENT NAME  | PUBLIC COMMENTS  | STAFF COMMENTS/RESPONSES |
|---|--|--|--------------------------|
| <b>SECTION A - INDIVIDUAL INFORMATION</b>           |  |  |                          |
| <b>SECTION A.01 - IDENTIFYING DATA</b>              |  |  |                          |
| *101  | State Code of Residence  | <b>Texas Workforce Commission</b> - It is not clear why the Joint PIRL doesn't include county, zip code or other geographic identifiers which could be used for sub-state program evaluation when DOL's proposed PIRL includes those elements.   |                          |
| 105   | Special Project ID - 1 Special Project ID - 2 Special Project ID - 3 | <p><b>Geo Solutions</b> - The definition does not include awarded NEG's prior to the new Dislocated Worker Grants (DWG) Grants defined in WIOA. However, there is a DWG Section which allows for only one DWG grant to be reported. If there are multiple NEG's associated to a participant, are existing NEG's no longer reported? Under WIASRD reporting there was a place to record multiple NEG Grants, but that appears to have disappeared under PIRL. Will accommodations be made for reporting multiple NEG or DWG grants? How often will DOLETA publish all Special Project Codes in order to assure proper reporting?</p> <p><b>Washington</b> -The DOL-PIRL provides for reporting up to three different special project codes. Rather than providing multiple columns to collect this information ESD proposes that DOL provide a single column that can accommodate multiple codes, including cases where participants may be co-enrolled in multiple special projects. A similar approach was taken by DOL when reporting on VRAP and EUC participants during the recession, each program was provided its unique code but an additional code was created to represent participants enrolled in both programs.</p> <p><b>Texas</b> - The DOL-PIRL provides for reporting up to three different special project codes. While this might seem like enough, given that DOL only has three projects that are currently tracked, as soon as a fourth program becomes an option, it will be logically possible to have a person in four programs without a way to report all four. The One-Stop Common Customer Record (OSCCR) used with the Workforce Information Streamlined Performance Report (WISPR) solved this issue by setting up a single combination element in which each character of the field could report a different special project (each project was given a single character alpha or numeric value that allowed tracking of 36 different programs). The DOL-PIRL took a similar approach in the Category of Disability element design, and TWC recommends creating a single Special Project ID element that operates the same way.</p> <p><b>Missouri</b> - Currently, the TAPR uses data element #912, Special ETA Project ID, to capture dual enrollment of TAA and TAACCCT. When the Trade Act data is included in the PIRL, which data element, #106 Special Project ID-1, #107 Special Project ID-2, or #108 Special Project ID-3 (or some other data element), will be used to capture this information?</p> |                          |
| <b>SECTION A.02 - EQUAL OPPORTUNITY INFORMATION</b> |  |  |                          |
| *200  | Date of Birth (WIOA)   | <b>North Dakota</b> - Note states that the date of birth field is mandatory for Vocational Rehabilitation (RSA). COMMENTS: Why wouldn't a date of birth be required for all programs?  |                          |
| *202  | Individual with a Disability (WIOA)                                  | <b>Texas Workforce Commission</b> - This element is to be populated based on status at Date of Participation. It is not clear why the Joint PIRL doesn't include county, zip code or other geographic identifiers which could be used for sub-state program evaluation when DOL's proposed PIRL includes those elements.   |                          |

| 203   | Category Of Disability                 | <p><b>Geo Solutions</b> - The definition for the reportable values has changed drastically. Is this item only to be collected on records where the program entry date is 7/1/2016 forward? Any record that is less than 7/1/2016 will never have these reportable values; therefore, are we to report as did not disclose? There is a concern about the detailed level of disability, are special accommodations to be made in state system to limit the visibility of this information?</p> <p><b>CA - EDD</b> - CA EDD is seeking clarification. Since the code values have changed drastically from the WIASRD, ET 406 Handbook and the TAAPR, our system does not currently capture these new values. For participants enrolled prior to 7/01/2016, what code value should be reported? Seeking clarification on what code value to report if an individual has more than one category of disability applicable to them.</p> <p><b>Oregon CC</b> - We feel this is too intrusive and we question the relevance as a data element for helping to serve customers. Data element #202 - INDIVIDUAL WITH A DISABILITY should be more than enough information for research and accountability purposes. <b>Kern Inyo Mono Consortium</b> - We are concerned about asking the client for specific category of disability since it may be a violation of health privacy laws. It should be made clear how the question to the client should be phrased</p>   |                          |
| *205  | American Indian / Alaska Native (WIOA) | <p><b>Sonoma &amp; CA Indian Manpower Consortium</b> - American Indian/Alaska Native definition changed from the WIASRD to the proposed PIRL. The definition appears to be narrowed to members, the change is not clear. Please provide clarification.</p>  |                          |
| *206  | Asian (WIOA)                           | <p><b>National Immigration Forum</b> - Require collection of disaggregate data on Asian American Pacific Islander (AAPI) participants and make the data available for public analysis in the ETA Participant Individual Record Layout as well as the ETA Performance Scorecard. The many individual ethnicities that comprise the AAPI community have widely varying educational attainment and socioeconomic status. Disaggregating AAPI data is important and necessary. It will allow the Federal government, researchers, and advocates to understand the diverse workforce needs, Participation, and outcomes of the AAPI participants in WIOA programs. Requiring the collection of disaggregate data on AAPI participants and making this data available for public analysis is fully aligned with Executive Order 13515 - Asian American and Pacific Islander Community. The EO requires Federal agencies to increase AAPIs access to and participation in Federal programs which they may be underserved, including "foster[ing] evidence-based research, data-collection, and analysis on AAPI populations and subpopulations, including research and data on public health, environment, education, housing, employment, and other economic indicators of AAPI community wellbeing." As program operators must identify a participant's ethnicity in order to determine if the participant is Asian, the burden of collecting and submitting disaggregate data to the Departments of Labor and Education would be minimal and greatly outweighed by the need to better understand AAPI participants.</p> |                          |
| *210  | More Than One Race (WIOA)              | <p><b>Geo Solutions</b> - This can be obtained by looking at the individual record and when multiple races are reported the "common PIRL" indicator (if needed) is set to 1. Why does this need to be a separate reporting item?</p>  |                          |
| <b>SECTION A.03 - VETERAN CHARACTERISTICS</b> |  |   |                          |

| DATA ELEMENT NO. | DATA ELEMENT NAME                  | PUBLIC COMMENTS   | STAFF COMMENTS/RESPONSES |
|------------------|------------------------------------|---|--------------------------|
| 300              | Veteran Status                     | <p><b>Washington</b> - Under DOL policy, a Local Veterans' Employment Representative (LVER) is allowed to work with a veteran under certain conditions. For example, LVERs may meet with veteran job seekers referred by other staff for specific employment opportunities. The Performance Scorecard indicates that counts of veterans served by LVERs are required, but the proposed Veterans Programs element in the DOL-PIRL does not have a means to report that a LVER served the veteran, which would make it impossible to comply with the scorecard's requirement. Therefore, ESD recommends that the Veterans Programs element be modified to allow for reporting whether the individual was served by Disabled Veterans' Outreach Program (DVOP) staff, LVER staff, both, or neither, aligning with the current reporting approach in the 200A, B &amp; C (VETSA, B, C) reports.</p> <p><b>Texas</b> - Under DOL policy, a Local Veterans' Employment Representative (LVER) is allowed to work 16 with a veteran under certain conditions. For example, LVERs may meet with veteran job seekers referred by 17 other staff for specific employment opportunities. The Performance Scorecard indicates that counts of veterans 18 served by LVERs are required, but the proposed Veterans Programs element in the DOL-PIRL does not have a 19 means to report that a LVER served the veteran, which would make it impossible to comply with the scorecard's 20 requirement. Therefore, TWC recommends that the Veterans Programs element be modified to allow for 21 reporting whether the individual was served by Disabled Veterans' Outreach Program (DVOP) staff, LVER staff, 22 both, or neither. Additionally, TWC recommends the element not have "unknown" as a possible selection, as 23 there should be no conditions in which a state is unable to determine whether a Participant received services 24 from staff funded under Jobs for Veterans State Grants</p>   |                          |
| 301              | Eligible Veteran Status            |   |                          |
| 302              | Campaign Veteran                   | <p><b>CA - EDD</b> - In the WIASRD and the ET 406 Handbook, a campaign veteran is referred to as a participant that has a coding value of 2 for the Eligible Veteran Status data element; however, the PIRL refers to a campaign veteran as an "eligible veteran (i.e., coding value 1 in Element #301)." Under the PIRL, can a participant be a campaign veteran if they served less than 180 days (record 1 for #301)?</p> <p><b>Nevada</b> - The descriptive narrative contains an obsolete website cited as a resource used for determining Veterans Eligibility. The narrative lists this: "Record 1 if the participant is an eligible veteran (i.e., coding value 1 in Element #301) who served on active duty in the U.S. armed forces during a war or in a campaign or expedition for which a campaign badge or expeditionary medal has been authorized as identified and listed by the Office of Personnel Management (OPM). A current listing of the campaigns can be found at OPM's website <a href="http://www.opm.gov/veterans/html/vgmedal2.asp">http://www.opm.gov/veterans/html/vgmedal2.asp</a>." However, the listed website redirects the viewer to the FEDS HireVETS website where a short abbreviated version of what constitutes a war zone and campaign expedition is presented, the viewer can then click through to OPM.Gov where Federal Veterans Preference is cited. The information presented on that page is used to determine Veterans Priority of Service in the federal work place. This website is not relevant to what is being collected in VOPAR. The previous website listed historical timelines and names of all campaigns and wars by date, and was useful when determining whether or not to check the Campaign Veteran box into the local data management system. These systems send the information into VOPAR, where it is used to track the required data. A more current and relevant website needs to be listed. The resource should be a revised webpage containing the more useful information contained in the previous website. A major use of this information is in determining the eligibility of National Guard and Reserve members to receive services by a Disabled Veteran Outreach Program Specialist with the Jobs for Veterans Act. If the member has served in one of the campaigns but does not meet the requirement of 181 days of active duty, the fact of serving in a war zone or receiving a campaign medal along with having a Significant Barrier to Employment (SBE) would make them eligible to receive DVOP services.</p> |                          |

| *400             | Employment Status at Program Entry (WIOA) | <p><b>AFOP</b> - Many migrant and seasonal farmworkers who enroll with NFJP grantees wish to pursue full-time employment in the agricultural industry, often with employers that they work for seasonally. In these cases, participants enter training and gain skills to perform higher paying full-time jobs with the same employer and are never laid off or unemployed. We suggest that DOL make a distinction for these individuals who remain employed and pursue promotion with their current employer to be considered as "employed seeking agricultural upgrade" to ensure that these important and meaningful placements do not negatively impact entered employment outcome calculations. Seeking further guidance and clarification on the definition of program entry for Title I, Title III and TAA. CA recommends that program entry occur at the time of participation and first service.</p> <p><b>CA - EDD</b> - If an individual is co-enrolled across multiple programs (e.g., Title I Adult and TAA), how is the employment status reported? CA suggests that each employment status should be captured and reported separately for each program entry.</p> <p>Seeking clarification on "not in labor force." Please provide further guidance on when it is appropriate to select this code value.</p> <p>CA recommends that an employment status for "underemployed" be added to this data element</p> <p><b>DES/RSA</b> - Does this include subsidized employment wages?</p> <p><b>Texas</b> - TWC strongly objects to the use of the "not in labor force" classification to exclude people from employment measures, particularly for AEFLA, as noted elsewhere in these comments and in our NPRM comments. If the final regulations and reporting guidance does not exclude those "not in the labor force" from employment outcome measures, as TWC has suggested, there is no need to capture the information and doing so will require many states to make otherwise unnecessary WF and VR system changes. TWC has anticipated the position that code is necessary to exclude those who were incarcerated from employment measures and developed another solution by modifying the EXCLUSIONARY REASONS element. This will ensure that those who are not incarcerated or otherwise institutionalized will be included in the employment outcome measures as WIOA intended...TWC also recommends changing the data element name to "Employment Status at Date of Participation"...</p> <p><b>Telamon</b> - It is recommended that USDOL make distinction for individuals who remain employed and pursue promotion with their current employer to be considered as "employed seeking agricultural upgrade" to ensure that these critical placements do not negatively impact entered employment outcome calculations....</p> <p><b>SC Low Country</b> - I am concerned with category 3 - not in labor force (i.e., those who are not employed and are not actively looking for work, including those who are incarcerated) because it does not take into consideration individuals who may be entering or re-entering the workforce, such as emerging youth and disconnected adults. We understand why excluding from this data element individuals who are incarcerated, but do not understand why the measure would exclude individuals who are entering or re-entering the workforce. We recommend that DOL add an additional code value for element no. 400 that accounts for individuals who are unemployed but re-entering the workforce.</p> |                          |

| *407  | Highest School Grade Completed (WIOA)  | <p><b>Geo Solutions</b> - There is concern with the proposed list and definitions provided. Under WIASRD reporting we report 13-15 years of college or vocational school years completed, the PIRL only defines college years. This appears to be an error/typo, because the Scorecard report labels have "1-4 Years of More of College, or Full-Time Technical or Vocational School" and vocational school training is common in employment and training. In addition, in current reporting in WIASRD, WP and Trade files there is a separate and reportable value of 90 - Other Post-Secondary Degree or Certification and this is missing in the PIRL. Is this an error/typo?</p> <p><b>CA EDD</b> is seeking clarification. The WIASRD, ET 406 Handbook and the TAAPR have a code for "attained other post-secondary degree or certificate." Has this been removed in the PIRL? If an individual completes Full-Time Technical or Vocational School, which code value would be selected for this data element?</p> <p><b>Sonoma</b> - some data element response codes require further definition for consist use and to avoid user error (i.e Highest School Grade Completed Record 16 if the participant completed some college).</p> <p><b>Texas</b> - TWC recommends using the existing DOL standards for reporting the number of years of post-secondary education where the Participant did not receive a degree or other recognized credential. There is a significant difference between a person with 6 months of post-secondary education and one with 3.5 years and yet the proposed coding structure treats them as the same (code 16, some college).</p> <p><b>National Immigration Forum</b> - Include educational attainment completed in foreign countries in the definition of "highest grade completed". Job seekers, including immigrants, may have completed their education in a foreign country and recognizing that attainment is important. Doing so can aid service providers in determining the appropriate services a participant requires, such as prior learning assessments, re-licensing/credentialing, etc. The Departments may already intend to include educational attainment completed in foreign countries in the definition for "highest school grade completed;" if so, clarification is needed.</p> |                          |

| 701   | Pregnant or Parenting Youth  | <p><b>ND</b> - There are several data elements in the beginning part of this document, relating to participant characteristics, that are defined differently than what the Vocational Rehabilitation Report 911 is defined. This would require Vocational Rehabilitation to report very similar data element with differing definitions for both the PIRL as well as their 911 Report. Based on Page 2 of the Supporting Statement document, states will be required to prepare a single common core PIRL annually. If that is the case, several questions arise on how that information will be reported for a single individual. Here is an example that frequently occurs and based on the fact that Vocational Rehabilitation can serve 14-year-olds, it could happen more frequently: An individual is enrolled through Vocational Rehabilitation at the age of 14. They remain active in the program and at the age of 18, they enroll in WIOA Title I Youth. At the time of initial enrollment with Vocational Rehabilitation, they were not an offender, single parent, or basic skills deficient but were In School, H.S. or less. Now four years later when they begin services with WIOA Title I Youth, the individual is an offender, single parent, and basic skills deficient, but at that point in application with WIOA Title I, their school status is Not attending school; H.S. graduate all of these are data elements that need to be reported. As an aggregated core program PIRL, would the earliest date of participation the date that gets reported on the PIRL, along with all of the initial characteristics? If so, many important barriers/reporting elements will be overlooked/buried when reporting data for this individual.</p> |                          |

The rationale is the fact that in-school youth between 18 and 21, who qualify for the school lunch program, may be candidates for the Adult program and the parents of youth on the school lunch program should also be considered low income for the adult program. This same logic applies to the Youth In High Poverty Areas category of low income. Program participants may be unaware of cultural barriers that hinder their chance at employment; therefore reporting will be inaccurate.<br/> ? It will be very difficult to pose this question to program participants in a way that will not appear bigoted, judgmental or potentially racist. The question is an attempt to quantify participants' perception of something that is inherently both deeply personal and entirely subjective.<br/> ? DOL may want to consult an anthropologist to assess the usefulness and scientific viability of this data for study.</p> <p><b>Geo Solutions</b> - The definition outlined for this report item is very broad and can be interpreted as such. For example, older workers could perceive themselves as having a cultural barrier, or relocated workers from the North or South could perceive barriers. We believe the definition needs to be further clarified to insure relevancy and consistency in reporting.</p> <p><b>Texas</b> - "Cultural Barrier" is statutorily required to be tracked and reported. However, the proposed definition is highly subjective, requiring Participants to indicate if they perceive themselves as "possessing attitudes, beliefs, customs, or practices that influence a way of thinking, acting, or working that may serve as a hindrance to employment." The more subjective the definition is, the less consistent is the data. This will make the data less usable in analysis, particularly target setting. Additionally, the operational definition in the PIRL references a state that "may serve as a hindrance to employment," which seems a decidedly lesser degree of severity than the statutory phrase "facing substantial cultural barriers." TWC recommends modifying the PIRL definition to reduce subjectivity and focus on individuals facing a substantial barrier to employment as a result of the cultural barrier.</p> <p><b>Telamon</b> - This data collection requirement is over burdensome and appears to lack usefulness for the following reasons:<br/> • Program participants may be unaware of cultural barriers that hinder their chance at employment resulting in inaccurate reporting.<br/> • This question requires high sensitivity to pose in a way that does not appear racist and / or judgmental. Unfortunately, not all staff possess high level training in this area, and some are more discreet than others. The PIRL asks for most recent exit in program year. Will states have more than one exit in a program year or not?</p> <p><b>ND</b> - If many of the measures are wage based and this is determined by the date of exit, it is unclear how the core programs can do common reporting when the same individuals, being served by more than one title, have different exit dates, which is where the performance measurement oftentimes begins. North Dakota believes all programs should share the same exit date, even if this means that participant results are not reported for several years after no longer receiving services from one of the core programs as another core program continues to provide services. Reporting multiple exit dates for the same participant and reporting multiple performance results does not give a clear picture of what happened to a specific individual after receiving the services they received through more than one title.</p> |                          |

In the PIRL, Item 305 is transitioning veteran, but there is no separate item for recently separated vet that we can find. The Work Experience definition in the PIRL is actually close to the youth program element definition and has no correlation to Career or Training Services. Work Experience as an Individualized Career Service should not include any sub-items except summer employment, internships and job shadowing. The other sub-items should be deleted from work experiences as an Individualized Career Service. Work Experiences as a youth program element (item 1405) should have all the sub-items in the statutory definition.</p> <p><b>Geo Solutions</b> - OJT and Transitional WEX are defined as training in statute, but is reported in the #1205-Work Experience reporting item. | 1211   | Transitional Jobs  | <b>Colorado</b> - Unlike OJT, the ETA PIRL has a separate item for Transitional Jobs and also lists it as an option under item 1205 - work experiences. In both instances transitional jobs is identified as an Individualized Career Service. However, WIOA identifies it as a training service. The duplicate listing and the apparently arbitrary decision to identify it as a career service can only lead to confusion and potential double counting. "Within 1 year" sets the "acceptable end date" but not a beginning date. If the Participant is coenrolled in an AEFLA and post-secondary program (which is generally recognized as an innovative, successful model), during the POP, that should be sufficient to meet the intent of §116(b)(2)(A)(iii). Therefore, this data element should be revised to allow for enrollment during the POP.  |                          |

| *1603            | Type of Employment Match 2nd Quarter After Exit Quarter (WIOA) | <p><b>Nevada</b> - States to record the type that's value is greatest. What if the values are equal for more than one type?</p> <p><b>SC</b> - The PIRL shows this data element no. 1603 "Type of Employment Match 2nd Quarter After Exit Quarter" allows for 8 different code values. The Data Element Instructions say to: use the appropriate code to identify the method used in determining the participant's employment status in the second quarter following the quarter of exit. Wage records will be the primary data source for tracking employment in the fourth quarter after the exit quarter. If participants are not found in the wage records, grantees may then use supplemental data sources. If the participant is found in more than one source of employment using wage records, record the data source for which the participant's earnings are greatest. Record 0 if the participant was not employed in the second quarter after the quarter of exit. Leave blank if this data element does not apply to the participant. Additional Note: If the participant is found employed in a wage record source (e.g., Federal, Military) that cannot be translated into quarterly earnings amounts, states should treat these employment matches as supplemental data and use coding value 5 = Supplemental through case management, participant survey, and/or verification with the employer. While the PIRL states that grantees may use supplemental data sources, it does not look like the calculation document (ETA 2015-0008-0003) will include anything that is not wages: "wages &gt;0 &lt;99999.99" or "5=Other Administrative Wage Records." The code value of 6 is not mentioned in the calculations. There also appears to be confusion around what code value 5 means, PIRL seems to contradict itself where it talks about the Federal, Military employment records. The use of "6=Supplemental through case management, participant survey, and/or verification with the employer" is a valuable tool for those individuals who become self-employed or for those employers who do not or are not required to report. Entrepreneurial training is listed as a training service and many other Career and Training services could lead to self-employment. Self-employment is a valid outcome; however, there is no way to capture this type of employment except through Case Management, there are also those exceptions when some employers fail to report, are not required to report or we have data entry mismatches that do not allow for wage record matches.</p> <p>These concerns are also applicable to the calculation of "Median Earnings" as the individuals in the measure are based on the same Employment Status at Program Participation, the calculation for "Credential Attainment" as it applies to those who earn a HSD/GED, and "Employment Rate Q4"</p> <p><b>ND</b> - Under WIA the WIASRD file reported State and WRIS wages as one reporting value. | *1606            | Employed in 4th Quarter After Exit Quarter (WIOA)   | <p><b>AFOP</b> - Reporting on an additional quarter of employment is extremely burdensome for programs such as NFJP that rely on data gathered by case managers supplied by participants and employers. The new extended period for retention will mean a redesign of system operations and may mean a refactoring of how grantees establish caseload-to-staff ratios to absorb the additional workload into existing budgets and staffing plans. This additional time requirement may mean that we spend less time providing direct services with clients and more time spent on administrative reporting requirements.</p> <p><b>Telamon</b> - Reporting on an additional quarter of follow up employment retention is unrealistic for programs such as NFJP unless NFJP grantees are granted "blanket" access to wage and employment data currently available to One-Stop operators. Reporting on this elements relies on data gathered by case managers as supplied by participants and employers. While the intent of an extended reporting time is understood, the unintended consequence may be to distract from case management services while case managers expend more time and effort on gathering retention follow up data. Please consider, the retention reporting period continues to stretch while performance outcomes continue to be expected by USDOL within a 12 month funding period at which time, NFJP grants are zero based. It is recommended that the retention follow-up period remain third quarter after exit quarter. It is further recommended that if retention follow up periods continue to stretch, the Department explore ways to avoid zero basing NFJP grants so as to match funding periods with expected outcome periods upon which future funding is based.</p> |                          |

Since WRIS are technically "State Wage Records" there is no need to modify the label for "Code 1"</p> <p><b>Nevada</b> - States to record the type that's value is greatest.</p> <p>What if the values are equal for more than one type?</p> <p><b>ND</b> - Under WIA the WIASRD file reported State and WRIS wages as one reporting value. Under the new PIRL, 1=State wage records and 2=WRIS wage records. Frequently a participant will have state and WRIS wages for the same quarter. Under the WIA WIASRD file, wages are summed for a total and reported as 1, which includes both State and WRIS. How would this situation get reported on the PIRL 1 or 2? Recommend leaving State and WRIS wages as one value.</p>  |                          |
| *1608            | Employment Related to Training (WIOA)   | <p><b>DES/RSA</b> - Will VR be required to categorize all services into career vs. training services?</p> <p><b>Texas</b> - If this element is supposed to be tied to employment in the 2nd quarter post exit (as the State Report Data Element Specifications seems to anticipate), the PIRL element description needs to reference that - it is easy to imagine employment in the 2nd quarter not being training-related but employment in another quarter being training-related. In addition, the element needs guidance as to how to determine whether employment is related to more general purpose training such as that delivered through AEFLA.</p> <p><b>ND</b> - Strongly object to excluding those not in the labor force at participation. This provision completely undermines the clear intent of WIOA to tie education to employment outcomes. This intent is most easily seen in 116(b)(2)(A)(iii) which does not allow attainment of a diploma/ equivalent to be included in the Credential Attainment measure without the person also becoming employed or enrolling in post-secondary education. Also the data element "ENTERED TRAINING RELATED EMPLOYEMENT" in the PIRL is not tied to the 2nd quarter after exit. If that is the intent, the definition in the PIRL needs to be changed.</p>  |                          |

As TWC 31 noted in response to the preamble for WIOA Notice of Proposed Rulemaking (NPRM) §652.302, TWC estimates it 32 may cost \$2 million to modify its reporting systems to incorporate a new data element on employer wage 33 reports. This estimate excludes the cost that employers would be forced to bear for such a change.</p> <p><b>Nevada</b> - Nevada wages only have NAICS employer codes. Burden to collect O*net codes outweighs usefulness of the information.</p>  |                          |

| *1618   | Retention with the same employer in the 2nd Quarter and the 4th Quarter (WIOA) | <p><b>Geo Solutions</b> - The definition states the following: "the participant's employer in the second quarter also matches the employer in the fourth quarter."<br/> • The definition provided states that FEIN number are used report a Yes to this specific element.<br/> • There are state laws that prevent FEIN numbers to be released as they are considered proprietary information. Additionally, UI State Tax Numbers can also be considered proprietary information. This affects the release of this information when reporting wages through WRIS and WRIS2.<br/> • This may require state law changes which affects consistency in obtaining/sharing information across states.</p> <p><b>CA-EDD</b> - The NPRMs do not list "retention with the same employer" as an indicator of performance. In addition, the Program Performance Scorecard does not have a line item for this element, so CA EDD is seeking clarification on why these data are being requested. Based on the data element definition, it is unclear how States are expected to capture this information. Please provide further guidance and clarification. In addition, if a participant is employed with more than one employer in the 2nd quarter after exit, and then is only employed with one of those same employers in the 4th quarter after exit, will this data element be recorded as "yes" or "no"?</p> <p><b>Texas</b> - This element appears to be aligned with the proposed measure of effectiveness serving employers proposal in the WIOA NPRM. As TWC noted in response to that proposal, the proposed Retention with the Same Employer measure as defined by the Departments is not a measurement of effectiveness serving employers because it is not limited to those who have employment with a new employer. TWC had people exit immediately after getting a new job (same quarter) which would mean that the measure would focus on employment with the same employer for 5 quarters. Others exit before beginning employment and if they become employed in the 2nd quarter after exit, then the measure focuses on 3 quarters of employment. recommended that the measure be limited to those Participants who had new employment to limit "false positives" where an employed participant was looking for new employment but ultimately gave up on that search and continued working for their original employer; the proposed measure would count this as evidence of effectively serving employers when it is no such thing. It appears that the Departments were attempting to utilize a TWC-developed performance measure for Maintaining Employment Connections. However, TWC's version of the measure was not designed to be exit based. POP and Exits are "job seeker-focused" concepts. To make the measure "employer-focused" it needs to be based on the quarter of the hire. An added benefit of this modification is that tying the measure to the quarter where a new connection is made rather than waiting until exit makes the measure more timely to report. More practically, applying this measure as an exitbased measure makes it less consistent since some</p> |                          |

This new standard may mean partnering with another entity, and possibly paying for this service from a third party vender. This will add an additional reporting and tracking layer to an already filled case-manager list of tasks to accomplish for each new participant. We also request that guidance for this measure takes into consideration both skills that can be quantified through assessment, and other types of job readiness skills that participants may gain through counseling and practices other than classroom instruction. We suggest detailed case notes as a method for tracking such gains. The intensive case management service delivery model that NFJP is built on, includes detailed custom training plans developed for each participant, often referred to as an Individual Employment Plan (IEP) or Individual Training Plan (ITP), to identify skills deficits. We recommend the department include as an additional method of tracking skill gains the review of the IEP or ITP documenting corrected deficits with detailed case notes.</p> <p><b>Geo Solutions</b> - The Measurable Skill Gains PIRL items 1807, 1808, 1809, and 1810 require many additions into state systems in order to collect the data to be reported.
