Authority: 33 U.S.C. §1225, 46 U.S.C. §70103, and 50 U.S.C. §191 authorize the collection of this information.

Purpose: Following a port disruption, the U.S. Coast Guard must quickly gather port impact information to determine what infrastructure and support services are not available or only partially available. Gathering port disruption information enables the U.S. Coast Guard to provide critical input to those federal, state, and local response organizations that are engaging in restoring the port to its pre-disruption condition.

Routine Uses: It is used by the U.S. Coast Guard Marine Transportation System Recovery Unit to assess the condition of the port, prioritize recovery efforts, and gauge the effectiveness of the response. A complete list of the routine uses can be found in the system of records notice associated with this form, "Department of Homeland Security/U.S. Coast Guard-013 - Marine Information for Safety and Law Enforcement (MISLE)." The Department's full list of system of records notices can be found on the Department's website at <http://www.dhs.gov/system-records-notices-sorns>.

Disclosure: This is a voluntary solicitation for information and is not mandatory; however the U.S. Coast Guard cannot properly assess the condition of the port without this valuable input.

An agency may not conduct or sponsor, and a person is not required to respond to a collection of information unless it displays a valid OMB control number.
