

Memorandum

United States Department of Education
Institute of Education Sciences
National Center for Education Statistics

DATE: April 13, 2021

TO: Robert Sivinski, OMB

THROUGH: Carrie Clarady, OMB Liaison, NCES

FROM: Kelly Worthington, NCES Administrative Data Division, Elementary/Secondary Branch Chief, NCES

SUBJECT: EDFacts Data Collection School Years 2020-21 and 2021-22 Spring 2021 Change Request (OMB# 1850-0925 v.7)

EDFacts is a U.S. Department of Education (ED) initiative, conducted by the National Center for Education Statistics (NCES), to collect, analyze, report on, and promote the use of high-quality, pre-kindergarten through grade 12 (pre-K–12) performance data for use in education planning, policymaking, and management and budget decision making to improve outcomes for students. EDFacts collects data **on behalf of** ED grant and program offices for approximately 150 data groups for all 50 states, Washington DC, Puerto Rico, and seven outlying areas and freely associated states (American Samoa, Federated States of Micronesia, Guam, Marshall Islands, Commonwealth of the Northern Mariana Islands, Republic of Palau, and the U.S. Virgin Islands), the Department of Defense Education Activity (DoDEA), and the Bureau of Indian Education (BIE). The request to collect EDFacts data for the 2019-20, 2020-21, and 2021-22 school years was approved in August 2019 (OMB# 1850-0925, with the last nonsubstantive change to the package approved in July 2020, v.6).

There is one change requested in this memo. The change is a result of the Perkins V reauthorization, new reporting requirements in the Consolidated Annual Report (CAR) for the Carl D. Perkins Career and Technical Education Act of 2006 (OMB 1830-0569), and data reporting efficiencies identified by the Office of Career and Technical Education (OCTAE).

Change Requested: Discontinue the collection of twelve (12) data groups associated with the Perkins V grant program.

The data owner, the Office of Career and Technical Education (OCTAE), will be discontinuing the collection of 12 data groups through the EDFacts IT System beginning with SY 2020-21. The data will still be collected, stored, and accessible through another data system managed by OCTAE.

Career and Technical Education Data Groups

- 681 – CTE Concentrators Academic Achievement Table
- 702 – CTE Concentrators in Graduate Table
- 704 – CTE Concentrators Non-Traditional Program Table**
- 736 – CTE Concentrators Placement Table
- 753 – CTE Concentrators Placement Type Table
- 847 – CTE Secondary Concentrator Enrollment Table
- 848 – CTE Secondary Participation Enrollment Table
- 858 – CTE Concentrators in Extended Graduate Rate Table
- 859 – CTE Concentrators Postsecondary Credential Table
- 860 – CTE Concentrators Postsecondary Credits Table
- 861 – CTE Concentrators Work-Based Learning Table
- 862 – CTE Concentrators Program Quality Table

Prior to the reauthorization of Perkins, *EDFacts* collected data for OCTAE, the data were transmitted to OCTAE, and then populated into the CAR. The revised CAR reporting requirements (approved March 2020) include data at a more granular level than is included in the *EDFacts* package for OCTAE.

To meet the CAR reporting requirements, OCTAE will have grantees report data directly into the Perkins Information Management System (PIMS). All states used the OCTAE system in SY 2019-20; five states also chose to optionally report the 12 CTE data groups through *EDFacts* (Alabama, Colorado, Delaware, Illinois, and Louisiana). OCTAE did not use the data submitted to *EDFacts* since the states submitted the same information (plus additional detail) to PIMS.

To summarize, we are submitting the change request to discontinue the collection of OCTAE data through *EDFacts* starting in SY 2020-21 (due January 2022) for the following reasons:

- To align with new reporting requirements associated with Perkins V and the new CAR
- Decrease duplicate reporting and reduce reporting burden (as noted earlier; the change will only impact states that were optionally reporting to *EDFacts*)
- All the data proposed for the change will continue to be submitted to the OCTAE managed system (there is no decrease in availability of data)
- Streamline reporting for OCTAE grantees into one OCTAE managed system that will allow submission of both secondary and post-secondary data needed for the CAR
- To decrease cost for ED data management systems (from two systems into one)

Unless OMB has questions, *EDFacts* and OCTAE will immediately develop joint messaging to notify data submitters that the Perkins V data will be collected exclusively through OCTAE's IT System starting in SY 2020-21 (due January 2022). This change will only impact the states that were planning to submit to both systems for SY 2020-21 (five state listed earlier in this memo).

These twelve data groups have been removed from Attachment A (pp. 61-64, 66, 68-70, 162-177; see Attachment 1, pp. 4-23 of this document for the full text that was deleted).

****DG704** was to be retired in SY2019-20 (v.4, PDF p.66). However, the new DG approved in the package (PDF pp. 167-168) was identical to DG704. Therefore, we did not strictly retire DG704 but rather collapsed the two data groups in the process of collection, and reused the name “DG704” in internal data structures. With this memo update we are retiring all DGs related to CTE. Consequently, we are also retiring DG704 (PDF p.66) and the new DG (PDF pp.167-168) as part of this update.

Attachment 1: Full text of changes and deletions

Change 1. Request to discontinue the collection of twelve (12) data groups associated with the Perkins V grant program
