

is incorrect, or upon a determination that the results from the alternate test procedure are unrepresentative of the basic models' true energy consumption characteristics. 10 CFR 431.401(k)(1). Likewise, Senneca may request that DOE rescind or modify the waiver if the company discovers an error in the information provided to DOE as part of its petition, determines that the waiver is no longer needed, or for other appropriate reasons. 10 CFR 431.401(k)(2).

III. Order

After careful consideration of all the material that was submitted by Senneca, the various public-facing materials (*e.g.*, product literature, installation manuals) for the units listed in the petition, and comment(s) received, in this matter, it is *ordered* that:

(1) Senneca must, as of the date of publication of this Order in the **Federal Register**, test and rate the basic models listed in Appendix I of its July 21, 2020 petition as provided in Docket Number EERE-2020-BT-WAV-0009-0003 with the alternate test procedure as set forth in paragraph (2):

(2) The alternate test procedure for the Senneca basic models identified in paragraph (1) of this Order is the test procedure for walk-in doors prescribed by DOE at 10 CFR part 431, subpart R, appendix A, except that the PTO value specified in section 4.5.2 "Direct Energy Consumption of Electrical Components of Non-Display Doors" shall be 97 percent for door motors. All other requirements of 10 CFR part 431, subpart R, appendix A and DOE's regulations remain applicable.

(3) *Representations.* Senneca may not make representations about the energy use of a basic model identified in paragraph (1) of this Order for compliance or marketing, unless the basic model has been tested in accordance with the provisions set forth above and such representations fairly disclose the results of such testing.

(4) This waiver shall remain in effect according to the provisions of 10 CFR 431.401.

(5) DOE issues this waiver on the condition that the door performance characteristics, statements, representations, test data, and documentary materials provided by Senneca are valid. If Senneca makes any modifications to the controls or configurations of these basic models, such modifications will render the waiver invalid with respect to that basic model, and Senneca will either be required to use the current Federal test method or submit a new application for a test procedure waiver. DOE may

rescind or modify this waiver at any time if it determines the factual basis underlying the petition for waiver is incorrect, or the results from the alternate test procedure are unrepresentative of a basic model's true energy consumption characteristics. 10 CFR 431.401(k)(1). Likewise, Senneca may request that DOE rescind or modify the waiver if Senneca discovers an error in the information provided to DOE as part of its petition, determines that the waiver is no longer needed, or for other appropriate reasons. 10 CFR 431.401(k)(2).

(6) Senneca remains obligated to fulfill all applicable requirements set forth at 10 CFR part 429.

Signed in Washington, DC, on December 28, 2020.

Daniel R. Simmons,

Assistant Secretary for Energy Efficiency and Renewable Energy.

BILLING CODE 6450-01-P

DEPARTMENT OF ENERGY

Agency Information Collection Extension

AGENCY: Office of Environment, Health, Safety and Security, Department of Energy.

ACTION: Notice and request for comments.

SUMMARY: The Department of Energy (DOE), pursuant to the Paperwork Reduction Act of 1995, intends to extend for three years, an information collection request with the Office of Management and Budget (OMB). The information continues to be necessary to provide DOE with the information needed to reduce the number of workers currently exposed to beryllium in the course of their work at sites managed by DOE or its contractors; minimize the levels of and potential for exposure to beryllium; and provide medical surveillance to ensure early detection of chronic beryllium disease.

DATES: Comments regarding this proposed information collection must be received on or before March 5, 2021. If you anticipate difficulty in submitting comments within that period, contact the person listed below as soon as possible.

ADDRESSES: Written comments may be sent to James Dillard, U.S. Department of Energy, Office of Health, Safety and Security, AU-11/Germantown Building, 1000 Independence Avenue SW, Washington, DC 20585, or by email at: james.dillard@hq.doe.gov.

FOR FURTHER INFORMATION CONTACT:

Requests for additional information or copies of the information collection instrument and instructions should be directed to James Dillard, U.S. Department of Energy, Office of Health, Safety and Security, AU-11/Germantown Building, 1000 Independence Avenue SW, Washington, DC 20585, or by email at james.dillard@hq.doe.gov or by telephone at (301) 903-1165.

SUPPLEMENTARY INFORMATION:

Comments are invited on: (a) Whether the extended collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology.

This information collection request contains: (1) *OMB Control No.:* 1910-5112; (2) *Information Collection Request Title:* Final Rule: Chronic Beryllium Disease Prevention Program; (3) *Type of Review:* Renewal; (4) *Purpose:* This collection provides the Department with the information needed to continue reducing the number of workers currently exposed to beryllium in the course of their work at DOE facilities managed by DOE or its contractors; minimize the levels and potential exposure to beryllium; to provide information to employees, to provide medical surveillance to ensure early detection of disease; and to permit oversight of the programs by DOE management. DOE issued a final rule on December 8, 1999 (64 FR 68854), Chronic Beryllium Disease Prevention Program, which includes provisions that impose collections of information; (5) *Annual Estimated Number of Respondents:* 6,650 (26 DOE sites and 6,624 workers affected by the rule); (6) *Annual Estimated Number of Total Responses:* 16,613; (7) *Annual Estimated Number of Burden Hours:* 29,290; (8) *Annual Estimated Reporting and Recordkeeping Cost Burden:* \$1,867,465; (9) *Response Obligation:* Mandatory.

Statutory Authority: Atomic Energy Act of 1954, 42 U.S.C. 2201, and the Department of Energy Organization Act, 42 U.S.C. 7191 and 42 U.S.C. 7254.

Signing Authority

This document of the Department of Energy was signed on December 23, 2020, by Matthew B. Moury, Associate Under Secretary for Environment, Health, Safety and Security, pursuant to delegated authority from the Secretary of Energy. That document with the original signature and date is maintained by DOE. For administrative purposes only, and in compliance with requirements of the Office of the Federal Register, the undersigned DOE Federal Register Liaison Officer has been authorized to sign and submit the document in electronic format for publication, as an official document of the Department of Energy. This administrative process in no way alters the legal effect of this document upon publication in the **Federal Register**.

Signed in Washington, DC, on December 29, 2020.

Treena V. Garrett,

Federal Register Liaison Officer, U.S. Department of Energy.

BILLING CODE 6450-01-P

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Docket No. CP21-20-000]

Algonquin Gas Transmission, LLC; Notice of Request Under Blanket Authorization and Establishing Intervention and Protest Deadline

Take notice that on December 18, 2020, Algonquin Gas Transmission, LLC (Algonquin), 5400 Westheimer Court, Houston, Texas 77056, filed in the above referenced docket a prior notice pursuant to Section 157.205 and 157.208 of the Federal Energy Regulatory Commission's regulations under the Natural Gas Act and the blanket certificate issued to Algonquin by the Commission in Docket No. CP87-317-000,¹ seeking authorization to replace approximately 490-foot segment of 26-inch diameter pipeline of its Line ML in Putnam County, New York (Stony Point Anomaly-Metro-North Railroad Crossing Project). The new segment is to be installed via conventional boring method and will be placed adjacent to the existing Line ML pipeline within Algonquin's existing easement. Algonquin estimates the cost of the project to be \$12.5 million, all as more fully set forth in the request which is on

file with the Commission and open to public inspection.

In addition to publishing the full text of this document in the **Federal Register**, the Commission provides all interested persons an opportunity to view and/or print the contents of this document via the internet through the Commission's Home Page (<http://ferc.gov>) using the "eLibrary" link. Enter the docket number excluding the last three digits in the docket number field to access the document. At this time, the Commission has suspended access to the Commission's Public Reference Room, due to the proclamation declaring a National Emergency concerning the Novel Coronavirus Disease (COVID-19), issued by the President on March 13, 2020. For assistance, contact the Federal Energy Regulatory Commission at FERCOnlineSupport@ferc.gov or call toll-free, (888) 208-3676 or TTY, (202) 502-8659.

Any questions concerning this application should be directed to Lisa A. Connolly, Director, Regulatory, Algonquin Gas Transmission, LLC, P.O. Box 1642, Houston, Texas 77251-1642, by telephone at (713) 627-4102, by fax at (713) 627-5947, or by email at lisa.connolly@enbridge.com.

Public Participation

There are three ways to become involved in the Commission's review of this project: You can file a protest to the project, you can file a motion to intervene in the proceeding, and you can file comments on the project. There is no fee or cost for filing protests, motions to intervene, or comments. The deadline for filing protests, motions to intervene, and comments is 5:00 p.m. Eastern Time on February 26, 2021. How to file protests, motions to intervene, and comments is explained below.

Protests

Pursuant to section 157.205 of the Commission's regulations under the NGA,² any person³ or the Commission's staff may file a protest to the request. If no protest is filed within the time allowed or if a protest is filed and then withdrawn within 30 days after the allowed time for filing a protest, the proposed activity shall be deemed to be authorized effective the day after the time allowed for protest. If a protest is filed and not withdrawn within 30 days after the time allowed for filing a

protest, the instant request for authorization will be considered by the Commission.

Protests must comply with the requirements specified in section 157.205(e) of the Commission's regulations,⁴ and must be submitted by the protest deadline, which is February 26, 2021. A protest may also serve as a motion to intervene so long as the protestor states it also seeks to be an intervenor.

Interventions

Any person has the option to file a motion to intervene in this proceeding. Only intervenors have the right to request rehearing of Commission orders issued in this proceeding and to subsequently challenge the Commission's orders in the U.S. Circuit Courts of Appeal.

To intervene, you must submit a motion to intervene to the Commission in accordance with Rule 214 of the Commission's Rules of Practice and Procedure⁵ and the regulations under the NGA⁶ by the intervention deadline for the project, which is February 26, 2021. As described further in Rule 214, your motion to intervene must state, to the extent known, your position regarding the proceeding, as well as your interest in the proceeding. For an individual, this could include your status as a landowner, ratepayer, resident of an impacted community, or recreationist. You do not need to have property directly impacted by the project in order to intervene. For more information about motions to intervene, refer to the FERC website at <https://www.ferc.gov/resources/guides/how-to-intervene.asp>.

All timely, unopposed motions to intervene are automatically granted by operation of Rule 214(c)(1). Motions to intervene that are filed after the intervention deadline are untimely and may be denied. Any late-filed motion to intervene must show good cause for being late and must explain why the time limitation should be waived and provide justification by reference to factors set forth in Rule 214(d) of the Commission's Rules and Regulations. A person obtaining party status will be placed on the service list maintained by the Secretary of the Commission and will receive copies (paper or electronic) of all documents filed by the applicant and by all other parties.

² 18 CFR 157.205.

³ Persons include individuals, organizations, businesses, municipalities, and other entities. 18 CFR 385.102(d).

⁴ 18 CFR 157.205(e).

⁵ 18 CFR 385.214.

⁶ 18 CFR 157.10.
