Project Reporting and Evaluation

All ARP grantees will be required to report on the number of individuals compensated or hired. All ARP grantees except Grants to Local Arts Agencies for Subgranting grantees are asked to report the number of participants in in-person and virtual events. This information will help the Arts Endowment assess the impact of ARP funds on the recovery of the arts community following the COVID-19 pandemic.

Beyond the general operating support reporting requirements for all grantees, Locals Subgranting grantees will be asked to assist in the collection of additional information from their grantees that can help the Arts Endowment determine the degree to which agency objectives were achieved. You will be asked to provide a summary of the subaward selection process and indicate the number of organizations that applied and the number of organizations that were awarded that serve populations that are underserved such as those whose opportunities to experience the arts are limited by ethnicity, economics, geography, or disability. In addition, you will be required to submit a spreadsheet providing information on all subawardees, including, but not limited to the number of individuals compensated or hired by all subawardee institutions as a result of ARP funds, subawardee zip code, and subawardee organizational budget. Copies of the final descriptive reports and the subaward spreadsheet are available for review on arts.gov.
