**About the Study.** SNACS-II will look at the nutrition and wellness policies and activities in child care centers, family child care homes, and before-and-after-school programs across the country. This important study will help providers, sponsors, and USDA understand how CACFP operates so that it can better help children learn and grow. SNACS-II will provide an updated picture of CACFP and examine how key outcomes have changed since updated meal pattern requirements went into effect to encourage healthier eating. Mathematica and its partner, Westat, are conducting SNACS-II for USDA. While participation in this study is voluntary, providers are strongly encouraged to participate per Section 28 of the National School Lunch Act.

**Data Collection Activity.** This Pre-Visit Cost Telephone Interview will gather information that will help the study team plan for data collection. Information will be collected about the center's CACFP food service operations and administration of the CACFP. Center directors or child care sponsors will complete this telephone interview. It is expected to take approximately 15 minutes to complete.

**Protecting Privacy.** All information gathered from child care sponsors, child care centers, family child care homes, child care administrators and staff, and families participating in this study is for research purposes only and will be kept private to the full extent allowed by law. Responses will be grouped together. No staff, parents, or children will be identified by name. Being part of the study will not affect CACFP benefits for programs or families. Being part of the study will not affect any USDA benefits received by programs or families participating in this data collection.

**Questions.** If you have questions about the study please [contact me directly or] call us toll-free at [STUDY PHONE], email us at [STUDY EMAIL] or visit [URL]. We will be happy to answer your questions and to help you in any way we can.
