

InPort Screenshots (13 Pages)

Form 1: Data Set Identification

The screenshot shows a web browser window with the URL `fisheries.noaa.gov/inport/item/64536/mode/dscr/identification/edit`. The page title is "Edit Identification Score Fields" for an "Example Data Set". The form contains the following fields:

- Title:** Text input field containing "Example Data Set".
- Data Set Scope Code:** Dropdown menu with "Data Set" selected.
- Abstract:** Large text area for entering a brief narrative summary.
- Purpose:** Large text area for describing the project, system, or study.
- Creation Date:** Includes a "Day" dropdown, a "YYYY-MM-DD" input field, and an "Unknown" checkbox.
- Status:** Dropdown menu.

Buttons at the bottom include "Save Changes" (blue) and "Cancel" (orange). A "Help" sidebar on the right explains the abstract requirements. The footer includes the InPort logo, version "Release 4.7.0", build "FINAL (2021-03-17 16:47 UTC)", and navigation links: "About InPort", "Contact", "Feedback", "Release Notes", "System Availability", "Privacy", and "Security". Logos for FIS, NOAA, and other agencies are also present.

A Federal agency may not conduct or sponsor, and a person is not required to respond to, nor shall a person be subject to a penalty for failure to comply with an information collection subject to the requirements of the Paperwork Reduction Act of 1995 unless the information collection has a currently valid OMB Control Number. The approved OMB Control Number for this information collection is 0648-0024. Without this approval, we could not conduct this information collection. Public reporting for this information collection is estimated to be approximately 2.5 hours per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the information collection. All responses to this information collection are voluntary. Send comments regarding this burden estimate or any other aspect of this information collection, including suggestions for reducing this burden to the NMFS, Michael.chang@noaa.gov. Geospatial metadata is requested in accordance with Executive Order 12906 and NOAA Administrative Order 212-5.

Help

Access Constraint

Restrictions and legal prerequisites for accessing the data set. Includes any access constraints applied to assure privacy or intellectual property and any special restrictions on the use of the data.

For data with limitations to public access, a description of the methods by which the data are protected from unauthorized access or disclosure should be provided.

South Bound °: OR Degrees: Minutes: Seconds: N/S:

[Preview Bounds](#)

Description:

[Save Changes](#) [Cancel](#)

Help
W. Dec. Degrees
The westernmost longitude in which the data was collected.
Format: Real numbers; range from -180.0 to 180.0 longitude.
For data sets that include a complete band of latitude around the earth, the West Bounding Coordinate shall be assigned the value -180.0.
Latitude and Longitude do not apply to every Data Set. Latitude and Longitude can be empty so long as a description of the geographic area is provided in the field below.
Only the first Boundary Box is indexed by the NOAA Data Catalog at this time.

Form 10: Instruments

The screenshot shows a web browser window with the URL `fisheries.noaa.gov/inport/item/64536/mode/dscr/history/instruments/edit`. The page header features the InPort logo and a search bar. The navigation menu includes 'My InPort', 'Organizations', 'Search', 'Stats', 'Admin', and 'Help'. The user 'Michael Chang' is logged in, with a 'Logout' button. The breadcrumb trail is 'Home > Catalog Item ID: 64536 > DSCR Mode > Edit Instruments'. The main content area is titled 'Edit Instruments' and includes the text 'Example Data Set' and 'Data Set (DS) | Cat ID: 64536 | Draft'. A section titled 'Instruments Available?' asks 'Is Instrument information available for this Data Set?' with radio buttons for 'Yes' (selected) and 'No'. Below this is an 'Add Instrument' section with a search input and a 'Search' button. A 'Back to Catalog Item' button is located at the bottom right of the main content area. A 'Help' sidebar on the right contains a 'History' section with the text: 'If Instrument information is not available for this Data Set, please indicate that this is the case, as well as the reason.' The footer includes the InPort logo, version information 'Release 4.7.0 Build FINAL (2021-03-17 16:47 UTC)', and a list of links: 'About InPort | Contact | Feedback | Release Notes | System Availability | Privacy | Security'. Logos for FIS, NOAA Fisheries, and other agencies are also present.

Form 11: Platforms

The screenshot shows a web browser window with the URL `fisheries.noaa.gov/inport/item/64536/mode/dscr/history/platforms/edit`. The page header includes the InPort logo, a search bar, and navigation links: My InPort, Organizations, Search, Stats, Admin, and Help. The user is logged in as Michael Chang. The breadcrumb trail is: Home > Catalog Item ID: 64536 > DSCR Mode > Edit Platforms. The main content area is titled 'Example Data Set' and shows 'Data Set (DS) | Cat ID: 64536 | Draft'. The 'Platforms Available?' section asks 'Is Platform information available for this Data Set?' with radio buttons for 'Yes' (selected) and 'No'. The 'Add Platform' section contains a message: 'No instruments have been added to this Catalog Item yet. A platform must have at least one mounted instrument. Please add any applicable instruments to this Catalog Item first.' A 'Back to Catalog Item' button is located below this message. A 'Help' sidebar on the right contains a 'History' section with the text: 'If Platform information is not available for this Data Set, please indicate that this is the case, as well as the reason.' The footer includes the InPort logo, version information (Release 4.7.0, Build FINAL (2021-03-17 16:47 UTC)), and navigation links: About InPort, Contact, Feedback, Release Notes, System Availability, Privacy, and Security. Logos for FIS, NOAA Fisheries, and other agencies are also present.

Help

Data Accuracy

A description of what is known about the degree of agreement between an individual measurement (or the central tendency of a number of measurements) to the true value, including random (precision) and systematic (bias) error associated with all aspects of a measurement system.

Example

...Billfishes are known to be misidentified....Accuracy of logbook data can be verified against sales receipts from public auction...
