public comment on federal register

you issue so many permits to harass animals that they do represent a substantial attack on the lives and health of those species. you allow 100% of those who ask for permits that shows no real consideration for the value of these permits. it also shows absolutely no respect top the right to life of these animals. you are captured and dont do our job correctly at this agency. you allow animals to be killed and injured with abandon. thsi cmmetn is for the public record. we need to show discretion that some profitter cmonig in to kill, injure an anaml has a worthless pursuit and the proposal must be denied. you dont do that. you just let them all go helter skelter about their killign and harassing to make money. this is completely unacceptable. this commetn is for teh public record. please receiptp. jean publiee jean [pbuilc1@gmail.com](mailto:pbuilc1@gmail.com)
