Following the lunch break, the Council will be briefed on the NOAA Fisheries Southeast Region's for-hire electronic reporting requirements and their application to New England recreational party/charter vessels that possess permits for South Atlantic species. Next, the Council will receive a presentation from the NMFS Highly Migratory Species (HMS) Management Division on Amendment 13 to the Consolidated HMS Fishery Management Plan, which focuses on bluefin tuna issues. The Council will discuss and approve comments on this proposed rule. Immediately following, the Council will receive reports on recent meetings of NMFS's HMS Advisory Panel and the Advisory Committee to the U.S. Section of the International Commission for the Conservation of Atlantic Tunas. The Council then will close out the meeting with other business.

Although non-emergency issues not contained on this agenda may come before the Council for discussion, those issues may not be the subject of formal action during this meeting. Council action will be restricted to those issues specifically listed in this notice and any issues arising after publication of this notice that require emergency action under section 305(c) of the Magnuson-Stevens Fishery Conservation and Management Act, provided the public has been notified of the Council's intent to take final action to address the emergency. The public also should be aware that the meeting will be recorded. Consistent with 16 U.S.C. 1852, a copy of the recording is available upon request.

OMB Control Number: 0648-0151.

Form Number(s): None.

Type of Request: Regular submission (extension of a current information collection).

Number of Respondents: 699.

Average Hours per Response: 281 hours for an Incidental Harassment Authorization (IHA) application; 30 hours for an IHA Interim Draft Report; 140 hours for an IHA draft annual report; 28 hours for an IHA final annual report (if applicable); 1,200 hours for the initial preparation of an application for new regulations; 70 hours for an annual Letter of Authorization (LOA) application; 225 hours for an LOA draft annual report; 70 hours for a LOA final annual report (if applicable); 640 hours for a LOA draft comprehensive report; 300 hours for an LOA final comprehensive report; 140 hours for a Gulf of Mexico Rule (GOM) draft annual report; 28 hours for a GOM final annual report; and 1,540 hours for PAM/PSO Surveys. Response times will vary for

the public based upon the complexity of the requested action.

Total Annual Burden Hours: 259,743.
Needs and Uses: This request is for an extension of a currently approved information collection, 0648-0151.

The Marine Mammal Protection Act of 1972 (MMPA; 16 U.S.C. 1361 *et seq.*) prohibits the "take" of marine mammals unless otherwise authorized or exempted by law. Among the provisions that allow for lawful take of marine mammals, sections 101(a)(5)(A) and (D) of the MMPA direct the Secretary of Commerce to allow, upon request, the incidental, but not intentional, taking of small numbers of marine mammals by U.S. citizens who engage in a specified activity (other than commercial fishing), within a specified geographical region if, after notice and opportunity for public comment, we find that the taking will have a negligible impact on the affected species or stock(s) and will not have an unmitigable adverse impact on the availability of the species or stock(s) for subsistence uses (where relevant). NMFS also must set forth the permissible methods of taking; other means of effecting the least practicable adverse impact on the species or stock and its habitat (mitigation); and requirements pertaining to the monitoring and reporting of such taking. NMFS Office of Protected Resources leads the process for the agency.

Issuance of an incidental take authorization (Authorization) under section 101(a)(5)(A) or 101(a)(5)(D) of the MMPA requires three sets of information collection: (1) A complete application for an Authorization, as set forth in our implementing regulations at 50 CFR 216.104, which provides the information necessary for us to make the necessary statutory determinations, including estimates of take and an assessment of impacts on the affected species and stocks; (2) information relating to required monitoring; and (3) information related to required reporting. These collections of information enable us to: (1) Evaluate the proposed activity's impact on marine mammals; (2) arrive at the appropriate determinations required by the MMPA and other applicable laws prior to issuing the authorization; and (3) monitor impacts of activities for which we have issued Authorizations to determine if our predictions regarding impacts on marine mammals remain valid.

We do not propose any changes to the information collection beyond expecting an increased number of respondents and responses due to increases in the number of requests for incidental take authorizations and requests for Letters

of Authorization from a recent GOM rule.

Affected Public: Business or other for-profit organizations; Not-for-profit institutions; State, Local, or Tribal government; Federal government.

Frequency: One application for every LOA or IHA, draft and final annual and comprehensive reports.

Respondent's Obligation: Mandatory.

Legal Authority: Marine Mammal Protection Act of 1972 (MMPA, 16 U.S.C. 1361 *et seq.*).

This information collection request may be viewed at www.reginfo.gov. Follow the instructions to view the Department of Commerce collections currently under review by OMB.

Written comments and recommendations for the proposed information collection should be submitted within 30 days of the publication of this notice on the following website www.reginfo.gov/public/do/PRAMain. SUPPLEMENTARY INFORMATION:

I. Abstract

The NMFS Southeast Regional Office proposes to extend without revision the information collection currently approved under OMB Control Number 0648–0365.

The NMFS Southeast Regional Office manages commercial fishing in Federal waters of the South Atlantic under the authority of the Magnuson-Stevens Fishery Conservation and Management Act (Magnuson-Stevens Act), 16 U.S.C. 1801 *et seq.*

Federally permitted seafood dealers who process or sell snapper-grouper species during seasonal fishery closures in the South Atlantic for those applicable species must maintain documentation, as specified in 50 CFR part 300 subpart K and 50 CFR 622.192(i), that such fish were harvested from areas other than state or Federal waters in the South Atlantic. The applicable snapper-grouper species are greater amberjack, gag, black grouper, red grouper, scamp, red hind, rock hind, yellowmouth grouper, yellowfin grouper, graysby, and coney. The documentation includes information on the vessel that harvested the fish, and where and when the fish were offloaded. NMFS requires the information for the enforcement of fishery regulations at 50 CFR 622, subpart I.

II. Method of Collection

The information is in the form of a paper affidavit, which a respondent creates and retains.
