Notes for Draft

1. Unless otherwise noted, there will be one question per screen.
2. Screens that have multiple questions (e.g., grids) are noted in the instructions prior the question.
3. Each screen will include links to 'resources' (help lines) and study contact information.
4. All of the victimization sections are intended to document up to 10 perpetrators. To save space on this draft, the different sections only carry out the pattern for 3-5 perpetrators.
5. Once a victimization is reported, the screen will include a reference to the particular victimization being reported. The text for this is indicated by the instruction "BURN LINE".
6. Words in uppercase are skip instructions, programming instructions for programmers, or general notes for readers of the document. Programming notes are also in boxes to distinguish from skip instructions and notes. Words in bold are displayed on screen for respondents to see. Question numbers are in brackets "[]".
7. The respondent selection method assumes an experiment with two different methods. The 'youngest male, oldest female' (YMOF) and the Rizzo-Brick-Park (RBP) Method. The YMOF will be used to directly select an individual in the letter sent to the household. For this method, the household will be asked to select the respondent before they sign onto the computer. For the RBP method, the respondent will be selected once signing onto the computer.
8. Respondents will be allowed to skip any question, except for items that are considered critical. When a critical item is skipped, the next screen will display the question again with a message in red: "You haven't answered the question yet. If possible, please provide an answer to this question as this is one of the key questions in this study. Your answer will help CDC understand more about this topic."
9. The following abbreviations are used within the instrument: BLANK is for when an item is skipped without respondents providing an answer, DK is for "I truly don't know", REF is for "I'd rather not answer", MTP is Made to Penetrate, and PTSD is Posttraumatic Stress Disorder.
10. This survey will be administered both in English and in Spanish (following translation).

PROGRAMMER NOTE: DISPLAY SC_INTRO2 ON ONE SCREEN.

Sometimes unwanted sex happens after a person is pressured into it, such as through verbal and emotional pressure and other nonphysical kinds of pressure. The following questions are about times in your life when someone may have ever used verbal or other nonphysical pressure to make you have sex when you didn't want to. This could be anyone, including strangers or someone you knew such as a romantic or sexual partner, a family member, a friend, teacher, co-worker or supervisor, or someone you have known for only a short time.

PROGRAMMER NOTE: DISPLAY SC15-SC17 ON ONE SCREEN; USE DROP-DOWN BOX FOR EACH ITEM WITH THE OPTIONS BEING NONE, 1, 2, 3, 4, 5, 6, 7, 8, 9, 10 OR MORE.

Telling you lies, making promises about the future they knew were untrue, threatening to end your relationship, or threatening to spread rumors about you?

[SC16] **Wearing you down by repeatedly asking for sex, or showing they were unhappy?**

Sometimes unwanted sex or sexual contact happens when a person is unable to consent to it or stop it from happening because they are too drunk, high, drugged, or passed out from alcohol, drugs, or medications. This can include times when they voluntarily consumed alcohol or drugs or times when they were given alcohol or drugs without their knowledge or consent. You might or might not have ever been in this type of situation. Please remember that even if someone uses alcohol or drugs, what happens to them is not their fault.

These questions use detailed and explicit language so that everyone is clear about what the questions are asking.
