**General Population**

# Table of Contents

**General Notes:**

The question numbers are the variable names. Question numbers in parentheses are for administrative purposes and will not appear on the final data set. CATI-System and other contractor-created variables are included in the survey instrument, are surrounded by brackets, and may be included on the final data set.

The following abbreviations are used within the instrument: legitimate skip is LEGIT SKIP, DK is Don't Know, REF is Refused, MTP is Made to Penetrate, and PTSD is Posttraumatic Stress Disorder. Responses of Don't Know, Refused and LEGIT SKIP will be represented using codes -1, -2 and -3, respectively. Blank fields will be interpreted as inadvertent skips.

This survey will be administered both in English and in Spanish (following translation).

Interviewers will not read answer options listed in ALL CAPS. Answer options listed in both upper and lower case are read to the respondent.

The minimum number of relationships identified per respondent should equal the maximum number of perpetrators reported for that respondent across all violence victimization behaviors of a specific type endorsed? If 996 is entered before the minimum number of relationships have been provided, a soft error check should appear. For example, If SC05=2 and SC06 = 4, then we should expect, at a minimum, 4 relationships to be provided. If 996 is entered for SC07_02 or SC07_03 or SC07_04, the soft check will appear.

The age at first occurrence of a victimization should be younger than the current age specified in RC1_CHK or calculated from RCMO and RCYR. If the age a victimization first occurred is older than current age, CATI will display a soft check: "*It looks as though I may have entered your current age wrong. We just entered {fill: response from current question} but earlier I put your current age as {fill: RespAge}. Would you like me to go back and change your current age or the age I just entered?*" Depending on the information provided, the interviewer will then either revise the current age, revise the age-at-first for the victimization behaviors in question, or suppress the check and keep the inconsistent responses. These occurrences should be tracked in real time. Age-at-first is a critical variable and if these inconsistencies are present at a high rate, we will want to reconsider the idea of a "soft check".). One note of caution: If the respondent age is changed, it is possible that this will cause inconsistencies with age-at-first collected in sections earlier in the survey, resulting in data quality (QA) errors in the data delivery - these QA failures will need to be documented and explained.

**--. Introduction to Victimization**
(V_INTRO)
**When we began this survey, I told you we'd be discussing health and injuries.  The next set of questions asks about experiences that can directly impact your health or may have resulted in injury.  These experiences may or may not have happened to you. There will be some questions about physical injuries, harassing behaviors, and unwanted sexual activity.** At any point, the questions are making you upset and you would like to speak with a trained professional, I can give you a phone number to call.

**Remember, you don't have to answer any question that you don't want to.  We suggest that you be in a private setting during the survey.  If, at any time, you do not feel physically or emotionally safe, you can just say "Goodbye".  I will understand and I will not call you back.  You can call me back if you'd like at {FILL: PRJ_CallInNumber}.**

**I'm going to ask you some detailed questions about times in your life when you may have ever experienced unwanted sexual situations with anyone, including strangers or someone you knew such as a romantic or sexual partner, a family member, a friend, teacher, co-worker or supervisor, or someone you have known for only a short time. These questions are detailed and the language is explicit, which some people may find upsetting. It is important that I ask the questions this way so that you understand what I mean. Your answers will help us to learn how often these things happen. You can skip questions you don't want to answer and you can stop at any time.**

**AD. Sexual Violence: Completed Alcohol/Drug-Facilitated Rape and Made to Penetrate**

AD_INTRO1

**In this section I will ask you about situations in your life in which you ever experienced unwanted sex or sexual contact. By this I mean sexual contact that you did not consent to and that you did not want to happen.**

**Sometimes unwanted sex or sexual contact happens when a person is unable to consent to it or stop it from happening because they are too drunk, high, drugged, or passed out from alcohol, drugs, or medications. This can include times when they voluntarily consumed alcohol or drugs or times when they were given alcohol or drugs without their knowledge or consent. You might or might not have ever been in this type of situation. Please remember that even if someone uses alcohol or drugs, what happens to them is not their fault.**

**These questions use detailed and explicit language so that everyone is clear about what the questions are asking.**

**If you have any questions or concerns about participating in the survey, please feel free to call the survey helpdesk , at 1-###-###-####}.  You will hear an option to speak with a project staff member.**

**Thank you for participating in CDC's study of health and injuries. We realize that some of the topics covered are quite personal and can be difficult to think and talk about.  We appreciate your willingness to be a part of this study and want you to know that we recognize the important contribution you have made.   Sometimes when people have participated in a study like this, they realize that they are interested in following up on some of the issues that they have been asked about in the study with someone who is professionally trained to deal with these kinds of issues. We are going to provide you the toll-free numbers of resources that you can use now or in the future if you want to speak further with someone.**

**You can reach the National Domestic Violence Hotline at 1-800-799-SAFE (7233).  You can reach the National Sexual Assault Hotline at 1-800-656-HOPE (4673). You can reach the National Child Abuse Hotline at 1-800-4-A-Child (1-800-422-4453). You can reach the National Suicide Prevention Lifeline at 1-800-273-TALK (8255).**

  [PAUSE THEN SAY: **Would you like me to repeat these numbers?**]

**That completes the interview.  Thank you for your participation. {We will be mailing your ($10/$40) check within the next few weeks. }**
