I agree that I will abide by the B Reader Code of Ethics when classifying chest radiographic images. If I participate in the Coal Workers' Health Surveillance Program, my performance will be conducted in the manner specified by HHS regulation 42 C.F.R. Part 37, and I understand that information related to classifications of individual radiographs made in connection with this program will be treated in a secure manner and will not be disclosed, unless otherwise compelled by law. I further understand that: 1) My B Reader certification requires an active license to practice medicine in the United States and I must notify the NIOSH B Reader Program within 60 days if my medical license is revoked, suspended, voluntarily relinquished or surrendered, or converted to inactive status*; 2) NIOSH does not regulate or monitor my classification of chest images performed for non-NIOSH purposes; 3) If NIOSH becomes aware of violations, or allegations of violations, of the B Reader Code of Ethics, it may, at its discretion, notify appropriate authorities, including the applicable State Board(s) of Medicine.

*Send written notification to:

Public reporting burden of this collection of information is estimated to average 10 minutes per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. An agency may not conduct or sponsor, and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden to CDC, Project Clearance Officer, 1600 Clifton Road, MS D-24, Atlanta, GA 30333, ATTN: PRA (0920-0020). Do not send the completed form to this address.
