

# SSI MARRIAGES

## 1 DESCRIPTION

---

The Marriage page captures and displays data related to marriages that are active or terminated for all the people on the Person Claim Summary page. It establishes marital relationships and collects the information about separated and former spouses. The information collected on the Marriage page is shared data among all claims where that person's SSN is active.

The new Marriage page will consist of two (2) sections:

- **“Marriage Information”**, which is part of Person Information
- and **“SSI Marriages”**, which is part of the SSI Claims System

The system only displays one section at a time.

## 3 UPDATED MARRIAGE COLLECTION DESIGNS

---

### 3.1 NAVIGATION RULES BETWEEN SSI AND PERSON INFORMATION MARRIAGES

These navigational rules explain how SSI navigation interacts with Person Information marriages.

- Person Information maintains the “**Marriage Information**” section of the Marriage page. This section is where users can view and update an individual’s marital information. Refer to “Person Information Marriage –Screen Package V13\_06102019.docx” for detailed images of the Person Information data collection.
- The SSI Claims Systems maintains the “**SSI Marriages**” section of the Marriage page. This section is where users can view and select whether a spouse is living with a claimant.
- The user accesses the Marriage page by any of the following:
  - Entering ‘AMAR’ into the TRANSFER TO field in the PCOM Modernized SSI Claims System (MSSICS), or
  - Selects ‘Marriage’ from the Person Status page in SSI Claims system, or
  - Selects ‘Marriage’ from the left navigation menu in SSI Claims system, or
  - Selects ‘Next’ on the page in the SSI path that immediately precedes the Marriage page.
  - Selects ‘Previous’ on the page in the SSI path that immediately follows the Marriage page.
- When the user access the Marriage page within the SSI Claims System, the system navigates the user to the “**Marriage Information**” section of the Marriage page (maintained within Person Information).
  - When a user selects ‘Save’ on the “**Marriage Information**” section of the Marriage page, the system navigates to the “**SSI Marriages**” section.
  - When a user selects ‘Show Marriage Information’ on the “**SSI Marriage**” section of the Marriage page, the system navigates to the “**Marriage Information**” section.

### 3.2 SSI MARRIAGE SECTION (SSI CLAIMS SYSTEM APPLICATION)

The screenshot shows the SSI Claims System Application interface. At the top, the browser address bar displays 'S2470GM.labs.addev.ssa.gov'. The application header includes a navigation menu with tabs: 'General Identification', 'Living Arrangements', 'Resources', 'Income', 'Benefit Leads', 'Summary', and 'Claim Edits and Alerts'. The 'General Identification' tab is active.

The main content area is titled 'Marriage' and displays the following information:

Name	Social Security Number (SSN)	Role
LAURA C SMITH	212-90-5100	Claimant

Below this information is a sidebar menu for 'General Identification' with the following items:

- Person Information
- SSI Application
- Disability
- Multiple SSNs
- Residency & Presence in the U.S.
- Payment Method
- Financial Permission
- Personal Information Authorization
- Wage Authorization
- Felony Warrant
- Child's Parents
- Marriage (1)
- Holding Out (0)
- Edit and Alerts

The main content area features a 'SSI Marriage' section with a 'Marriage Summary' table. The table includes a checkbox for each entry and a note: 'Select marriage if couple has lived together anytime since 08/31/2016'.

	Spouse Name	Spouse SSN	Spouse Birth Date/Age	Marriage Date	Marriage End Date	Spouse Deceased
<input type="checkbox"/>	TONY MILLER	212-90-5106	47	02/05/2012	Continuing	No

Below the table, there are two expandable sections:

- Show person remarks:** No remarks
- Show file documentation notes:** No notes

A 'Show Marriage Information' button is located at the bottom of the SSI Marriage section.

NOTE: We are updating the column header “Marriage Date” column to “Marriage Start Date” to reflect the Person Information term. Data on this screen will reflect the marriage data in Person Information.
