

Request for Approval under the “Generic Clearance for the Collection of Routine Customer Feedback” (OMB Control Number: 0970-0401)

TITLE OF INFORMATION COLLECTION: State Capacity Building Center CCDF Administrator Feedback Collection

PURPOSE:

The ACF Office of Child Care is seeking approval to collect feedback from the designated state administrators of ACF’s Child Care and Development Fund (CCDF) grants who receive various technical assistance services from the Child Care State Capacity Building Center (SCBC). The purpose of this survey of state administrators is to learn if the *overall* technical assistance services provided by the State Systems Specialists who are part of the SCBC are useful to the designated state administrators and how they can be improved. The information gathered will be used to inform planning and improvement of future technical assistance by the Office of Child Care.

The Child Care State Capacity Building Center (SCBC) is funded by the Office of Child Care to provide evidence-informed training and technical assistance services for State and Territorial public child care agencies and their partners. The SCBC has three teams—1) State Systems Specialist Network (SSS Network), 2) Infant Toddler Specialist Network (ITS Network), and 3) Intensive Capacity Building Network (ICB Network)—each of whom focuses on different areas, deploys a variety of technical assistance strategies, and works with a wide and differing variety of state staff and their partners.

- **State Systems Specialist Network.** The audience for the State Systems Specialist Network includes state Child Care and Development Fund (CCDF) administrators and their state staff and partners.
- **Infant Toddler Specialist Network.** The audience for the Infant Toddler Specialist Network are individuals working in states (in state government as well as their partners) who work on infant toddler services.
- **Intensive Capacity Building Network.** The Intensive Capacity Building Network provides intensive (by scope and duration) tailored technical assistance through long-term (24 to 48 months) consultation to 9 states and territories who applied to participate in this work, known as the Impact Project.

Under this generic clearance request, the Office of Child Care seeks feedback from the designated state administrator who is responsible for the overall administration of the federal CCDF grant. This survey is designed to gather information from them on specific aspects of the services-- the overall role of the State Systems Specialists, who work with them directly and who work to ensure effective coordination that meet the needs of state administrators across all of the ACF Office of Child Care technical assistance center.

Completed survey information will be reviewed by the SCBC evaluation team and the SCBC leadership team to identify areas of strength and weakness to develop recommendations to improve the provision of specialized technical assistance services.

Overall, the survey information will be used to improve technical assistance services to best meet the needs of users for responsive, quality, practical information.
