Proposed Questions

The following is a list of questions we would ask upon the conclusion of the webinar. This list is comprehensive; it contains the range of questions we expect we might want to ask across a variety of webinar topics. We do **not** intend to ask all of these questions after any single webinar. Rather, we intend to make a selection of four to eight of these questions for each webinar, including no more than three open-ended responses and an average response time of 5 minutes. We would ask our selection of questions either by emailing a survey link to our attendants after our webinar is over, or by having the questions directly embedded into the Adobe Connect presentation immediately upon our webinar's conclusion.

We would greatly appreciate if you answered a few questions about this NSECE webinar and your research interests. These questions should take no more than 5 minutes.

Please rate aspects of today's webinar on [today's topic] using the following scale:
