Request for Approval under the "Generic Clearance for the Collection of Routine Customer Feedback" (OMB Control Number: 0970-0401)

TITLE OF INFORMATION COLLECTION:

Personal Responsibility Education Program (PREP) Grantee Training and Technical Assistance Satisfaction and Needs Assessment

PURPOSE:

The purpose of the planned activity is to collect feedback from grantees on training and technical assistance (T&TA). Specifically, on how training events and technical assistance opportunities to date have met their needs. We will build from that information to ascertain any gaps and unmet needs to help increase satisfaction with the quality of future T&TA. Although T&TA is an ongoing activity for grantees, it is critical to obtain an assessment of their satisfaction with what they have received and to identify any gaps or unmet needs to be addressed. The feedback we receive from grantees will provide essential information that is critical for improving future trainings, technical assistance, and other resources and planning the type and topics for upcoming training sessions and materials that we will offer to the grantees. The information collected will help ensure that future T&TA is effective and efficient and new content and resources are appropriately tailored to address the grantees needs and improve overall satisfaction.

We believe that a survey is the most expeditious format to capture a range of needs of the diverse organizations who have received PREP funding. The survey will be web-based (developed in Survey Gizmo) and sent to the grantee points of contact for response. The survey will include mostly multiple choice, with a limited number of open-ended questions. We do not anticipate it will take longer than 25 minutes to complete.

DESCRIPTION OF RESPONDENTS:

Respondents are State PREP, Competitive PREP, Tribal PREP and PREP Innovative Strategies (PREIS) grantees of the Adolescent Pregnancy Prevention program.
