

FYSB Grantee COVID Survey

Welcome to the FYSB Grantee COVID Survey! The purpose of the COVID survey is to gather information on how the COVID pandemic has affected the ability of FYSB grantees to complete project activities and to inform FYSB guidance. The survey questions are separate from the COVID items asked in PREP and SRAE performance measures, and participation in this survey is voluntary.

We appreciate you taking the time to complete this survey. It is estimated that you will need approximately 15 minutes to submit your response. We recommend that the person who completes this survey is someone who is familiar with program activities across the sites and how the various sites have been impacted by COVID, such as a Project Director or Primary Contact for the grant.

Grantees who have more than one grant will be asked to complete a survey for each federal award. You will receive an email invitation with unique login information **for each grant**. Please complete this survey thinking specifically about your [GRANT YEAR GRANT TYPE/GRANT TYPE] grant.

THE PAPERWORK REDUCTION ACT OF 1995

This collection of information is voluntary and will be used to provide FYSB with information about how COVID will impact grantees this fall and inform future guidance to grantees. Public reporting burden for this collection of information is estimated to average 15 minutes per response, including the time for reviewing instructions, gathering and maintaining the data needed, and reviewing the collection of information. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB number for this information collection is 0970-0401 and the expiration date is 5/31/2021.
