

Welcome to the National Evaluation of the Health Profession Opportunity Grants Program (HPOG)!

Recently, you applied to receive services through the Health Profession Opportunity Grant (HPOG) program in your community. You also agreed to participate in the HPOG research study. Thank you for agreeing to be part of this important study! This packet will tell you a little more about what it means to be in the study.

OVERVIEW OF THE HPOG STUDY

The HPOG Study will help researchers, policymakers, and practitioners learn more about how training opportunities help people find better jobs.

- There are 32 HPOG programs across the United States participating in this study! You are one of about 20,000 people who applied to be in an HPOG program. Your participation is voluntary. Any information you give us will be kept private.
- Even if you were not one of the applicants selected to participate in the program, we still want to hear about your experiences.

Researchers at Abt Associates are conducting the HPOG Study for the Administration for Children and Families (ACF).

- Abt Associates is a private research company.
- ACF is one part of the U.S. Department of Health and Human Services (HHS).

You are one of about 20,000 study participants from 32 different HPOG programs across the United States! Your input is important to the study!

What does it mean to be an HPOG study

As a study participant, we may ask you to participate in two research activities:

- 1) Update your contact information, and
- 2) Take follow-up surveys about your experiences since you applied for HPOG.

Learn more about these activities on the next page (turn over →).

Contact Update Requests

When you agreed to be in the study, you also agreed to let us contact you every few months.

- We want to make sure we have your correct phone number, email, and street address in our records, so we can later contact you about the follow-up surveys.

You will receive a letter explaining how to update your contact information if it has changed.

- You can update your contact information by mail, online, or by telephone - whichever is easiest for you.
- You can choose whether to respond to these requests or not.
- The researchers will protect your personal information.

We understand that your time is valuable.

- It will take about 5 minutes to update your information.
- We will email you a code to redeem online for a \$5 gift certificate as a token of appreciation for each contact update response we receive back from you. If you do not have email or internet access, please indicate that on the form and we will help you redeem the gift certificate.
- You can update your information now on the form included in this packet.

HPOG Study Follow-Up Surveys

Over the next few years, researchers from Abt Associates may invite you to take surveys for the study.

- The surveys will help us learn more about your experiences since you applied to the HPOG program.
- The surveys will ask about your education and training experiences, the jobs you have had, and how things are going for you.

We are interested in the experiences of everyone who applied to HPOG programs, even if you were not selected to participate in the program.

- You can choose whether to participate in the surveys or not. Your experiences are unique and your participation is important.
- You can help us understand how different types of training and services can help people learn skills to get jobs in healthcare.
- The researchers will protect your personal information, and your name will not be used in any reports.

For more information on the HPOG Study, you may contact Ms. Gretchen Locke, the Abt Associates Project Director. Ms. Locke can be reached by:
