

DEPARTMENT OF THE INTERIOR**Fish and Wildlife Service**

[FWS–HQ–MB–2019–N114;
FXMB12310900WHO–190–FF09M26000;
OMB Control Number 1018–0023]

**Agency Information Collection
Activities; Submission to the Office of
Management and Budget for Review
and Approval; Migratory Bird Harvest
Information Program and Migratory
Bird Surveys**

AGENCY: Fish and Wildlife Service,
Interior.

ACTION: Notice of information collection;
request for comment.

SUMMARY: In accordance with the
Paperwork Reduction Act of 1995, we,
the U.S. Fish and Wildlife Service
(Service), are proposing to renew an
information collection with revisions.

DATES: Interested persons are invited to
submit comments on or before
November 25, 2019.

ADDRESSES: Send written comments on
this information collection request (ICR)
to the Office of Management and
Budget's Desk Officer for the
Department of the Interior by email at
OIRA_Submission@omb.eop.gov; or via
facsimile to (202) 395–5806. Please
provide a copy of your comments to the
Service Information Collection
Clearance Officer, U.S. Fish and
Wildlife Service, MS: JAO/1N PRB/
PERMA, 5275 Leesburg Pike, Falls
Church, VA 22041–3803 (mail); or by
email to *Info_Coll@fws.gov*. Please
reference OMB Control Number 1018–
0023 in the subject line of your
comments.

FOR FURTHER INFORMATION CONTACT: To
request additional information about
this ICR, contact Madonna L. Baucum,
Service Information Collection
Clearance Officer, by email at *Info_Coll@fws.gov*, or by telephone at (703) 358–2503. You may also view the ICR at <http://www.reginfo.gov/public/do/PRAMain>.

SUPPLEMENTARY INFORMATION: In
accordance with the Paperwork
Reduction Act of 1995, we provide the
general public and other Federal
agencies with an opportunity to
comment on new, proposed, revised,
and continuing collections of
information. This helps us assess the
impact of our information collection
requirements and minimize the public's
reporting burden. It also helps the
public understand our information
collection requirements and provide the
requested data in the desired format.

On February 28, 2019, we published
a **Federal Register** notice (84 FR 6814)
soliciting public comment on this
information collection for 60 days,
ending April 29, 2019. We received no
comments in response to that notice.

We are again soliciting comments on
the proposed ICR that is described
below. We are especially interested in
public comment addressing the
following issues: (1) Is the collection
necessary to the proper functions of the
Service; (2) will this information be
processed and used in a timely manner;
(3) is the estimate of burden accurate;
(4) how might the Service enhance the
quality, utility, and clarity of the
information to be collected; and (5) how
might the Service minimize the burden
of this collection on the respondents,
including through the use of
information technology.

Comments that you submit in
response to this notice are a matter of
public record. Before including your
address, phone number, email address,
or other personal identifying
information in your comment, you
should be aware that your entire
comment—including your personal
identifying information—may be
publicly available at any time. While
you can ask us in your comment to
withhold your personal identifying
information from public review, we
cannot guarantee that we will be able to
do so.

Abstract: The Migratory Bird Treaty
Act (16 U.S.C. 703–711) and the Fish
and Wildlife Act of 1956 (16 U.S.C.
742d) designate the Department of the
Interior as the key agency responsible
for (1) the wise management of
migratory bird populations frequenting
the United States, and (2) setting
hunting regulations that allow
appropriate harvests that are within the
guidelines that will allow for those
populations' well-being. These
responsibilities dictate that we gather
accurate data on various characteristics
of migratory bird harvest. Based on
information from harvest surveys, we
can adjust hunting regulations as
needed to optimize harvests at levels
that provide a maximum of hunting
recreation while keeping populations at
desired levels.

Under 50 CFR 20.20, migratory bird
hunters must register for the Migratory
Bird Harvest Information Program (HIP)
in each State in which they hunt each
year. State natural resource agencies
must send names and addresses of all
migratory bird hunters to Branch of
Monitoring and Information
Management, U.S. Fish and Wildlife
Service Division of Migratory Bird
Management, on an annual basis.

The Migratory Bird Hunter Survey is
based on the Migratory Bird Harvest
Information Program. We randomly
select migratory bird hunters and ask
them to report their harvest. The
resulting estimates of harvest per hunter
are combined with the complete list of
migratory bird hunters to provide
estimates of the total harvest for the
species surveyed.

The Parts Collection Survey estimates
the species, sex, and age composition of
the harvest, and the geographic and
temporal distribution of the harvest.
Randomly selected successful hunters
who responded to the Migratory Bird
Hunter Survey the previous year are
asked to complete and return a postcard
if they are willing to participate in the
Parts Collection Survey. We provide
postage-paid envelopes to respondents
before the hunting season and ask them
to send in a wing or the tail feathers
from each duck or goose that they
harvest, or a wing from each mourning
dove, woodcock, band-tailed pigeon,
snipe, rail, or gallinule that they harvest.
We use the wings and tail feathers to
identify the species, sex, and age of the
harvested sample. We also ask
respondents to report on the envelope
the date and location of harvest for each
bird. We combine the results of this
survey with the harvest estimates
obtained from the Migratory Bird
Hunter Survey to provide species-
specific national harvest estimates.

The combined results of these surveys
enable us to evaluate the effects of
season length, season dates, and bag
limits on the harvest of each species,
and thus help us determine appropriate
hunting regulations.

The Sandhill Crane Harvest Survey is
an annual questionnaire survey of
people who obtained a sandhill crane
hunting permit. At the end of the
hunting season, we randomly select a
sample of permit holders and ask them
to report the date, location, and number
of birds harvested for each of their
sandhill crane hunts. Their responses
provide estimates of the temporal and
geographic distribution of the harvest as
well as the average harvest per hunter,
which, combined with the total number
of permits issued, enables us to estimate
the total harvest of sandhill cranes.
Based on information from this survey,
we adjust hunting regulations as
needed.

Proposed Revision

In fall of 2019, we will be
implementing a new, online platform
for the Migratory Bird Hunter Survey. In
2018, OMB approved usability testing of
the online platform under the
Department of the Interior's "Fast

Track” clearance process (OMB Control Number 1090–0011). We are now ready to seek full OMB approval for the platform under the Service’s existing collection “Migratory Bird Information Program and Migratory Bird Surveys, 50 CFR 20.20 (OMB Control Number 1018–0023).

The platform will be optimized for use on multiple device types (computer, tablet, or phone; Android or Apple OS). Unlike the paper survey form, the online survey platform walks a participant through the process of entering their harvest for a single day, asking for one piece of information at a time. This reduces confusion and the likelihood that the hunter will provide incorrect information. Also, data quality

is improved at each step with a new system of checks and pre-populated menus which limit the types of responses and prevent errors (e.g., reporting harvest of the wrong species, or in the wrong State). We will continue to conduct the paper survey for 3 years, in order to ensure that data collected through the new method is sound, and to provide a side-by-side comparison of harvest estimates that can be used to calibrate the old survey to the new one. This is particularly important for maintaining a continuous time series of harvest estimates, despite changing methodology.

Title of Collection: Migratory Bird Information Program and Migratory Bird Surveys, 50 CFR 20.20.

OMB Control Number: 1018–0023.

Form Number: FWS Forms 3–165, 3–165A through E, and 3–2056J through N.

Type of Review: Revision of a currently approved collection.

Respondents/Affected Public: States and migratory game bird hunters.

Respondent’s Obligation: Mandatory for HIP registration information; voluntary for participation in the surveys.

Frequency of Collection: Annually for States or on occasion for migratory bird hunters.

Total Estimated Annual Nonhour Burden Cost: None.

Collection type/ form number	Number of respondents	Average number of responses each	Number of annual responses *	Average time per response	Total annual burden hours *
