Title of Information Collection		Consular Services: Immigrant Visa Applicant Satisfaction Survey	
Purpose			
<p>The Bureau of Consular Affairs (CA) desires to assess immigrant visa applicant satisfaction with a number of operational issues related to processing of immigrant visas at approximately 200 consular sections overseas. CA currently processes approximately 450,000 immigrant visas per year. To achieve good customer service and make appropriate use of scarce resources, CA would specifically appreciate feedback from immigrant visa applicants on the quality of our visa information, the accessibility of that information, the convenience of our appointment systems, and the professionalism of consular personnel.</p> <p>CA intends to use software to aggregate survey responses to facilitate the identification and analysis of global trends as well as provide each post the views of local respondents.</p>			
Description of Respondents			
<p>Respondents are foreign nationals who have applied for an immigrant visa. Respondents may also be the parent or guardian of a minor who is seeking an immigrant visa. In such cases, the respondent could be a U.S. citizen, Legal Permanent Resident, or foreign national.</p>

IF YOU ARE CONDUCTING A FOCUS GROUP, SURVEY, OR PLAN TO EMPLOY STATISTICAL METHODS, PROVIDE ANSWERS TO THE FOLLOWING QUESTIONS

The selection of your targeted respondents

1. Do you have a customer list or something similar that defines the universe of potential respondents and do you have a sampling plan for selecting from this universe? Yes No

If the answer is yes, please provide a description of both below (or attach the sampling plan). If the answer is no, please provide a description of how you plan to identify your potential group of respondents and how you will select them.

The survey would be provided to applicants who are applying for an immigrant visa. To complete an application, each applicant must personally visit a U.S. consular office overseas and be interviewed by a consular officer.

CA would like to use survey software and electronic media as much as possible in order to survey customer satisfaction without putting a burden on scarce resources. Past surveys indicated that applicants are more likely to respond to a survey if they can do so while waiting for the required interview with a consular officer. In those offices located in countries where applicants are likely to have internet access whether through computers or smart phones, we will provide them the url or QR code for the survey when they appear in the waiting room. Applicants may thus take the survey while waiting, or they may do so later at their home or office. In our posts located in lesser developed countries, we would ask applicants to fill out a paper-based survey and drop it in a box before leaving the waiting room.

CA will ask a selection among our immigrant visa processing posts to participate in the survey effort to help assess the utility of the survey methods. In CY 2015, we would only use the survey form in English. Among our high volume posts where English is common would be: Manila, Guangzhou, Mumbai, New Delhi, Kingston, Islamabad, Addis, & Accra. Based on FY2014 workload numbers, this could be a maximum number of respondents of 53,000 for the last quarter of CY 2015. As a minimum, we could ask these posts to make the survey available at least during 3 weeks of the last quarter of CY 2015. This would mean the minimum number of potential respondents could be approximately 15,000.

In approximately one year, we will examine respondents' participation rate under different circumstances as well as try to identify global trends. We will then prepare a new sampling plan for immigrant visa applicants.

Administration of the Instrument

1. How will you collect the information? (Check all that apply)

- Web-based or other forms of Social Media
- Telephone
- In-person
- Mail
- Other, Explain

2. Will interviewers or facilitators be used? Yes No
