SUPPLEMENTARY INFORMATION: On November 16, 2018, Congress passed Public Law 115–278, to amend the Homeland Security Act of 2002 (6 U.S.C. 101 *et seq.*), enacted and authorized the Cybersecurity and Infrastructure Security Agency (CISA) of the Department of Homeland Security (DHS). Statue 4173 § (f)(3) under title XVIII mandated CISA to construct the Emergency Communications Division as one of three components. Furthermore, Statue 4173 § (f)(3) calls for the Emergency Communications Division to be headed by the Assistant Director. Statue 4175 § (c)(1)(2) (6 U.S.C. 571 note.) re-designated the Office of Emergency Communications to become the Emergency Communications Division, headed by the Assistant Director. In accordance with Statue 4179 § 1801 (6 U.S.C. 571)(b) title XVIII, the Assistant Director for the Emergency Communications Division is required to report to the Director of CISA. Section 2202 (6 U.S.C. 652)(b)(1) specifies for the head of CISA to be re-designated as the Director, who is required to report to the Secretary of the Department of Homeland Security.

CISA enhances public safety interoperable communications at all levels of government to help partners across the country develop their emergency communications capabilities. Working with stakeholders across the country, CISA conducts extensive, nationwide outreach to support and promote the ability of emergency response providers and relevant government officials to continue to communicate in the event of a natural disaster, act of terrorism, or other man-made disaster. Public Law 109–296, Title VI, § 671(b), Title XVIII, § 1801(c)(2) mandates DHS through CISA to administrate and manage SAFECOM, a state, local, tribal, and territorial stakeholder-driven public

safety communications program. In an effort to resolve major communications issues identified during the September 11, 2001, terrorist attacks, SAFECOM was created as a Presidential E-Government Initiative to improve interoperability, allowing emergency responders to communicate more effectively before, during, and after emergencies and disasters.

Through collaboration with emergency responders and elected officials across all levels of government, SAFECOM works to improve emergency response providers' inter-jurisdictional and interdisciplinary emergency communications interoperability across local, regional, tribal, State, territorial, international borders, and with Federal government entities. SAFECOM works with existing Federal communications programs and key emergency response stakeholders to address the need to develop better technologies and processes for the coordination of existing communications systems and future networks.
