

Employee Survey

2030-####

11/30/21

OMB Control Number

Expiration Date:

EPA is collecting input from employees, supervisors, and senior leaders to understand your workplace concerns and to inform what flexibilities you need as we begin transitioning off of pandemic-related maximum telework. We are also collecting information on what changes we need to make to our pre-pandemic policies (e.g. telework and work schedules) incorporating what we have learned from our time away from the workplace during the pandemic.

This is not about when we will be returning to the workplace. We will have an ample transition period after it is safe for an increased number of staff to return to the physical workplace, informed by government-wide guidance.
