PHMSA requests comments on the following information collections:

Title: Cargo Tank Specification Requirements.

OMB Control Number: 2137-0014.

Summary: This information collection consolidates and describes the information collection provisions in parts 107, 178, and 180 of the HMR involving the manufacture, qualification, maintenance, and use of specification cargo tank motor vehicles. It also includes the information collection and recordkeeping requirements for persons who are engaged in the manufacture, assembly, requalification, and maintenance of DOT specification cargo tank motor vehicles. The types of information collected include:

(1) *Registration Statements:* Cargo tank manufacturers and repairers, as well as cargo tank motor vehicle assemblers, are required to be registered with DOT and must furnish information

relative to their qualifications to perform the functions in accordance with the HMR. DOT uses the registration statements to identify these persons to ensure they possess the knowledge and skills necessary to perform the required functions in accordance with applicable regulations.

(2) *Requalification and Maintenance Reports:* These reports are prepared by persons who requalify or maintain cargo

tanks. This information is used by cargo tank owners, operators and users, and DOT compliance personnel to verify that the cargo tanks are requalified, maintained, and in proper condition for the transportation of hazardous materials.

(3) *Manufacturers' Data Reports, Certificates, and Related Papers:* These reports are prepared by cargo tank manufacturers and certifiers. They are

used by cargo tank owners, operators, users, and DOT compliance personnel to verify that a cargo tank motor vehicle was designed and constructed to meet all requirements of the applicable specification.
