Why am I getting this letter?

According to our records, we have not yet received your completed 2022 Census of Agriculture form. If you recently responded, thank you. If not, there is still time.

The United States Department of Agriculture is conducting the 2022 Census of Agriculture. Your response is vital.

If you are not currently farming, please respond so we can update our records accordingly. The online questionnaire will take you through a few quick questions then straight to the end. If you are responding by mail, please make a note on the front of the questionnaire and mail it back to us.

How will the data be used?

Your input will help tell the story of U.S. agriculture. The Census of Agriculture is the only source of comprehensive agricultural data for every state and county in the nation. The data are widely used to inform decisions that benefit you and your community – from decisions guiding succession planning and new and beginning farmer programs to decisions impacting agriculture practices, land stewardship, and sustainability.

What else do I need to know?
