SURVEY OF SNAP E&T CASE MANAGEMENT CASE MANAGEMENT OBSERVATION GUIDE

Use this form when you are observing a case management meeting. Use a different form for each case management meeting observation you are conducting.

Introduction and consent

[Use separately for both case manager and participant; if participant is accompanied by a friend or family member 18 years old or older, ask for their consent as well. At the end of the group activity, provide your business card to participants.]

My name is [NAME] and I am from a company called [Mathematica/SPR], which is a [describe organization]. We were hired by the Food and Nutrition Service at the U.S. Department of Agriculture to help conduct a study on SNAP E&T case management. With your verbal consent, we would like to observe and record this meeting to learn more about how case management works in this program in order to create research findings that can help improve the program for future participants. The study is voluntary and the decision to participate in the study is up to you. There are no penalties if you chose not to participate. If you give your consent to participate, you can choose to stop participating at any time. All information that is collected about you through the observation will be kept private to the extent permitted by law and will be used for research purposes only. Your names will never be used in any reports and no information will be reported in any way that can identify you, except as otherwise required by law. If you are uncomfortable at any time during the observation, please let us know and we will leave the room. If you decide you would no longer like to be observed, nothing will happen to any benefits you are receiving, and it will not affect your eligibility to participate in the program. Do you consent to have me observe your meeting?

[If participant or case manager says no:] Okay, thank you for your consideration. [Site visitor should leave the meeting space and wait for the next case manager and client to observe.]

[If participant or case manager says yes:] Great, thank you!

I would like to record the observation so I don't miss anything. No one will hear the recording except for researchers. Is it okay with you if I record your meeting? If you want me to turn the recorder off for any reason or at any time, just say so.

[If participant or case manager says no:] Okay, thank you for your consideration. For this study, we need to record the observations for our analysis, so we won't observe you today. [Site visitor should leave the meeting space and wait for the next case manager and client to observe.]

[If participant and case manager say yes:] Great, thank you!

[IF PARTICIPANT AND CASE MANAGER CONSENT, TURN ON THE RECORDER.]

Do you have any questions?

According to the Paperwork Reduction Act of 1995, an agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a valid OMB control number. The valid OMB control number for this information collection is 0584-0665. The time required to complete this information collection is estimated to average 60 minutes per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden, to the following address: U.S. Department of Agriculture, Food and Nutrition Services, Office of Policy Support, 1320 Braddock Place, Alexandria, VA 22314, ATTN: PRA (0584-0665). Do not return the completed form to this address.
