

mitigation and monitoring requirements, or take estimates (with the exception of reducing the type or amount of take); and

(2) A preliminary monitoring report showing the results of the required monitoring to date and an explanation showing that the monitoring results do not indicate impacts of a scale or nature not previously analyzed or authorized.

Upon review of the request for Renewal, the status of the affected species or stocks, and any other pertinent information, NMFS determines that there are no more than minor changes in the activities, the mitigation and monitoring measures will remain the same and appropriate, and the findings in the initial IHA remain valid.

Dated: June 1, 2021.

Catherine Marzin,

*Acting Director, Office of Protected Resources,
National Marine Fisheries Service.*

BILLING CODE 3510–22–P

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

Agency Information Collection Activities; Submission to the Office of Management and Budget (OMB) for Review and Approval; Comment Request; National Saltwater Angler Registry and State Exemption Program

The Department of Commerce will submit the following information collection request to the Office of Management and Budget (OMB) for review and clearance in accordance with the Paperwork Reduction Act of 1995, on or after the date of publication of this notice. We invite the general public and other Federal agencies to comment on proposed, and continuing information collections, which helps us assess the impact of our information collection requirements and minimize the public's reporting burden. Public comments were previously requested via the **Federal Register** on January 25, 2021 (86 FR 6875) during a 60-day comment period. This notice allows for an additional 30 days for public comments.

Agency: National Oceanic & Atmospheric Administration (NOAA), Commerce.

Title: National Saltwater Angler Registry and State Exemption Program.

OMB Control Number: 0648–0578.

Form Number(s): None.

Type of Request: Regular submission (extension of a current information collection).

Number of Respondents: 1204.

Average Hours Per Response: Registration of Anglers—3 minutes; Registration of For-Hire Vessels—3 minutes.

Total Annual Burden Hours: 61.

Needs and Uses: This request is for extension of a currently approved collection.

The National Saltwater Angler Registry Program (Registry Program) was established to implement recommendations included in the review of national saltwater angling data collection programs conducted by the National Research Council (NRC) in 2005/2006, and the provisions of the Magnuson-Stevens Reauthorization Act, codified at Section 401(g) of the Magnuson-Stevens Fishery Conservation and Management Act (MSA), which require the Secretary of Commerce to commence improvements to recreational fisheries surveys, including establishing a national saltwater angler and for-hire vessel registry, by January 1, 2009. A final rule that includes regulatory measures to implement the Registry Program (RIN 0648–AW10) was adopted and codified in 50 CFR 600, Subpart P.

The Registry Program collects identification and contact information from those anglers and for-hire vessels who are involved in recreational fishing in the United States Exclusive Economic Zone or for anadromous fish in any waters, unless the anglers or vessels are exempted from the registration requirement. Data collected includes: For anglers: Name, address, date of birth, telephone contact information and region(s) of the country in which they fish; for for-hire vessels: Owner and operator name, address, date of birth, telephone contact information, vessel name and registration/documentation number and home port or primary operating area. This information is compiled into a national and/or series of regional registries that is being used to support surveys of recreational anglers and for-hire vessels to develop estimates of recreational angling effort.

Affected Public: Individuals or households; Business or other for-profit organizations.

Frequency: Annual.

Respondent's Obligation: Mandatory.

Legal Authority: Magnuson-Stevens Fishery Conservation and Management Act (MSA).

This information collection request may be viewed at www.reginfo.gov. Follow the instructions to view the

Department of Commerce collections currently under review by OMB.

Written comments and recommendations for the proposed information collection should be submitted within 30 days of the publication of this notice on the following website www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting “Currently under 30-day Review—Open for Public Comments” or by using the search function and entering either the title of the collection or the OMB Control Number 0648–0578.

Sheleen Dumas,

Department PRA Clearance Officer, Office of the Chief Information Officer, Commerce Department.

BILLING CODE 3510–22–P

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

Agency Information Collection Activities; Submission to the Office of Management and Budget (OMB) for Review and Approval; Comment Request; Data Collections To Support Comprehensive Economic and Socio-Economic Evaluations of the Fisheries in Regions of the United States Affected by Catastrophic Events

The Department of Commerce will submit the following information collection request to the Office of Management and Budget (OMB) for review and clearance in accordance with the Paperwork Reduction Act of 1995, on or after the date of publication of this notice. We invite the general public and other Federal agencies to comment on proposed, and continuing information collections, which helps us assess the impact of our information collection requirements and minimize the public's reporting burden. Public comments were previously requested via the **Federal Register** on March 2, 2021 (86 FR 12174) during a 60-day comment period. This notice allows for an additional 30 days for public comments.

Agency: National Oceanic & Atmospheric Administration (NOAA), Commerce.

Title: Data Collections to Support Comprehensive Economic and Socio-Economic Evaluations of the Fisheries in Regions of the United States Affected by Catastrophic Events.

OMB Control Number: 0648–0767.

Form Number(s): None.

Type of Request: Regular submission [revision of a currently approved collection].

Number of Respondents: 7,184.

Average Hours per Response:

Regional surveys of fishing operations: 30 minutes; Regional surveys of other fishing related businesses: 30 minutes; National surveys of fishing operations: 20 minutes; National surveys of other fishing related businesses: 20 minutes.

Total Annual Burden Hours: 3,200.

Needs and Uses: The revised information collection will allow NMFS to continue to collect information about the impacts of and recovery from regional and national catastrophic events and the factors that facilitated or impeded recovery. The impacts include insured and uninsured damages/losses and changes in revenue, operating costs and employment due to those events NMFS will collect this information from the owners or operators of commercial and for hire fishing vessels and from the owners or managers of other fishing related businesses. NMFS needs this information to conduct the economic and socio-economic evaluations of catastrophic regional fishery disasters mandated by SEC. 315(c) of the Magnuson-Stevens Fishery Conservation and Management Act (MSA). Those and/or subsequent evaluations based on this information will be used by: (1) The Secretary of Commerce in determining if a fisheries disaster should be declared; (2) the Department of Commerce and NOAA in their deliberations regarding the disbursement of the fishery disaster relief assistance proved by Congress; (3) NMFS to inform agency leadership, state agencies, Congress, and constituents about the long-term effects of catastrophic events and the factors that facilitated or impeded recovery; and (4) NMFS to improve its ability to conduct the analyses required by the MSA and other applicable law, which will allow for better-informed, science-based fishery management decisions making.

The proposed revisions would expand the coverage of the currently approved information collection in two ways. First, they would expand the types of catastrophic events from “hurricanes and other climate related natural disasters” to events including hurricanes, tsunamis, floods, freshwater intrusions, severe harmful algal blooms (e.g., red tides), extreme temperatures, oil spills, and pandemics. Second, they would extend the geographic scope from the “Eastern, Gulf Coast and Caribbean Territories of the United States” to all regions and territories of the United States. These proposed expansions are

reflected in the request to change the title from “Assessment of the Social and Economic Impact of Hurricanes and Other Climate Related Natural Disasters on Commercial and Recreational Fishing Industries in the Eastern, Gulf Coast and Caribbean Territories of the United States” to “Data Collections to Support Comprehensive Economic and Socio-Economic Evaluations of the Fisheries in Regions of the United States Affected by Catastrophic Events.” NMFS will improve the survey instruments and collection methods based on lessons learned from conducting and assessing the previous information collections. The frequency of reporting will be from one to two times a year for each catastrophic event.

Affected Public: Individuals or households and business or other for-profit organizations.

Frequency: The frequency of reporting will be as needed from one to four times a year for each catastrophic event.

Respondent's Obligation: Voluntary.

Legal Authority: Magnuson-Stevens Fishery Conservation and Management Act SEC. 315(c).

This information collection request may be viewed at www.reginfo.gov. Follow the instructions to view the Department of Commerce collections currently under review by OMB.

Written comments and recommendations for the proposed information collection should be submitted within 30 days of the publication of this notice on the following website www.reginfo.gov/public/do/PRAMain. [RTID 0648–XB103]

Atlantic Highly Migratory Species; Amendment 13 to the 2006 Consolidated Atlantic Highly Migratory Species Fishery Management Plan; Bluefin Tuna Management

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and

Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of public hearing webinars.

SUMMARY: NMFS announces the schedule of public hearing webinars for the proposed rule for Amendment 13 to the 2006 Consolidated Atlantic Highly Migratory Species Fishery Management Plan (FMP) (Amendment 13). NMFS will provide information on the proposed management measures and take questions and comments from the public. The proposed measures would make several changes to the Individual Bluefin Quota (IBQ) Program, including distributing IBQ shares only to active vessels, implementing a cap on IBQ shares that may be held by an entity, and implementing a cost recovery program. The proposed measures would also discontinue the Purse Seine category and reallocate that bluefin quota to other directed quota categories; cap Harpoon category daily bluefin landings; modify the recreational trophy bluefin areas and subquotas; modify regulations regarding electronic monitoring of the pelagic longline fishery as well as green-stick use; and modify the regulation regarding permit category changes.

DATES: Public hearing webinars will be held on the dates listed below in Table 1 under **SUPPLEMENTARY INFORMATION**.

FOR FURTHER INFORMATION CONTACT:

Thomas Warren, thomas.warren@noaa.gov, 978–281–9260, or Carrie Soltanoff, Carrie.Soltanoff@noaa.gov, 301–427–8503.

SUPPLEMENTARY INFORMATION:

Background

Atlantic highly migratory species (HMS) are managed under the dual authority of the Magnuson-Stevens Fishery Management and Conservation Act (Magnuson-Stevens Act) and the Atlantic Tunas Convention Act. Under these authorities, regulations at 50 CFR part 635 implement the 2006 Consolidated HMS FMP as amended (copies are available upon request). NMFS began the process of considering new regulations focused on the management of bluefin tuna in 2019, when it announced scoping meetings and its intent to prepare environmental analyses under the National Environmental Policy Act (84 FR 23020; May 21, 2019). During 2019, NMFS conducted scoping meetings and subsequently began developing a Draft Environmental Impact Statement (DEIS) based on public and HMS Advisory Panel input, and relevant data.
