Privacy Act Statement

Authority: The collection of this information is authorized under the Magnuson-Stevens Fishery Conservation and Management Act, 16 U.S.C 1801 et seq.

Purpose: The Magnuson-Stevens Act requires that conservation and management measures must prevent over fishing while achieving, on a continuing basis, the optimum yield from each fishery. Vessel logbooks are essential tools in the management of fishery resources. Section 303(a)(5) of the Magnuson-Stevens Act specifically identifies the kinds of data to be collected for fishery management plans (FMPs).

Routine Uses: The Department will use this information for effective fishery management. Disclosure of this information is permitted under the Privacy Act of 1974 (5 U.S.C. Section 552a), to be shared within NMFS offices, in order to coordinate monitoring and management of sustainability of fisheries and protected resources, as well as with the applicable State or Regional Marine Fisheries Commissions and International Organizations.

Disclosure of this information is also subject to all of the published routine uses as identified in the COMMERCE/NOAA-6, Fishermen's Statistical Data.

Disclosure: Submission is mandatory for those persons falling under the requirements of 50 CFR 665.14. If the information is not provided, permit status may be affected.

Paperwork Reduction Act Information

Public reporting burden for this collection is estimated at 5 minutes per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden, to Regional Administrator, NMFS Pacific Islands Regional Office, 1845 Wasp Blvd. Bldg. 176, Honolulu, Hawaii 96818.

This information is being collected to ensure accurate and timely records about the fishing activity of persons licensed to participate in fisheries under Federal regulations in the Pacific Islands region. This will enable the National Marine Fisheries Service and the Western Pacific Fishery Management Council to (a) determine how those persons would be affected by changes in management; (b) ensure that they are informed about prospective changes in fishery regulations and the analysis of estimated impacts; and (c) determine whether the objectives of the fishery program are being achieved by monitoring the fishery and evaluating the impacts on stocks, the fishery participants, and related businesses. Responses to the collection are required to obtain the benefit of a license for the fishery involved (ref. 50 CFR 665.13). Data provided concerning the activities and business of the respondents are handled as confidential under the Magnuson-Stevens Fishery Conservation and Management Act (Sec. 402(b)). Notwithstanding any other provision of the law, no person is required to respond to, nor shall any person be subject to a penalty for failure to comply with a collection of information subject to the requirements of the Paperwork Reduction Act, unless that collection of information displays a currently valid OMB Control Number.

Pacific Remote Island Areas (PRIA) include Howland and Baker, Jarvis, Wake, Kingman, Palmyra, and Johnston.

Vessel Reporting Requirements

The operator of any fishing vessel operating under a Federal Pacific Islands Region PRIA troll and handline permit must maintain onboard the vessel an accurate and complete record of catch, effort, and other data on report forms provided by the Regional Administrator, and must record the information on the forms within 24 hours after the completion of each fishing day. Each form must be signed and dated by the fishing vessel operator. The original logbook form must be submitted to the National Marine Fisheries Service within 30 days of the end of each fishing trip. (ref. 50 CFR 665.14)

Instructions for the NMFS PRIA DAILY TROLL AND HANDLINE FISHING LOGBOOK

VESSELNAME: Enter name of vessel.

PERMIT NUMBER: Enter Federal WP PRIA Troll and Handline fishing permit number.

**DATE OF DEPARTURE
FROM PORT:** Enter date vessel left port (month/day/year).

DEPARTURE PORT: Enter port of departure.

**DATE OF RETURN
TO PORT:** Enter date vessel returned to port (month/day/year).

RETURN PORT: Enter port of return.

OBSERVER ON BOARD: Check (✓) if observer is on board for the trip.

DATE FISHED: Enter date (month/day/year) of fishing activity.

PRIA (area) FISHED: Enter name of area fished. **If fishing more than a single discrete island or bank in a day use a separate log sheet for each discrete bank or island.**

**TIME STARTED/ENDED
FISHING (24 hour clock):** Enter the time (using 24 hour clock - Local Time) the fishing activity started and ended.

**BEGIN FISHING
LOCATION:** Enter latitude and longitude. Use degree ° and minute ‘; circle N for north or S for south latitude; circle W for west or E for east longitude, as appropriate.

**END FISHING
LOCATION:** Enter latitude and longitude. Use degree ° and minute ‘; circle N for north or S for south latitude; circle W for west or E for east longitude, as appropriate.

TARGET SPECIES: Enter the name of the species of fish targeted.

**TOTAL NUMBER OF
HOURS FISHED:** Total number of hours fished for the day. May be less than the sum of hours fished by method since some methods may be used simultaneously.

**FISHING EFFORT by
GEAR:** Enter the number of hours fished using each individual gear type. The sum may be more hours than the total hours fished.

AMOUNT OF GEAR: Enter the number of lines or amount of gear used for each method.

**FISH CATCH
INFORMATION:** **NUMBER OF FISH KEPT + NUMBER OF FISH RELEASED = TOTAL NUMBER OF CATCH.
FISH RELEASED = FISH RELEASED ALIVE + FISH RELEASED DEAD.**

NUMBER OF FISH KEPT: Enter the numbers for Kept for each species. Note: No tally column is provided in this logsheet. Please enter only the numbers of fish Kept.

**ESTIMATED TOTAL
WEIGHT OF FISH KEPT:** Estimate to the best of your ability the cumulative weight by species of the associated number of fish listed in the kept column.

**NUMBER OF FISH
RELEASED ALIVE:** Enter the numbers of fish released alive by species. Injured fish that are believed to be able to survive should be included in this count.

**NUMBER OF FISH
RELEASED DEAD:** Enter the number of fish released dead by species. Injured fish that do not look like they will survive should be included in this count.

**PROTECTED SPECIES
INFORMATION:** Enter the numbers of protected species released uninjured, injured, or dead.

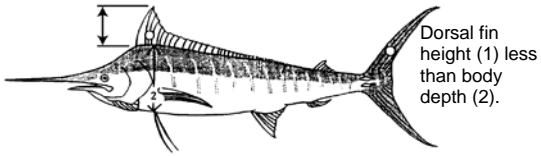

Note: Some species, including the Indo West Pacific Scalloped Hammerhead shark, are listed under the Endangered Species Act (ESA) as distinct population segments that are similar in appearance to other sub-populations that are not ESA-listed. NMFS regulations at 50 CFR 665.14 require that you report all catch and effort. If you are unsure of the species identification, you should record your best judgment and explain any uncertainty in remarks on the back of the form.

**VESSEL CAPTAIN/
OPERATOR:** Print name and provide signature of the captain/operator.

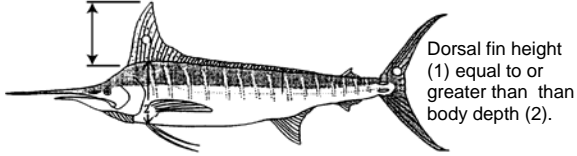

DATE: Enter date (month/day/year) when the log sheet was “completed and signed” by the vessel captain/operator.

WESTERN PACIFIC PELAGIC MANAGEMENT UNIT SPECIES

(1) Blue marlin (Kajiki)

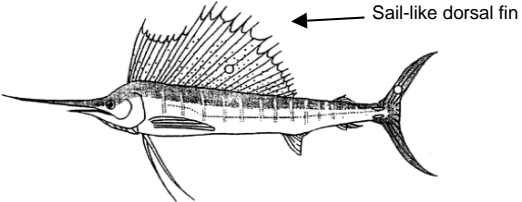

(2) Striped marlin (Nairagi)

(3) Black marlin (Hida)
