What is The Office of People Analytics (OPA)? [Top](#)

- In 2016, the Department of Defense (DoD) established the The Office of People Analytics (OPA) to utilize big-data analytics to better understand key components of Service members' career paths, and how policy or environmental changes affect the performance and composition of the DoD workforce. OPA provides go-to expertise for scientific assessments, data analytics, and problem solving to improve the lives of the DoD community.
- OPA conducts Joint-Service surveys including the Status of Forces Surveys, QuickCompass Surveys, and Health and Resilience (H&R) Surveys for the DoD.

What is the QuickCompass Program? [Top](#)

FAQ

- QuickCompass is a DoD personnel program that features web-based surveys sponsored by the Under Secretary of Defense for Personnel and Readiness (USD[P&R]).
- These surveys enable DoD to regularly assess the attitudes and opinions of the DoD community, including active duty and Reserve component members, on the full range of personnel issues.
- The Health and Resilience (H&R) Research Center supports the well-being of all members of the DoD community by providing in-depth research and analysis to inform policy makers on topics that impact resiliency, such as gender relations and equal opportunity.
- H&R provides the Department with fast, accurate assessments of the attitudes and opinions of the entire DoD community to evaluate existing programs and policies, establish baseline measures before implementing new programs and policies, and monitor progress of programs and policies and their effects on the Total Force.
