

NATIONAL SURVEY OF ORGAN DONATION ATTITUDES AND PRACTICES Computer-Assisted-Telephone-Interviewing (CATI) Script (English Version)

Public Burden Statement: The overall purpose of this study is to conduct an independent multi-mode (web and telephone) survey of public opinion regarding various issues related to organ donation. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control number for this project is 0915-0290 and expires xx/xx/2024. Public reporting burden for this collection of information is estimated to average 0.27 hours per response, including the time for reviewing instructions, searching existing data sources, and completing and reviewing the collection of information. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden, to HRSA Reports Clearance Officer, 5600 Fishers Lane, Room 14N136B, Rockville, Maryland, 20857.

INTRO1

Hello, my name is _____, and I am calling from American Directions Research Group. I am calling on behalf of the U.S. Department of Health and Human Services. We're conducting a national survey about organ donation. Am I speaking to someone 18 or older? (*Skip: If "Yes", continue; if "No", ask to speak to Respondent available or (Continue)*)

1. No one 18 or older in household – (Thank and Terminate)
2. Respondent not available/Not a good time -(Set time to call back)
3. (Soft Refusal)
4. (Hard Refusal) -(Thank and Terminate)

(Skip this question if cell/landline data present in sample file)

S1B Have I reached you on a cellphone or landline phone?

1. Landline
2. Cell
3. (DK)
4. (Refused)

(If S1B = Landline)

S1 First, I would like to identify the adult living in your household, 18 or older, who had the most recent birthday. Who would that be?

1. Respondent -(Skip to S1B)
2. Someone else in household -(Ask to speak to that person, then reset to Introduction)
3. No adults 18 or over in household – (Thank, Terminate, and Tally)
4. Respondent not available – (Record First name and set time to call back)
5. (Refusal) – (Thank and Terminate)

(If S1B = Cell)

S1C For your safety, are you currently driving?

1. Yes [SET CALLBACK IF DRIVING, ELSE CONTINUE]
2. No
3. (DK)
4. (Refused)

INTRO 2

This is an important study of people's opinions about organ donation. Your assistance in this study is voluntary, but your opinions are needed to provide an accurate understanding of the public's views. If there is any question you do not wish to answer, just tell me. Your answers are confidential and will be combined with those of others. You, as an individual, will never be identified. The questions will require about 20 minutes of your time.

Q1 In the past year, have you heard, read, or seen any information at all about organ donation or transplantation?

1. Yes
2. No
3. Don't Know
4. Refused

[IF NECESSARY READ] By ORGAN DONATION, I mean the donation of organs, such as hearts or kidneys from a person who has died, or the donation of organs, such as kidneys or parts of a liver or lung, from a person who is alive. Transplantation is the surgical transfer of an organ from one person to another. Organ donation does not include donation of bone marrow or tissue, such as skin or corneas.
