Annual OD2A Technical Assistance (TA) Survey

ICF Institutional Review Board
IRB00001920
FWA00002349
Exempt
Determination Date: March 16, 2020

Form Approved
OMB No. 0920-XXXX
Exp. Date: XX-XX-XXXX

Public reporting burden of this collection of information is estimated to average 13 minutes per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. An agency may not conduct or sponsor, and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden to CDC/ATSDR Reports Clearance Officer; 1600 Clifton Road NE, MS D-74, Atlanta, Georgia 30333; Attn: OMB-PRA (0920-New)

OVERDOSE DATA TO ACTION (OD2A) ANNUAL TECHNICAL ASSISTANCE (TA) SURVEY

INTRODUCTION

ICF, under contract with the Center for Disease Control (CDC), manages and evaluates the Overdose Data to Action (OD2A) technical assistance (TA). This survey is intended to gather your feedback regarding the perceived quality and effectiveness of different types of TA offered through the DOP OD2A TA program. Our goal is to understand which types of assistance best support your work. The data collected by this survey will help inform CDC decisions related to the types of support OD2A recipients.

The survey has been pre-populated to reflect the activities and other resources your organization has accessed during the last 18 months (Date to Date). The survey should reflect the organization—for example, if you did not attend a particular TA activity, but a colleague at your organization did participate, multiple respondents may contribute to the survey. The survey is designed to take approximately 13 minutes to complete.

TA Providers

Please rate the following TA providers on their importance in helping achieve your OD2A work plan objectives:

	Very Important	Important	Fairly Important	Slightly Important	Not at all Important	Not Applicable
CDC State Support Team	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Other CDC experts	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
CDC's partners (NACCHO, ASTHO, CSTE)	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Other experts external to CDC	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

TA Modalities and Providers

For each of the following strategies and activities, please indicate which modality and which provider was most helpful, and least helpful, to implement your work plan.

Strategy 1. Collect and disseminate timeline emergency department data on suspected all drug, all opioid, heroin and all stimulant overdoses

What is your preferred way to receive technical assistance?

Challenges and Barriers

Thinking about the last 18 months of OD2A support, please indicate if your jurisdiction experienced any of the following challenges accessing or participating in TA.

- Topics were not relevant to my work
- Scheduling issues
- Lack of adequate notice for upcoming events
- Competing priorities limited my TA participation
- While the topics were relevant, the specific speakers were not interesting or appealing
- No staff availability to attend
- The TA was overly burdensome

- Content level seemed too low for our organization
- Content level seemed too high for our organization
- Technology
- Others

Please tell us how the TA received has impacted your agency or organization.

What suggestions do you have for improving TA?

What additional TA needs do you or your organization have?
