

Change Request

Proposed changes to the Feeding My Baby and Me: Infant Feeding Practices Study III

(OMB Control No. 0920-1333 Exp. Date 4/30/2024)

May 13, 2021

Summary

The Centers for Disease Control and Prevention (CDC) requests OMB approval for nonmaterial/non-substantive changes to the OMB approved information collection instrument, the Feeding My Baby and Me: Infant Feeding Practices Study III (FMB&M-IFPS III) Survey Instruments. Specifically, the CDC requests OMB approval for minor edits, specifically: (1) two questions were inadvertently left off of the prenatal survey and are needed to help characterize the study population; and (2) removal of one question on each survey because this question was determined immaterial for study and analytic purposes.

Background and Justification

FMB&M- IFPS III is a longitudinal study that will follow pregnant women and their new baby for two years. The study aims to understand the current state of mothers' intentions, behaviors, feeding decisions, and practices

from pregnancy through their child’s first two years of life, assess how these change and their impact on feeding practices and health outcomes over the first two years of life. The data will be used to: fill research gaps on how feeding behaviors, patterns, and practices change over the first two years of life and the health-related impacts; inform multiple federal agency efforts targeting maternal and infant and toddler nutrition through work in hospitals, with health care providers, with early care and education providers, and outreach to families and caregivers; and provide context to policy level documents such as the *U.S. Dietary Guidelines for Americans*, which will include pregnant women and children birth to 24 months of age for the first time in 2020–2025.

Effect of Proposed Changes on Currently Approved Instruments and Attachments

OMB approved CDC to conduct FMB&M- IFPS III. As CDC prepared to move forward with implementation of this study, several nonmaterial/non-substantive changes were identified. CDC requests OMB approval to include two questions that were inadvertently left off of the prenatal survey, removal of one question on each monthly survey because it was determined to be immaterial for the study or analytic purposes, and addition of one question on each monthly survey to ensure the survey should continue to be sent to participants. If approved, these edits will be incorporated. There are no other proposed changes.

The following tables describe the requested changes (Table 1) and the attachments which have been updated as a result of nonmaterial/non-substantive changes to select items on the FMB&M-IFPS III survey instruments (Table 2). Edits are shown in track changes (red text). Clean versions with track changes accepted are provided in Attachment 4b - Prenatal survey-Revised, Attachment 4d – Month 1 survey-Revised, Attachment 4e – Month 2 survey-Revised, Attachment 4f – Month 3 survey-Revised, Attachment 4g – Month 4 survey-Revised, Attachment 4h – Month 5 survey-Revised, Attachment 4i – Month 6 survey-Revised, Attachment 4j – Month 8 survey-Revised, Attachment 4k – Month 10 survey-Revised, Attachment 4l – Month 12 survey-Revised, Attachment 4m – Month 15 survey-Revised, Attachment 4n – Month 18 survey-Revised, Attachment 4o – Month 21 survey-Revised, and Attachment 4p – Month 24 survey-Revised.

Table 1. List of Requested Changes to the FMB&M -IFPS III monthly surveys

Form	Current Question	Requested Change	Reason for Change
Prenatal Survey	These questions are not currently included on the prenatal survey	Add the following questions: (1) Counting yourself, how many people live in your household? Include all members who live in your household for at least 9 months of the year. _____ People < 17 years of age _____ People 18 and older (2) Which income range category represents the total combined income of all members of your household during the past 12 months? Please include any income from all sources (employment, pensions, social security, etc.).	Questions were inadvertently left off and are needed to characterize the study population

		<ul style="list-style-type: none"> • Less than \$5,000 • \$5,000 to \$7,499 • \$7,500 to \$9,999 • \$10,000 to \$12,499 • \$12,500 to \$14,999 • \$15,000 to \$19,999 • \$20,000 to \$24,999 • \$25,000 to \$29,999 • \$30,000 to \$34,999 • \$35,000 to \$39,999 • \$40,000 to \$49,999 • \$50,000 to \$59,999 • \$60,000 to \$74,999 • \$75,000 to \$99,999 • \$100,000 to \$149,999 • \$150,000 or more 	
Months 1 – 6, 8, 10, 12, 15, 18, 21, and 24	A10. Does [CHILD'S NAME] currently live with you? <ul style="list-style-type: none"> • Yes • No 	Remove question	Question is not necessary for study or analytic purposes.

Effect of Proposed Changes on the Burden Estimate

No changes are anticipated in estimated annualized burden hours to respondents due to the nonmaterial/non-substantive changes. Approved and requested burden hours are presented in Table 3.

Table 3: Effect of proposed changes to burden estimates: approved and requested burden*

Form Name	Approved Burden	Requested Burden
Study Screener	125	125
Study Consent	131	131
Prenatal Survey	471	471
24-Hour Dietary Recall - Prenatal	367	367
Replicate 24-Hour Dietary Recall - Prenatal	36	36
Request for notification of child's birth	47	47
Birth Screener	46	46
1-Month Survey	410	410
2-Month Survey	298	298
3-Month Survey	288	288
24-Hour Dietary Recall - Month 3	300	300
