Data Element Definitions

Product FDA List Name	For each VBP arrangement.
NDC	NDC 9s used in arrangement (at dosage form and strength level). Example: 00001-1234, 1244, 1254,
# of Prescriptions	The # of prescriptions should reflect the # of Medicaid beneficiaries receiving the prescribed treatment whether single or multiple doses under the state's VBP for the NDC 9s listed. State should reflect # of beneficiaries receiving treatment over the year.
Cost to the State to Administer VBP (Estimated to the nearest dollar. States may approximate the amount of administrative costs for a single administrative contract used for multiple arrangements.)	Calculated as the estimated administrative costs to the state to enter into and administer each VBP arrangement. Examples of administrative costs states may incur: The costs applicable to negotiating the contract, the applicable cost of collecting data, the applicable cost of a contract with a fiscal agent to develop, invoice and collect rebates, applicable costs to entities collecting and verification of patient or population data, state cost of filling out this survey. *We understand that there may be start-up costs only reflected in the first year.
Total Savings generated by the supplemental rebate due to VBP (Estimated to the nearest dollar)	Calculated as the Supplemental rebate collected minus the Costs to state to administer VBP
Annual report due	The period for the VBP reporting will be on CY. Therefore, the first period will include VBP arrangements in effect during CY 2022 (1/1/2022 through 12/31/22). The submission of reports for the CY 22 will take place 60 days after the end of CY or March 1, 2023.
