Survey Information

Mathematica Policy Research is conducting the Head Start Family and Child Experiences Survey 2019 (FACES 2019) under contract with the Administration for Children and Families (ACF) of the U.S. Department of Health and Human Services (DHHS).

To enhance the information we obtain by assessing the children and surveying their parents, we need for you to complete this brief form, The Teacher Child Report, about each of the children in the study who are from your class. The Teacher Child Report (TCR) asks you to report on the social skills, problem behaviors, and approaches to learning that you have observed in these children from your class.

Please be assured that all information you provide will be kept private to the extent permitted by law. Your participation in the study is voluntary and you may refuse to answer any questions you are not comfortable answering. Your answers will be completely private and will not be shared with parents or other staff in your center, or anybody else not working on this study. The form will take about 10 minutes for each child.

Given the likely disruption to your center's typical schedule due to the coronavirus (COVID-19), when answering questions that ask about activities done within the past week or month, please consider a **typical** week or month. When answering questions that ask about "current" activities or activities "as of today's date," if your program or center is temporarily closed, please **reference the period when you were last teaching this classroom**.
