

# Instrument 5C: Site Visit 2 Interview Guide for Administrators: LifeSet Developer Administrators

## Instructions

Thank you for joining us today. We would like to invite you to participate in an interview that will last about 60 minutes. We are conducting an evaluation of LifeSet, and today we'd like to learn more about the LifeSet program model and service delivery. Specifically, we will talk about the challenges and barriers the program has experienced, key program components, the enrollment and intake process, among other topics. We will use this information to better understand how the LifeSet program operates and serves young adults in New Jersey.

Your participation in this interview is voluntary. You can choose not to answer any question or not participate in the interview at all. There will be no consequences to you if you choose not to participate. We will keep the information you provide private and will not share it with anyone except for research staff working on the study. Additionally, federal law states that an agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB number for this data collection is 0970-0XXX and the expiration date is XX/XX/XXXX.
