BILLING CODE 4310-RK-P

ACTION: Proposed amendment of existing Privacy Act system of records.

SUMMARY: In accordance with the Privacy Act of 1974 (5 U.S.C. 552a), the Office of the Secretary of the Department of the Interior is issuing public notice of its intent to amend an existing Privacy Act system of records notice, Interior, OS-88, "Travel Management Records." The changes will update the name of the system, system location, categories of individuals covered by the system, categories of records in the system, routine use of records, storage and safeguard requirements, retrievability of records, and system managers(s) and addresses.

DATES: Comments must be received by September 8, 2008.

ADDRESSES: Any persons interested in commenting on these proposed amendments to an existing system of records may do so by submitting comments in writing to the Office of the Secretary Acting Privacy Act Officer, Linda Thomas, U.S. Department of the Interior, MS-116 SIB, 1951 Constitution Avenue, NW., Washington, DC 20240, or by e-mail to Linda_Thomas@nbc.gov.

FOR FURTHER INFORMATION CONTACT: Office of the Secretary Acting Privacy Act Officer, Linda Thomas, U.S. Department of the Interior, MS-116 SIB, 1951 Constitution Avenue, NW., Washington, DC 20240, or by e-mail to Linda_Thomas@nbc.gov.

SUPPLEMENTARY INFORMATION: The Office of the Secretary is proposing to amend an existing Privacy Act system of records notice, Interior, OS-88, "Travel Management Records," because the Department of the Interior (DOI) is in the process of replacing the electronic system used by the Office of the Secretary to manage the process of processing travel authorizations and claims with the Financial and Business Management System (FBMS). In the process, it is expanding the coverage of the system to include all of DOI's component bureaus and offices and renaming the system notice DOI-88, "Travel Management: FBMS."

FBMS will provide the Department of the Interior with standard business practices supported by a single, integrated finance and administrative system for all bureaus; it will help DOI manage a variety of business functions, including travel management. FBMS takes a comprehensive approach to improving the current business functions in its core systems by replacing DOI's current computer systems with modern software. The combination of standardized business

practices and enhanced computer system functionality will enable DOI's bureaus and offices to improve service to their customers and to operate more efficiently. Benefits gained from implementing this suite of applications will include the ability to access and share real-time, accurate business information; to support effective business decisions for mission delivery; to issue accurate financial reports and analysis of managerial data; to support timely decision-making in the field; to free-up more time for mission-focused activities; to focus on value-added analysis rather than data gathering; and to eliminate redundant administrative tasks and multiple login screens.

DOI has adopted a multi-year, phased approach to implementing FBMS, both in terms of functionality, and in terms of the migration of the Department's component bureaus and offices from FFS and other associated systems, to the FBMS. DOI plans to complete its implementation of the FBMS by calendar year 2013.

Towards that end, these amendments will be effective as proposed at the end of the comment period unless comments are received which would require a contrary determination. The Department will publish a revised notice if changes are made based upon a review of comments received.

Linda Thomas,

Office of the Secretary Acting Privacy Officer.
