Abstract: EDMAP is the educational component of the National Cooperative Geologic Mapping Program (NCGMP) that is intended to train the next generation of geologic mappers. The primary objective of the STATEMAP component of the NCGMP is to establish the geologic framework of areas that are vital to the welfare of individual States.

The NCGMP EDMAP program allocates funds to colleges and universities in the United States and Puerto Rico through an annual competitive cooperative agreement process. Every Federal dollar awarded is matched with university funds. Geology professors, who are skilled in geologic mapping, request EDMAP funding to support undergraduate and graduate students at their college or university in a one-year mentored geologic mapping project that focuses on a specific geographic area.

Only State Geological Surveys are eligible to apply to the STATEMAP component of the NCGMP pursuant to the National Geologic Mapping Act (Pub. L. 106–148). Since many State Geological Surveys are organized under a state university system, such universities may submit a proposal on behalf of the State Geological Survey.

Each fall, the program announcements are posted to the *Grants.gov* website and respondents are required to submit applications (comprising Standard Form

424, 424A, 424B, Proposal Summary Sheet, the Proposal, and Budget Sheets. Additionally, EDMAP proposals must include a Negotiated Rate Agreement and a support letter from a State Geologist or USGS Project Chief).

Since 1996, more than \$10 million from the NCGMP has supported geologic mapping efforts of more than 1,335 students at 171 universities in 44 states, the District of Columbia, and Puerto Rico. Funds for graduate projects are limited to \$25,000 and undergraduate project funds limited to \$15,000. These funds are used to cover field expenses and student salaries, but not faculty salaries or tuition. The authority for both programs is listed in the National Geologic Mapping Act (Pub. L. 106–148).

Title of Collection: National Cooperative Geologic Mapping Program (NCGMP–EDMAP and STATEMAP).

OMB Control Number: 1028–0088.

Form Number: None.

Type of Review: Extension without change of a currently approved collection.

Respondents/Affected Public: University or college faculty and State Geological Surveys.

Total Estimated Number of Annual Respondents: Total number of responses is 95. Approximately 50 university or college faculty and 45 State Geological Survey respondents.

Total Estimated Number of Annual Responses: Total number of responses is 185. Approximately 95 university or college faculty and 90 State Geological Survey responses.

Estimated Completion Time per Response: 20 to 36 hours.

Total Estimated Number of Annual Burden Hours: 5,220 hours total.

Respondent's Obligation: None. Participation is voluntary, though necessary to receive funding.

Frequency of Collection: Annually.

Total Estimated Annual Non-hour Burden Cost: There are no “non-hour cost” burdens associated with this IC.

An agency may not conduct, or sponsor and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number.

The authority for this action is the Paperwork Reduction Act of 1995 (44 U.S.C. 3501, *et seq.*).

Award Floor: 25,000

CFDA Number: 15.151

Cost Sharing or Matching Requirement: No

Number of Awards: 15–60

Category: Education Program Enhancements

II. Number of Projects Funded

OIED anticipates award of approximately fifteen (15) to sixty (60) grants under this announcement ranging in value from approximately \$25,000 to \$200,000. The program can fund projects only one year at a time. OIED

will use a competitive evaluation process based on criteria described in the Evaluation Criteria section (section X of this notice).

III. Background

The Office of the Assistant Secretary—Indian Affairs, through OIED, is soliciting proposals from Indian Tribes as listed in 85 FR 5462 for grant funding to support Tribal programs to document Native languages or build Tribal capacity to create or expand language preservation programs. The LLGP will exclude as grantees BIE schools and BIE-funded schools or programs targeting students enrolled in those schools.

The funding will focus on small or start-up programs whose objective is to document or build the capacity to preserve Native languages that are losing users, but which still have active users at the grandparent generation. The LLGP seeks to document, preserve, and revitalize languages that are used for face-to-face communication; languages that can be used by a child-bearing generation, but are not being transmitted to children; languages whose only active users are members of the grandparent generation or older; languages whose only active users are members of the grandparent generation or older but who have little opportunity to use them; and languages that serve as a reminder of heritage identity for an ethnic community, but which lack proficient speakers.

These grants will be funded under a non-recurring appropriation of the BIA budget. Congress appropriates funds on a year-to-year basis. Thus, while some LLGP projects may extend over several years, funding for successive years depends on each fiscal year's appropriations.

OIED administers this program through its Division of Economic Development (DED).

The funding periods and amounts referenced in this solicitation are subject to the availability of funds at the time of award, as well as the Department of the Interior (DOI) and Indian Affairs priorities at the time of the award. Neither DOI nor Indian Affairs will be held responsible for proposal or application preparation costs. Publication of this solicitation does not obligate DOI or Indian Affairs to award any specific grant or to obligate all or any part of available funds. Future funding is subject to the availability of appropriations and cannot be guaranteed. DOI or Indian Affairs may cancel or withdraw this solicitation at any time.
