SS LEASES

So that we can...

TABLE 2.1 FORI

| | We Ask... |
|-----|--|
| 13 | Does the Tribe have a Forest Management Plan (FMP)? If yes, please upload cover page, table of contents and signature page. (25 CFR §163.11) |
| 13b | If no, please explain. |
| 14 | Are sales based on an approved Forest Management Plan (FMP)? (25 CFR §163.11) |
| 14a | If no, please explain. |

So that we can...

This question is asked to determine and assess if the compacting tribe has a Forest Management Plan as required by 25 CFR §163.11.

This question is asked to determine and assess the reason the compacting tribe does not have a Forest Management Plan. This will assist the auditor in determining if a finding should be noted if an acceptable explanation is not provided.

This question is asked to determine and assess if forest sales are based on an approved Forest Management Plan as required by 25 CFR §163.11.

The question is asked to determine and assess the reason sales are not based on an approved FMP. This will assist the auditor in determining if a finding is noted if an acceptable explanation is not provided.

TABLE 2.1 GRAZING

| | We Ask... | So that we can... |
|----|---|---|
| 19 | Is a conservation plan developed for each permit with the permittee and approved by the BIA prior to issuance of the permit? (25 CFR §166.312) | This question is asked to determine and assess whether the compacting tribe ensures conservation plans are developed for each grazing permit with the permittee and approved by the BIA prior to issuance of the permit as required by 25 CFR §166.312. |

TABLE 2.1 IT

| | We Ask... | So that we can... |
|----|---|---|
| 1 | Is system access reviewed at least annually, by a supervisor or manager, to ensure users only have access to the systems, applications, and information they need to perform their duties? (25 CFR §1000.355(d)(7)) | This question is asked to determine and assess the internal controls of the compacting tribe to ensure that fiduciary trust records are preserved and protected, as required by the funding agreement, in regards to IT by reviewing system access periodically to ensure users only have access to systems, applications, and information they need to perform their duties. |
| 2 | Is individual authentication required to access the system (examples: username and password, two-factor authentication, bio-metrics)? (25 CFR §1000.355(d)(7)) | This question is asked to determine and assess the internal controls of the compacting tribe to ensure that fiduciary trust records are preserved and protected, as required by the funding agreement, in regards to IT by requiring individual authentication to access the system. |
| 3 | Are shared/group accounts allowed? (25 CFR §1000.355(d)(7)) | This question is asked to determine and assess the internal controls of the compacting tribe to ensure that fiduciary trust records are preserved and protected, as required by the funding agreement, in regards to IT by ensure that there are no shared/group accounts. |
| 4 | Are there policies and procedures documented for access control identification and authentication that can be made available? (If so, request a copy) (25 CFR §1000.355(d)(7)) | This question is asked to determine and assess the internal controls of the compacting tribe to ensure that fiduciary trust records are preserved and protected, as required by the funding agreement, in regards to IT by ensuring that there are policies and procedures for access control identification and authentication. |
| 4a | If yes, how does the Tribe verify that the policies and procedures are being followed related to access control, identification and authentication? (25 CFR §1000.355(d)(7)) | This question is asked to determine and assess the internal controls of the compacting tribe to verify if and how policies and procedures are being followed. |
| 5 | Does the Tribe collect and review the audit logs for these security solutions on a regular basis? Are the logs for these devices reviewed? | This question is asked to determine and assess the internal controls of the compacting tribe to ensure that fiduciary trust records are preserved and protected, as required by the funding agreement, in regards to IT by ensuring that the tribe collects and reviews audit logs on a regular basis. |
| 6 | Is a current hardware and software inventory maintained on the system? (examples: anti-virus software, firewalls, intrusion detection devices/software, encryption)? | This question is asked to determine and assess the internal controls of the compacting tribe to ensure that fiduciary trust records are preserved and protected, as required by the funding agreement, in regards to IT by ensuring that current hardware and software inventory is maintained. |
| 7 | Are there procedures for decommissioning equipment and sanitizing media? If yes, please upload. | This question is asked to determine and assess the internal controls of the compacting tribe to ensure that fiduciary trust records are preserved and protected, as required by the funding agreement, in regards to IT by ensuring that procedures for decommissioning equipment and sanitizing media exist to prevent disclosing fiduciary trust records. |

| | | |
|-----|--|---|
| 8 | What system hardening/security configuration guides are followed for operating systems and network devices? (i.e., Stig, Baseline, Secure Configurations) | This question is asked to determine and assess the internal controls of the compacting tribe to ensure that fiduciary trust records are preserved and protected, as required by the funding agreement, in regards to IT by ensuring that system hardening/security configuration guides exist and are adhered to for operating systems and network devices. |
| 9 | Are vulnerability scans or security penetration tests performed quarterly or semi-annually? | This question is asked to determine and assess the internal controls of the compacting tribe to ensure that fiduciary trust records are preserved and protected, as required by the funding agreement, in regards to IT by ensuring vulnerability scans or security penetration tests are performed quarterly or semi-annually. |
| 10 | Is any trust transaction or other Personal Identifiable Information (PII) electronically transferred or provided to an external party such as auditors or other governmental entities? (25 CFR §1000.355(d)(7)) | This question is asked to determine and assess the internal controls of the compacting tribe to ensure that fiduciary trust records are preserved and protected, as required by the funding agreement, in regards to IT by ensuring that PII is not transferred to external parties. |
| 10a | If yes, is all electronic data containing trust transaction or other PII encrypted prior to transmittal? If so, what software is used and what type of encryption method is used (i.e. WinZip AES 256-bit)? | This question is asked to determine and assess if PII is encrypted with it is electronically transferred to external parties. Encrypting PII when it is transferred lowers the risk of disclosing information unintended recipients or users. |
| 11 | Are employees required to take security training? If so, how is it accomplished and documented? | This question is asked to determine and assess the internal controls of the compacting tribe to ensure that fiduciary trust records are preserved and protected, as required by the funding agreement, in regards to IT by ensuring tribal employees participate in security trainings. |
| 12 | Do users have to acknowledge Rules of Behavior when accessing the system? If yes, please upload. | This question is asked to determine and assess the internal controls of the compacting tribe to ensure that fiduciary trust records are preserved and protected, as required by the funding agreement, in regards to IT by ensuring that a Rules of Behavior acknowledgement when accessing the system. |
| 13 | Are there any policies and procedures for the physical safeguards to protect electronic trust or financial transaction-related data from theft, unauthorized access, or environmental damage (examples: alarms, badge readers, locks, safes, network servers secured in a room with limited controlled access, laptops and tablets secured when not in use)? If yes, upload. | This question is asked to determine and assess the internal controls of the compacting tribe to ensure that fiduciary trust records are preserved and protected, as required by the funding agreement, in regards to IT by ensuring policies and procedures for the physical safeguards to protect electronic trust or financial transaction-related data from theft, unauthorized access, or environmental damage exist. |

| | | |
|-----|---|---|
| 14 | Are systems protected by uninterruptible power supplies (UPS) to prevent damage from lightning and power outages? | This question is asked to determine and assess the internal controls of the compacting tribe to ensure that fiduciary trust records are preserved and protected, as required by the funding agreement, in regards to IT by ensuring systems are protected by uninterruptible power supplies to prevent damage from lightning and power outages. |
| 15 | To protect from environmental threats, such as flood and fires, what is the backup and restoration policy and procedure for trust or financial transaction-related data? Please upload backup and restoration policy. | This question is asked to determine and assess the internal controls of the compacting tribe to ensure that fiduciary trust records are preserved and protected, as required by the funding agreement, in regards to IT by ensuring there is a backup and restoration policy and procedure to protect from environmental threats such as flood and fires. |
| 16 | What level of backups are done daily, weekly, monthly? | This question is asked to determine and assess the internal controls of the compacting tribe to ensure that fiduciary trust records are preserved and protected, as required by the funding agreement, in regards to IT by ensuring backups are performed daily, weekly, and monthly. |
| 17 | Is there an off-site emergency backup storage location? | This question is asked to determine and assess the internal controls of the compacting tribe to ensure that fiduciary trust records are preserved and protected, as required by the funding agreement, in regards to IT by ensuring there is an off-site emergency backup storage location. |
| 17a | If yes, where are the backups stored? Are they stored offsite at an emergency back-up location (i.e. in the cloud or off-site)? | This question is asked to determine where the backups are stored. |
| 18 | How often is backup restoration tested? | This question is asked to determine and assess the internal controls of the compacting tribe to ensure that fiduciary trust records are preserved and protected, as required by the funding agreement, in regards to IT by ensuring that backup restoration is tested on a regular basis. |
| 20 | Does the system use any wireless technology (WiFi or Bluetooth)? | This question is asked to determine and assess whether the compacting tribe uses wireless technology and if so, to ensure that proper internal controls are in place to preserve and protect fiduciary trust records, as required by the funding agreement. |
| 20a | If yes, are there policies and procedures covering wireless security? Please upload the wireless security procedures. | This question is asked to determine and assess whether the compacting tribe uses wireless technology and if so, to ensure that proper internal controls are in place to preserve and protect fiduciary trust records, as required by the funding agreement. |
| 20c | If wireless is used, what security configuration guides are followed? | This question is asked to determine and assess whether the compacting tribe uses wireless technology and if so, to ensure that proper internal controls are in place to preserve and protect fiduciary trust records, as required by the funding agreement. |

TABLE 2.1

| | We Ask... |
|-----|--|
| 11 | Do you have policies and/or procedures to address title defects? If yes, please upload policies and/or procedures. (25 CFR §150.7) |
| 11a | If no, please explain how title defects are handled. |

| LTRO |
|---|
| So that we can... |
| This question is asked to determine and assess the internal controls of the compacting tribe to ensure that policies and/or procedures to address title defects exist and are in accordance with 25 CFR §150.7. |
| This question is asked to determine and assess the reason the compacting tribe does not have a policy or procedure to address title defects and to determine if and how title defects are managed. |

TABLE 2.1 OIL

| We Ask... | |
|------------------|--|
| 14 | Unless otherwise specifically provided for in a lease, once production has been established, are all payments made to ONRR or such other party as may be designated (i.e.: direct pay, etc.)? (25 CFR §211.40 and §212.40) |
| 14a | If not, where are payments made? |
| 16 | Does the Tribe regularly receive automated production information from ONRR or BIA? (25 CFR §1000.355(d)(7)) |
| 17 | Does the Tribe coordinate with BLM and lease operators concerning abandonment and rehabilitation of lease sites to include review of lease stipulations, final inspections, notification of needed corrective actions and issuance of notices of non-compliance and calls on lease surety bonds if necessary? (25 CFR §1000.355(d)(7)) |
| 17a | If no, please explain. |

/GAS

So that we can...

This question is asked to determine and assess that the compacting tribe ensures that all payments are made to ONRR, unless otherwise specifically stated in the lease as required by 25 CFR §211.40 and §212.40.

This question is asked to determine and assess where payments are made when the tribe does not ensure all payments are made to ONRR and to determine if this is acceptable.

Determine if the Tribe monitors and reconciles production data from various systems to ensure accuracy.

To ensure the rules for restoration, environmental laws and proper well closure procedures are followed, complied with, and coordinated with BLM.

To determine which Oil/Gas closure requirements and laws the Tribe, BIA or BLM has not complied with in order to develop a corrective action.

TABLE 2.1 PRO

| | We Ask... |

| 2 | Do tribal employees have access to Protrac at the Tribe's location for this particular program? |
| 2a | If no, does the Tribe receive a list of probates in process report from ProTrac from the Agency or Region? If yes, please upload list. (25 CFR §1000.355(d)(7)) |
| 2b | If yes, does the Tribe utilize the ProTrac report for case tracking and case management purposes? (25 CFR §1000.355(d)(7)) |
| 5 | Do you maintain your records in compliance with approved Departmental records retention procedures under the Federal Records Act? (25 CFR §15.503) |
| 5a | If no, please explain. |
| 12 | Do you have any probates in process (Case Prep status) before it is sent to the BIA? If yes, how many? Please upload list reflecting the status with notification of death dates. (25 CFR §1000.355(d)(7)) |
| 13 | Is the Bureau of Indian Affairs or Office of the Special Trustee servicing office immediately notified when either an official or unofficial death notification is received at the Tribe? (In order to establish an estate account) (25 CFR §§15.101, 15.103) |
| 14 | Upon Notification of Death, does the Tribe contact potential heirs for the required documents, family history, etc.? (25 CFR §§15.104, 15.105) |
| 15 | During this reporting period, how many probate cases have been submitted to Office of Hearing and Appeals (OHA)? (25 CFR §1000.355(d)(7)) |

BATE**So that we can...**

This question is asked to determine if the compacting tribe has access to Protrac This will assist the auditor in determining how much information the compacting tribe has access to and the capabilities and responsibilities they have in Protrac. Tribes who have access to Protrac track probates more accurately and efficiently.

This question is asked to determine if the tribe receives a list of probates in process from the BIA if they do not have access to Protrac. Tribes who have access to Protrac reports can track probates more accurately and efficiently than those who do not have access.

This question is asked to determine if the tribes that have access to Protrac use reports for case tracking and management purposes as an internal control.

This question is asked to determine and assess if the compacting tribe maintains fiduciary trust records in accordance with approved Department records retention procedures under the Federal Records Act as required by 25 CFR §15.503.

This question is asked to determine and assess the reason the tribe does not maintain fiduciary trust records in accordance with 25 CFR §15.503.

This question is asked to determine how many probates in process the tribe is working on and to assist in the calculation of backlogged probate cases, if applicable.

This question is asked to determine and assess if the compacting tribe immediately notifies the BIA or OST when either an official or unofficial death notification is received as required by 25 CFR §§15.101, 15.103.

This question is asked to determine and assess if the compacting tribe contacts potential heirs for required documents, family history, etc., upon the Notification of Death as required by 25 CFR §§15.104, 15.105.

This question is asked to determine and assess the amount of probate cases submitted to OHA during the evaluation period. This assists the auditor in calculating the average number of cases submitted to OHA used in calculating a backlog, if applicable.

| 9 | Does the Tribe have a policy and procedures to preserve, protect, and manage all fiduciary trust records created and/or maintained by the Tribe during management of trust programs? (25 CFR §1000.355(d)(7); MYFA Trust Programs Section - Trust Records Management) |
| 9a | If yes, please explain. |
| 14 | Is prior written consent obtained from the tribe and/or individual landowners for any permission to survey? (25 CFR §169.101(b)) |
| 16 | Does the Tribe have a policy and procedure to address trespass? If yes, please upload. (25 CFR §169.410 & 169.413) |
| 16b | If no, please explain how trespass is managed and trespass situations are resolved. |

RIGHTS-OF-WAY

So that we can...

This question is asked to determine and assess the internal controls of the compacting tribe to ensure they have a policy and procedure to preserve, protect, and manage all fiduciary trust records as required by the funding agreement.

This question is asked to determine and assess how the compacting tribe preserves, protects, and manages all fiduciary trust records to determine if they are adequate.

This question is asked to determine and assess if the compacting tribe ensures that prior written consent is obtained for any permission to survey as required by 25 CFR §169.101(b).

This question is asked to determine and assess the internal controls of the compacting tribe to ensure they have a policy and procedure to address trespass.

This question is asked to determine and assess how the trespass is managed as required by 25 CFR §169.410.

LAND & GRAVEL--

So that we can...

This question is asked to determine and assess if the compacting tribe advises the mineral owner of the results of a bidding when the highest bid is below fair market value and obtains consent to approve a lease as required by 25 CFR §211.20(c) and 25 CFR §212.20(b)(2).

This question is asked to determine and assess the reason the tribe does not advise the mineral owner or obtain consent to approve a lease. This assists the auditor to determine if a finding should be noted or if there was an acceptable explanation.

This question is asked to determine and assess if the compacting tribe ensures that production bonuses and rental fees are collected by the Superintendent or Area Director prior to production as required by 25 CFR §§211.40 and 212.40.

This question is asked to determine and assess the reason the compacting tribe did not ensure production bonuses and rental fees were not collected by the Superintendent or Area Director prior to production. This will assist the auditor to determine if a finding should be noted or if there was an acceptable explanation.

| 15 | Are you maintaining receipts of all expenditures? (25 CFR §115.417) |
| 16 | Is an annual review of the distribution plan conducted by a Bureau of Indian Affairs (BIA) Social Worker with a Master's of Social Work (MSW)? (25 CFR §115.427) |
| 17 | Does the Tribe have a resolution specifying an age other than 18 years of age for access to specific trust funds? If yes, please upload Tribal Resolution. (25 CFR §115.430) |

COUNTS

So that we can...

This question is asked to determine and assess the internal controls of the compacting tribe to ensure that fiduciary trust records are preserved and protected, as required by the funding agreement, by ensuring only authorized users have access to them.

This question is asked to determine and assess the workload of the compacting tribe for instances of backlog. A tribe with a high volume of Restricted Accounts may indicate a backlog depending on resources.

This question is asked to determine and assess that the compacting tribe ensures that all distribution plans are approved by the BIA as required by 25 CFR §115.419.

This question is asked to determine and assess that the compacting tribe ensures that a Kennerly Letter is provided to the guardian/parents or representative when an account is restricted as required by 25 CFR §115.602.

This question is asked to determine and assess that the compacting tribe ensures that a copy of the distribution plan is given to the guardian and/or parents as required by 25 CFR §115.424.

This question is asked to determine and assess that the compacting tribe ensures that receipts for expenditures are collected as required by 25 CFR §115.417.

This question is asked to determine and assess that the compacting tribe ensures that annual reviews of distribution plans are conducted by a BIA Social Worker with a Master's of Social Work as required by 25 CFR §115.427.

This question is asked to determine and assess if the compacting tribe has a resolution specifying an age other than 18 years of age for access to specific trust funds. A resolution may allow a minor (under 18 years old) to access their trust funds sooner than 18 years old or later.

TABLE 2.1 TRUST I

| 6a2a1b | If no, please explain what action has been taken thus far and what the Tribe is doing to continue to act on the corrective action plan. |
| 7 | Does the Tribe coordinate with the Lockbox Coordinator at the Regional Office on a quarterly basis to determine if there are any funds in the Suspense Deposit Account (SDA). (25 CFR §1000.355(d)(7)) |
| 8 | Do you have a policy in place to address potential conflicts of interest? If yes, please provide copy of policy. (25 CFR §1000.355(d)(7)(iii)) |
| 11 | Did the tribe submit 2 copies of the audit financial statements and single audit report to the Office of Internal Evaluation and Assessment (OIEA)? (MYFA/AFA) |
| 12 | Does the tribe have an employee organizational work chart? If yes, please upload. |

MANAGEMENT**So that we can...**

This question is asked to determine and assess whether the compacting tribe has the authority to approve trust transactions without or on behalf of the BIA. If the tribe has approval authority, the auditor will not have to ensure transactions are not approved by the BIA.

This question is asked to determine the number of tribal trust acres the compacting tribe owns. This information is used to help the auditor determine if the tribe has tribal trust acres. This helps determine the risk or likelihood a trust transaction is performed for tribal trust. For example, if the tribe has a high amount of trust acres, the more likely the tribe has trust transactions.

This question is asked to determine the number of individual trust acres the compacting tribe is responsible for managing. This information is used to help the auditor determine if the tribe manages individual trust acres and helps determine the risk or likelihood a trust transaction is performed for Indian trust transactions.

This question is asked to determine the number of total reservation acreage under the jurisdiction of the tribe to determine the risk or likelihood a trust transaction is performed during the evaluation period.

This question is asked to determine the number of tribal members to determine the likelihood a trust transaction is performed during the evaluation period.

This question is asked to determine and assess if any ongoing investigations or investigations that transpired during the evaluation affect trust assets. If so, the auditor would determine if these investigations involving trust assets would need to be evaluated and included in the evaluation.

This question is asked to determine and assess if any ongoing investigations or investigations that transpired during the evaluation affect trust assets. If so, the auditor would determine if these investigations involving trust assets would need to be evaluated and included in the evaluation.

This question is asked to determine and assess if any ongoing investigations or investigations that transpired during the evaluation affect trust assets. If so, the auditor would determine if these investigations involving trust assets would need to be evaluated and included in the evaluation by reviewing the report.

This question is asked to determine and assess if any ongoing investigations or investigations that transpired during the evaluation affect trust assets. If so, the auditor would determine if these investigations involving trust assets would need to be evaluated and included in the evaluation by reviewing the corrective action plan.

This question is asked to determine and assess if any ongoing investigations or investigations that transpired during the evaluation affect trust assets. If so, the auditor would determine if these investigations involving trust assets would need to be evaluated and included in the evaluation by reviewing the corrective action plan.

This question is asked to determine and assess if any ongoing investigations or investigations that transpired during the evaluation affect trust assets. If so, the auditor would determine if these investigations involving trust assets would need to be evaluated and included in the evaluation by reviewing the corrective action plan.

This question is asked to determine and assess if the tribe inquires with the Lockbox Coordinator to determine if any funds exist in the Suspense Deposit Account that are due to be disbursed to the tribe or individual land owners. If the Lockbox Coordinator is not contacted on a regular basis, the tribe or individual landowners may not be paid timely.

This question is asked to determine and assess the internal controls of the compacting tribe to ensure that a policy is in place to address potential conflicts of interest as required by 25 CFR §1000.355(d)(7)(iii)

This question is asked to determine and assess if the compacting tribe ensures that 2 copies of the audited financial statements and single audit report are submitted to OIEA as required by the funding agreement.

This question is asked to determine the compacting tribe's programs and staff to help the auditor determine points of contact for the evaluation and understand the organization's hierarchy and structure.

| 3 | Do you have any Wildland Fire agreements or Memorandum of Understanding (MOUs) with external parties (local governments, state, federal, etc.) to provide WLF suppression? If yes, please provide agreements. (25 CFR §§163.10 and 163.28) |
| 3b | If no, explain how natural resources are protected from wildland fire? |
| 4 | Do you have a Fire Management Plan? If yes, please upload the cover page, signature page, and approval date. (25 CFR §1000.355(d)(7)) |
| 4b | If no, please explain. |
| 5 | Do you have a listing of all firefighters with current certifications? If yes, please upload current certificates. (25 CFR §1000.355(d)(7)) |
| 6 | Did you have any Prescribed Burn Plan? If yes, upload Prescribed Burn Plan? (25 CFR §1000.355(d)(7)) |
| 6b | If no, please explain. |

WILDLAND FIRE

So that we can...

This question is asked to determine and assess if the compacting tribe has agreements or MOUs with external parties who provide WLF fire suppression for the tribe. This assists the auditor in determining if the tribe has adequate WLF suppression support and coverage to protect trust lands and assets.

This question is asked to determine and assess how trust lands and assets are protected if there are no agreements or MOUs with external parties for WLF suppression.

This question is asked to determine and assess if the the compacting tribe to ensure that the tribe has a Fire Management Plan that outlines the responsibilities and procedures in regards to fire management of trust assets.

This question is asked to determine and assess the reason the compacting tribe does not have a Fire Management Plan. This will assist the auditor in determining if the tribe has an adequate explanation or if this will be noted as a finding in the evaluation.

This question is asked to determine and assess if the compacting tribe ensures that all firefighters have their certifications updated.

This question is asked to determine and assess if the compacting tribe performs prescribed burns in accordance with a Prescribed Burn Plan.

This question is asked to determine and assess to determine the reason the tribe does not have a Prescribed Burn Plan if they perform prescribed burns.
