NATIONAL CENTER FOR EDUCATION STATISTICS NATIONAL ASSESSMENT OF EDUCATIONAL PROGRESS

National Assessment of Educational Progress (NAEP) 2022 Materials Update #1

Appendix H1 Long Term Trend (LTT) 2022 Instructions for Entering Student Information

OMB# 1850-0928 v.23

June 2021

Due to COVID-19 school closures in Spring 2020, although LTT 9 and LTT 13 were successfully administered, LTT 17 was not administered on schedule. The materials enclosed are those planned for use in the Spring 2022 administration of LTT 17. NCES is currently planning to administer either LTT age 9 or age 17, which will be decided no later than August 2021.

Appendix H1 provides 3 different versions of Instructions for Entering Student Information - these are differentiated by, number of race/ethnicity columns. The National State Coordinator (NSC) is instructed to decide how many race/ethnicity columns they want the schools to use based on how they collect race data in their state. To avoid schools having to manipulate and collapse any data, we are asking them to submit the data as they are used when they submit these data to the state. Some states collect race/ethnicity data collapsed into one column; some use two columns with ethnicity separated from race; and some have all six race and ethnicity categories separated into six columns.

Information on Log-in Screen:

Paperwork Burden Statement, OMB Information

According to the Paperwork Reduction Act of 1995, no persons are required to respond to a collection of information unless it displays a valid OMB control number. The valid OMB control number for this voluntary information collection is 1850-0928. The time required to complete this information collection is estimated to be average 120 minutes, including the time to review instructions, search existing data resources, gather the data needed, and complete and review the information collection. If you have any comments concerning the accuracy of the time estimate, suggestions for improving this collection, or any comments or concerns regarding the status of your individual submission of form, please write to: National Assessment of Educational Progress (NAEP), National Center for Education Statistics (NCES), Potomac Center Plaza, 550 12th St., SW, 4th floor, Washington, DC 20202.

OMB No. 1850-0928 APPROVAL EXPIRES 5/31/2024

Authorization and Confidentiality Assurance

The National Center for Education Statistics (NCES) is authorized to conduct NAEP by the National Assessment of Educational Progress Authorization Act (20 U.S.C. §9622) and to collect students' education records from education agencies or institutions for the purposes of evaluating federally supported education programs under the Family Educational Rights and Privacy Act (FERPA, 34 CFR §§ 99.31(a)(3)(iii) and 99.35). All of the information provided by participants may be used only for statistical purposes and may not be disclosed, or used, in identifiable form for any other purpose except as required by law (20 U.S.C. §9573 and 6 U.S.C. §151). By law, every NCES employee as well as every NCES agent, such as contractors and NAEP coordinators, has taken an oath and is subject to a jail term of up to 5 years, a fine of \$250,000, or both if he or she willfully discloses ANY identifiable information about students. Electronic submission of student information will be monitored for viruses, malware, and other threats by Federal employees and contractors in accordance with the Cybersecurity Enhancement Act of 2015. The collected information will be combined across respondents to produce statistical reports.

When you have finished or if you need to stop before finishing, please LOG OUT of the survey system by clicking "Save and exit" and CLOSE ALL browser windows or screens to keep your responses secure. For example, if you used Chrome or Safari to open the survey, make sure no Chrome or Safari windows or screens are open after you end the survey. Not closing all browsers may allow someone else to see your responses.

Age 17 students, Race/Ethnicity - one column

NAEP 2022 LTT 17 Instructions for Preparing and Submitting an Electronic File of St PROCESS Its (One Column Race/Ethnicity)

NAEP needs a complete list of students in the selected age group(s) at your school in order to draw a random sample of students to participate in the assessment. Your student data electronic file (E-File) must be submitted as a Microsoft Excel file.

We recommend that you create your student file using the NAEP E-File Excel Template, which is available on the MyNAEP website's "Submit Student List" page. If necessary, you may alternatively provide an Excel file with the same column headers and data in a different order. If you cannot submit your student data in an Excel file, call the NAEP help desk at 1-800-283-6237.

Step 1 – The E-Filing Template

Download and review the E-Filing Template. Note the column headers (fields) that must be included in your student list. If you do not have data for a particular field, you may leave that column blank.

Step 2 – Compile Data for the Template

Prepare and submit a separate Excel file of all students in your school with birthdates between **October 1**, **2004** and **September 30**, **2005**. Students may be in any grade, however, we expect most of the students to be in the following grades: **9**, **10**, **11**, and **12**.

- Include in the file data for **all students in the age group**, even those students who typically may be excluded from other testing programs, such as students with IEPs (SD) and English Learners (EL). Make sure there are no duplicate students in your file.
- Make sure you provide information for all students in the sampled age group, including students participating in virtual/remote learning due to COVID-19.
- Also include students in the age group who were displaced from other locations due to hurricanes and other disasters.

• If this is a year-round school,¹ include students who will be on break/on vacation on the scheduled assessment day along with all of the other students in the sampled age group. The NAEP E-File Excel Template contains an "On Break" column you will use to identify those students who will be on break/on vacation by filling in "Yes." (If you are not using the template, be sure to create and provide data for an "On Break" column in your file.)

Your Excel file must contain the following data:

Excel Header/		
Field Name	NAEP Values	Comments
State unique	N/A	If available; do not use the
Student ID		student's Social Security
		number
Student First	N/A	Text; must be in its own
Name		column
Student Middle	N/A	Text; Middle Name is
Name		optional, but the column
		must be included in the
		Excel file
Student Last	N/A	Text; must be in its own
Name		column
Grade in School	Any	Use current year data
Homeroom or	N/A	If available; locator

Student ZIP Code	Numeric only	If available; format can be five digits or five plus four

Tips for ensuring the E-File process goes smoothly

- The NAEP E-File template should be used if possible. **Please use it as is**. Do not change the column headers. Student information must begin on the second row. There should be no empty rows between the headings and the student data or within the student data, and no headings within the data.
- If you are not able to use the NAEP E-File Excel Template (for example, because of the way your data system works), the columns in your Excel E-File should have the same, or similar, names but do not have to be in any particular order. You will be able to identify the contents of each column after you have submitted your file. (For example, you will be able to indicate that your column labeled "Gender" is what provides the NAEP "Sex" information, and your value of "1" is "Male" and a "2" is "Female," or whatever the correct interpretation.)
- Be sure to give your file a unique, descriptive name. Select "File," then "Save As," and give it a name such as "Your School Name Age 17.xls." Should you need to reference your file again, this will help you locate it after E-Filing.

- The first row of data in your file will be read as the column header unless you indicate otherwise on the E-Filing "Welcome" page. Each succeeding row will be considered a student record.
- If you merge or cut and paste data from another Excel file into the template, review the file afterward to be sure there are properly aligned student data in every row and there are no column headers or blank rows in the middle of the data.
- Be sure that your file contains only a heading row and student data, not notes or text in additional columns, or they will be read as data resulting in a warning or error message.
- There should be only one worksheet with data in the Excel file. If there are other worksheets, they must not contain any data.

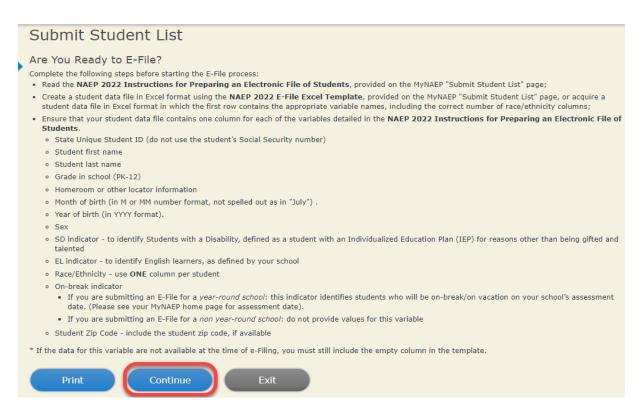

Step 3 - E-File

Once your file is prepared and checked for accuracy and completeness, log in to the MyNAEP website and select "Submit Student List" from the left-hand menu.

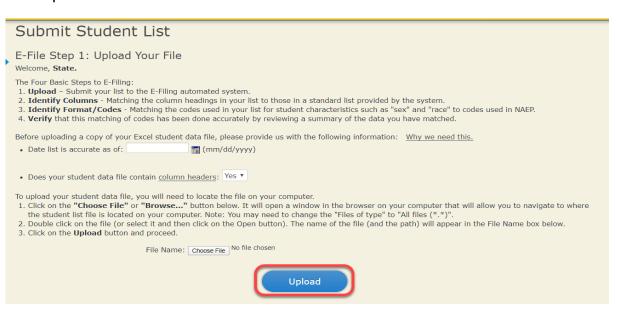

Select the "Start E-Filing Age 17" button.

 You will see a checklist on the next screen; please review it carefully to be sure your file is set up correctly and is ready to be submitted. Then select "Continue."

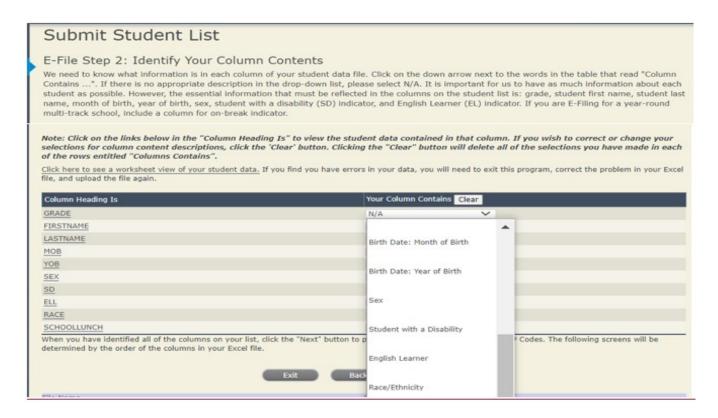

Enter the required fields and then browse for the name of your file and select "Upload."

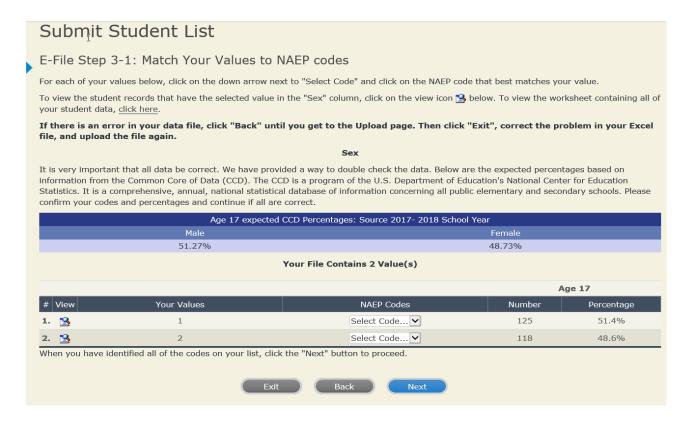

Step 4 – Map Your Columns and Rows to NAEP Values

The field names used by your database system may not have the same names as the NAEP values. You will need to match the names of your columns to the names of the NAEP columns, and then, match row values to NAEP values.

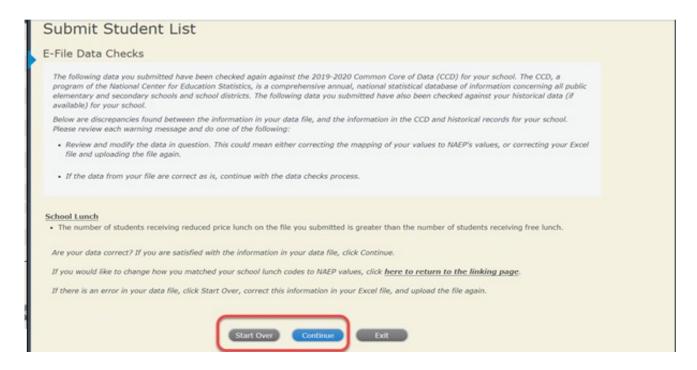

Shown below is an example of row mapping. You need to match the values in each of your columns to the NAEP codes (in drop-down). Once you map a value, select "Next" to move to the next value.

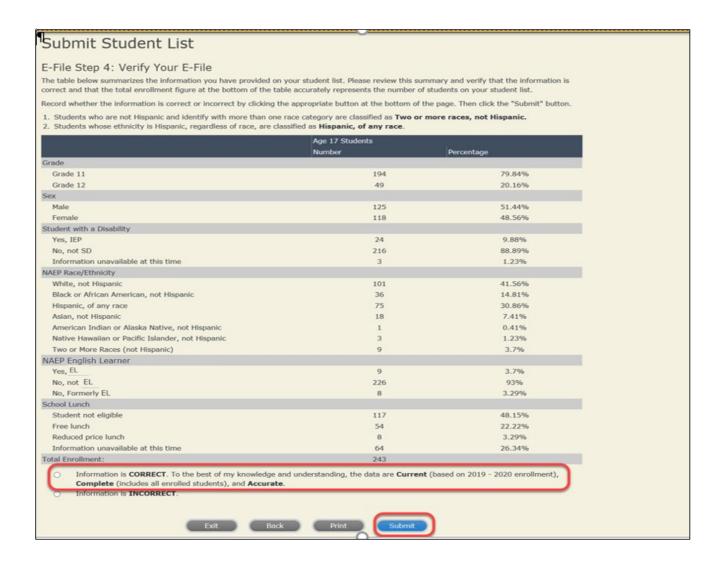

Step 5 - Review Warnings and Verify Data

When you finish row mapping, the E-Filing process will continue and a series of E-File checks will be run. These checks may produce warnings that you will need to review. If you find there are problems with your data, you can return to any mapping page to make any necessary changes. If your data are incorrect, you can choose "Start Over" and resubmit a new corrected file. If your data are correct, select "Continue" to move to the next screen.

The next screen will show you a table that summarizes the data in your file. If you verify your data as correct, you need to select "Information is Correct" and then "Submit."

If your data are incorrect, you should select "Information is Incorrect" or select "Back" and then "Start Over" to submit a new list.

If you need assistance, call the NAEP help desk at 1-800-283-6237.

Age 17 students, Race/Ethnicity - two columns

NAEP 2022 LTT 17 Instructions for Preparing and Submitting an Electronic File of Students (Two Columns Race/Ethnicity)

NAEP needs a complete list of students in the selected age group(s) at your school in order to draw a random sample of students to participate in the assessment. Your student data electronic file (E-File) must be submitted as a Microsoft Excel file.

We recommend that you create your student file using the NAEP E-File Excel Template, which is available on the MyNAEP website's "Submit Student List" page. If necessary, you may alternatively provide an Excel file with the same column headers and data in a different order. If you cannot submit your student data in an Excel file, call the NAEP help desk at 1-800-283-6237.

Step 1 – The E-Filing Template

Download and review the E-Filing Template. Note the column headers (fields) that must be included in your student list. If you do not have data for a particular field, you may leave that column blank.

Step 2 – Compile Data for the Template

Prepare and submit a separate Excel file of all students in your school with birthdates between **October 1**, **2004** and **September 30**, **2005**. Students may be in any grade, however, we expect most of the students to be in the following grades: **9**, **10**, **11**, and **12**.

- Include in the file data for all students in the age group, even those students who typically may be excluded from other testing programs, such as students with IEPs (SD) and English learners (EL). Make sure there are no duplicate students in your file.
- Make sure you provide information for all students in the sampled age group, including students participating in virtual/remote learning due to COVID-19.
- Also include students in the age group who were displaced from other locations due to hurricanes and other disasters.

• If this is a year-round school,³ include students who will be on break/on vacation on the scheduled assessment day along with all of the other students in the age group. The NAEP E-File Excel Template contains an "On Break" column you will use to identify those students who will be on break/on vacation by filling in "Yes." (If you are not using the template, be sure to create and provide data for an "On Break" column in your file.)

Your Excel file must contain the following data:

Age 17 students, Race/Ethnicity - six columns

NAEP 2022 LTT 17 Instructions for Preparing and Submitting an Electronic File of St of Dictional Its (Six Columns Race/Ethnicity)

NAEP needs a complete list of students in the selected age group(s) at your school in order to draw a random sample of students to participate in the assessment. Your student data electronic file (E-File) must be submitted as a Microsoft Excel file.

We recommend that you create your student file using the NAEP E-File Excel Template, which is available on the MyNAEP website's "Submit Student List" page. If necessary, you may alternatively provide an Excel file with the same column headers and data in a different order. If you cannot submit your student data in an Excel file, call the NAEP help desk at 1-800-283-6237.

Step 1 - The E-Filing Template

Download and review the E-Filing Template. Note the column headers (fields) that must be included in your student list. If you do not have data for a particular field, you may leave that column blank.

Step 2 - Compile Data for the Template

Prepare and submit a separate Excel file of all students in your school with birthdates between **October 1**, **2004** and **September 30**, **2005**. Students may be in any grade, however, we expect most of the students to be in the following grades: **9**, **10**, **11**, and **12**.

- Include in the file data for **all students in the age group**, even those students who typically may be excluded from other testing programs, such as students with IEPs (SD) and English learners (EL). Make sure there are no duplicate students in your file.
- Make sure you provide information for all students in the sampled age group, including students participating in virtual/remote learning due to COVID-19.
- Also include students in the age group who were displaced from other locations due to hurricanes and other disasters.

If this is a year-round school,⁵ include students who will be on break/on vacation on the scheduled assessment day along with all of the other students in the sampled age group. The NAEP E-File Excel Template contains an "On Break" column you will use to identify those students who will be on break/on vacation by filling in "Yes." (If you are not using the template, be sure to create and provide data for an "On Break" column in your file.)

Your Excel file must contain the following data:

Excel Header/	NAEDVAL	C
Field Name	NAEP Values	Comments
State unique Student ID	N/A	If available; do not use the student's Social Security
Student First	NT/A	number
Name	N/A	Text; must be in its own column
Student Middle Name	N/A	Text; Middle Name is optional, but the column must be included in the Excel file
Student Last Name	N/A	Text; must be in its own column
Grade in School	Any	Use current year data
Homeroom or	N/A	If available; locator
other Locator		information is helpful in finding students and notifying them of the assessment
Month of Birth	M or MM (numeric format)	Numeric format; must be in its own column
Year of Birth	YYYY (numeric format) The expected ranges for Year of Birth are listed below:	Numeric format; must be in its own column
	2004–2005	
Sex	School-defined codes	Codes (numeric or text) for Male/Female
Ethnicity (Hispanic or not)	 School-defined codes for Yes, Hispanic: A person of Mexican, Puerto Rican, Cuban, Central or South American, or other Spanish (but not Portuguese) culture of origin, regardless of race No, Not Hispanic Information unavailable at this time: If you currently do not have this information for one or more students, blank cells or an indicator such as "N/A" (Not Available) in the cell(s) can be mapped to this code to notify your NAEP representative of the need to collect the data at a later date. 	Indicate all Race/Ethnicity categories that apply for each student, text or numeric
Race: White	 Yes, White: A person having origins in any of the original peoples of Europe, North Africa, or the Middle East No, not White Information unavailable at this time: If you currently do not have this information for one or more students, blank cells or an indicator such as "N/A" (Not Available) in the cell(s) can be mapped to this code to notify your NAEP representative of the need to collect the data at a later date. 	Indicate all Race/Ethnicity categories that apply for each student, text or numeric

⁵ In year-round schools, students attend classes throughout the 12 calendar months unlike traditional schools that follow the 9month calendar. However, at any one time during the year a percentage (e.g., 25 percent) of the students will be on break or on vacation.

Excel Header/ Field Name	NAEP Values	Comments
Race: Black or African American	 Yes, Black: A person having origins in any of the Black peoples of Africa No, not Black Information unavailable at this time: If you currently do not have this information for one or more students, blank cells or an indicator such as "N/A" (Not Available) in the cell(s) can be mapped to this code to notify your NAEP representative of the need to collect the data at a later date. 	Indicate all Race/Ethnicity categories that apply for each student, text or numeric
Race: Asian	 Yes, Asian: A person having origins in any of the original peoples of the Far East, Southeast Asia, the Indian Subcontinent, including, for example, Cambodia, China, Japan, India, Korea, Malaysia, Pakistan, the Philippine Islands, Thailand, and Vietnam No, not Asian Information unavailable at this time: If you currently do not have this information for one or more students, blank cells or an indicator such as "N/A" (Not Available) in the cell(s) can be mapped to this code to notify your NAEP representative of the need to collect the data at a later date. 	Indicate all Race/Ethnicity categories that apply for each student, text or numeric
Race: American Indian or Alaska Native	 Yes, American Indian or Alaska Native: A person having origins in any of the original peoples of North and South America (including Central America), and who maintains tribal affiliation or community attachment No, not American Indian or Alaska Native Information unavailable at this time: If you currently do not have this information for one or more students, blank cells or an indicator such as "N/A" (Not Available) in the cell(s) can be mapped to this code to notify your NAEP representative of the need to collect the data at a later date. 	Indicate all Race/Ethnicity categories that apply for each student, text or numeric
Race: Native Hawaiian or Pacific Islander	 Yes, Native Hawaiian or Pacific Islander: A person having origins in any of the original people of Hawaii, Guam, Samoa or other Pacific Islands No, not Native Hawaiian or Pacific Islander Information unavailable at this time: If you currently do not have this information for one or more students, blank cells or an indicator such as "N/A" (Not Available) in the cell(s) can be mapped to this code to notify your NAEP representative of the need to collect the data at a later date. 	Indicate all Race/Ethnicity categories that apply for each student, text or numeric

Student ZIP Code	Numeric only	If available; format can be five digits or five plus four

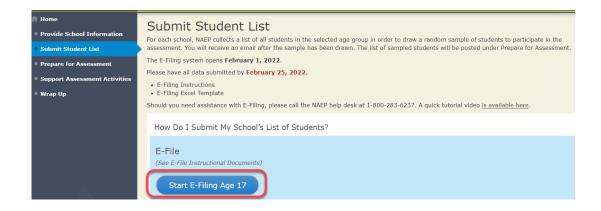

Tips for ensuring the E-File process goes smoothly:

- The NAEP E-File template should be used if possible. Please use it as is. Do
 not change the column headers. Student information must begin on the
 second row. There should be no empty rows between the headings and the
 student data or within the student data, and no headings within the data.
- If you are not able to use the NAEP E-File Excel Template (for example, because of the way your data system works), the columns in your Excel E-File should have the same, or similar, names but do not have to be in any particular order. You will be able to identify the contents of each column after you have submitted your file. (For example, you will be able to indicate that your column labeled "Gender" is what provides the NAEP "Sex" information, and your value of "1" is "Male" and a "2" is "Female," or whatever the correct interpretation.)
- Be sure to give your file a unique, descriptive name. Select "File," then "Save As," and give it a name such as "Your School Name Age 17.xls." Should you need to reference your file again, this will help you locate it after E-Filing.
- The first row of data in your file will be read as the column header unless you indicate otherwise on the E-Filing "Welcome" page. Each succeeding row will be considered a student record.
- If you merge or cut and paste data from another Excel file into the template, review the file afterward to be sure there are properly aligned student data in every row and there are no column headers or blank rows in the middle of the data.
- Be sure that your file contains only a heading row and student data, not notes or text in additional columns, or they will be read as data resulting in a warning or error message.
- There should be only one worksheet with data in the Excel file. If there are other worksheets, they must not contain any data.

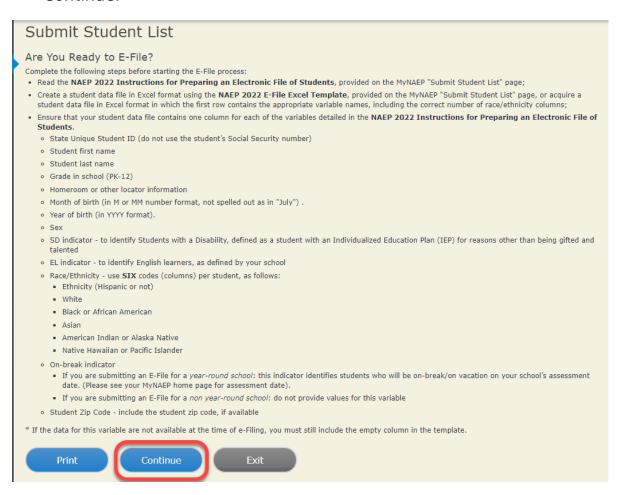

<u>Step 3 - E-File</u>

Once your file is prepared and checked for accuracy and completeness, log in to the MyNAEP website and select "Submit Student List" from the left-hand menu.

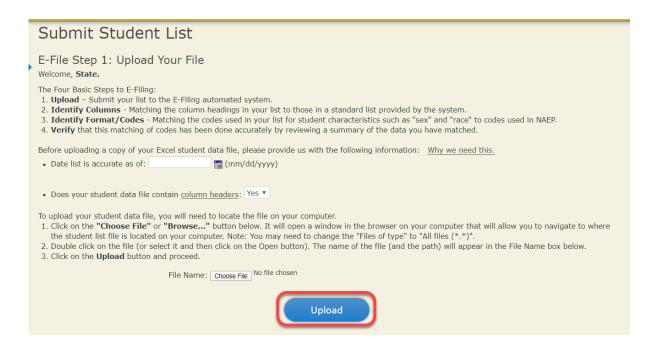

• Select the "Start E-Filing Age 17" button.

 You will see a checklist on the next screen; please review it carefully to be sure your file is set up correctly and is ready to be submitted. Then select "Continue."

 Enter the required fields and then browse for the name of your file and select "Upload."

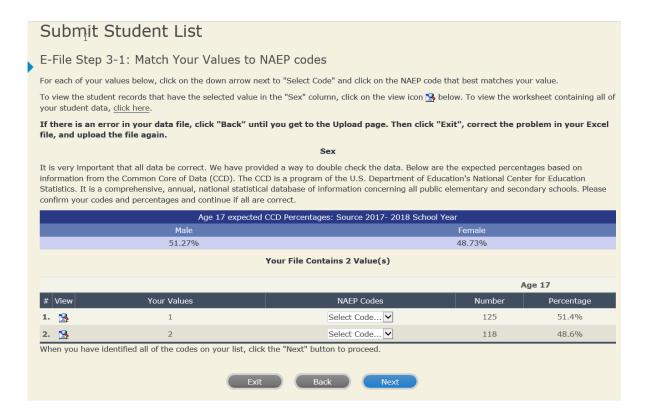

Step 4 - Map Your Columns and Rows to NAEP Values

The field names used by your database system may not have the same names as the NAEP values. You will need to match the names of your columns to the names of the NAEP columns, and then, match row values to NAEP values.

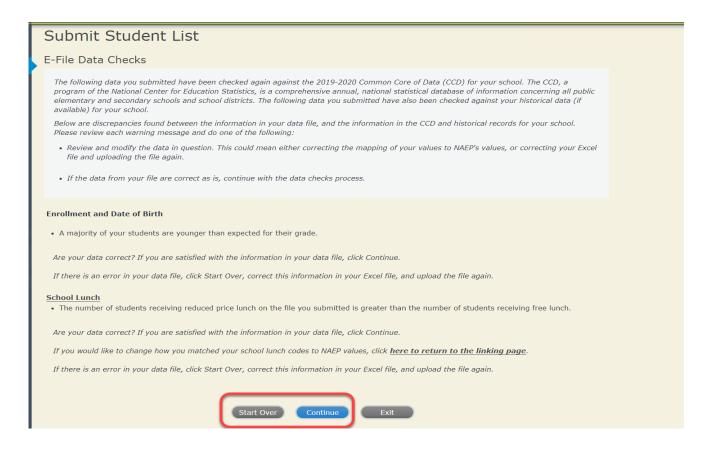

Shown below is an example of row mapping. You need to match the values in each of your columns to the NAEP codes (in drop-down). Once you map a value, select "Next" to move to the next value.

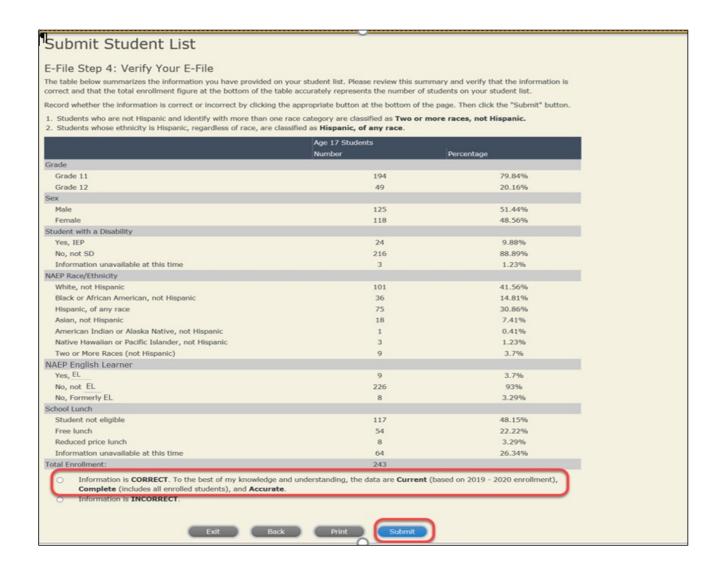

Step 5 - Review Warnings and Verify Data

When you finish row mapping, the E-Filing process will continue and a series of E-File checks will be run. These checks may produce warnings that you will need to review. If you find there are problems with your data, you can return to any mapping page to make any necessary changes. If your data are incorrect, you can choose "Start Over" and resubmit a new corrected file. If your data are correct, select "Continue" to move to the next screen.

The next screen will show you a table that summarizes the data in your file. If you verify your data as correct, you need to select "Information is Correct" and then "Submit."

If your data are incorrect, you should select "Information is Incorrect" or select "Back" and then "Start Over" to submit a new list.

If you need assistance, call the NAEP help desk at 1-800-283-6237.

Age 9 students, Race/Ethnicity - one column

NAEP 2022 LTT 9 Instructions for Preparing and Submitting an Electronic File of St of Process Its (One Column Race/Ethnicity)

NAEP needs a complete list of students in the selected age group(s) at your school in order to draw a random sample of students to participate in the assessment. Your student data electronic file (E-File) must be submitted as a Microsoft Excel file.

We recommend that you create your student file using the NAEP E-File Excel Template, which is available on the MyNAEP website on the "Submit Student List" page. If necessary, you may alternatively provide an Excel file with the same column headers and data in a different order. If you cannot submit your student data in an Excel file, call the NAEP help desk at 1-800-283-6237.

Step 1 - The E-Filing Template

Download and review the E-Filing Template. Note the column headers (fields) that must be included in your student list. If you do not have data for a particular field, you may leave that column blank.

Step 2 - Compile Data for the Template

Prepare and submit a separate Excel file of all students in your school with birthdates between **January 1**, **2012** and **December 31**, **2012**. Students may be in any grade; however, we expect most of the students to be in the following grades: **2**, **3**, **4**, and **5**.

- Include in the file data for **all students in the age group**, even those students who typically may be excluded from other testing programs, such as students with IEPs (SD) and English Learners (EL). Make sure there are no duplicate students in your file.
- Make sure you provide information for all students in the sampled age group, including students participating in virtual/remote learning due to COVID-19.
- Also include students in the age group who were displaced from other locations due to hurricanes and other disasters.

If this is a year-round school, include students who will be on break/on vacation on the scheduled assessment day along with all of the other students in the sampled age group. The NAEP E-File Excel Template contains an "On Break" column you will use to identify those students who will be on break/on vacation by filling in "Yes." (If you are not using the template, be sure to create and provide data for an "On Break" column in your file.)

Your Excel file must contain the following data:

If you find there are problems with your data, you can return to any mapping page to make any necessary changes. If your data are incorrect, you can choose "Start Over" and resubmit a new corrected file. If your data are correct, select "Continue" to move to the next screen.

The next screen will show you a table that summarizes the data in your file. If you verify your data as correct, you need to select "Information is Correct" and then "Submit."

If your data are incorrect, you should select "Information is Incorrect" or select "Back" and then "Start Over" to submit a new list.

If you need assistance, call the NAEP help desk at 1-800-283-6237.

Age 9 students, Race/Ethnicity - two columns

NAEP 2022 LTT 9 Instructions for Preparing and Submitting an Electronic File of Students (Two Columns Race/Ethnicity)

NAEP needs a complete list of students in the selected age group(s) at your school in order to draw a random sample of students to participate in the assessment. Your student data electronic file (E-File) must be submitted as a Microsoft Excel file.

We recommend that you create your student file using the NAEP E-File Excel Template, which is available on the MyNAEP website on the "Submit Student List" page. If necessary, you may alternatively provide an Excel file with the same column headers and data in a different order. If you cannot submit your student data in an Excel file, call the NAEP help desk at 1-800-283-6237.

Step 1 – The E-Filing Template

Download and review the E-Filing Template. Note the column headers (fields) that must be included in your student list. If you do not have data for a particular field, you may leave the column blank.

Step 2 – Compile Data for the Template

Prepare and submit a separate Excel file of all students in your school with birthdates between **January 1**, **2012** and **December 31**, **2012**. Students may be in any grade; however, we expect most of the students to be in the following grades: **2**, **3**, **4**, and **5**.

- Include in the file data for all students in the age group, even those students who typically may be excluded from other testing programs, such as students with IEPs (SD) and English Learners (EL). Make sure there are no duplicate students in your file.
- Make sure you provide information for all students in the sampled age group, including students participating in virtual/remote learning due to COVID-19.
- Also include students in the age group who were displaced from other locations due to hurricanes and other disasters.

• If this is a year-round school, include students who will be on break/on vacation on the scheduled assessment day along with all of the other students in the sampled age group. The NAEP E-File Excel Template contains an "On Break" column you will use to identify those students who will be on break/on vacation by filling in "Yes." (If you are not using the template, be sure to create and provide data for an "On Break" column in your file.)

Your Excel file must contain the following data:

Excel Header/ Field Name	NAEP Values	Comments
State unique Student ID	N/A	If available; do not use the student's Social Security number
Student First Name	N/A	Text; must be in its own column
Student Middle Name	N/A	Text; Middle Name is optional, but the column must be included in the Excel file
Student Last Name	N/A	Text; must be in its own column
Grade in School	Any	Use current year data
Homeroom or other Locator	N/A	If available; locator information is helpful in finding students and notifying them of the assessment
Month of Birth	M or MM (numeric format)	Numeric format; must be in its own column
Year of Birth	YYYY (numeric format) The expected ranges for Year of Birth are listed below: 2012	Numeric format; must be in its own column
Sex	School-defined codes	Codes (numeric or text) for Male/Female
Ethnicity (Hispanic or not)	 School-defined codes for Yes, Hispanic: A person of Mexican, Puerto Rican, Cuban, Central or South American, or other Spanish (but not Portuguese) culture of origin, regardless of race No, Not Hispanic Information unavailable at this time: If you currently do not have this information for one or more students, blank cells or an indicator such as "N/A" (Not Available) in the cell(s) can be mapped to this code to notify your NAEP representative of the need to collect the data at a later date. 	Use ONE code per student, text or numeric

-

⁹ In year-round schools, students attend classes throughout the 12 calendar months unlike traditional schools that follow the 9-month calendar. However, at any one time during the year, a percentage (e.g., 25 percent) of the students will be on break or on vacation.

Excel Header/

		Turicii	
Students with Disabilities (SD)	School-defined codes for		Use ONE code per student, text or numeric
English Learner (EL)			Use ONE code per student, text or numeric
On-Break Indicator	School-defined code		Only for year-round schools; column can be left off if school is not year-round
Student ZIP Code	Numeric only		If available; format can be 5 digits or 5 plus 4

Tips for ensuring the E-File process goes smoothly:

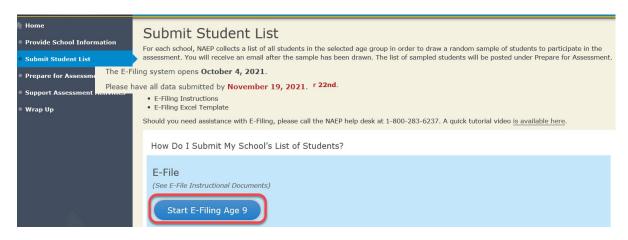

• The NAEP E-File template should be used, if possible. **Please use it as is.** Do not change the column headers. Student information must begin on the second row. There should be no empty rows between the headings and the student data or within the student data, and no headings within the data.

- If you are not able to use the NAEP E-File Excel Template (for example, because of the way your data system works), the columns in your Excel E-File should have the same, or similar, names but do not have to be in any particular order. You will be able to identify the contents of each column after you have submitted your file. (For example, you will be able to indicate that your column labeled "Gender" is what provides the NAEP "Sex" information, and your value of "1" is "Male" and a "2" is "Female," or whatever the correct interpretation.)
- Be sure to give your file a unique, descriptive name. Select "File," then "Save As," and give it a name such as "Your School Name Age 9.xls." Should you need to reference your file again, this will help you locate it after E-Filing.
- The first row of data in your file will be read as the column header unless you indicate otherwise on the E-Filing "Welcome" page. Each succeeding row will be considered a student record.
- If you merge or cut and paste data from another Excel file into the template, review the file afterward to be sure there are properly aligned student data in every row and there are no column headers or blank rows in the middle of the data.
- Be sure that your file contains only a heading row and student data, not notes or text in additional columns, or they will be read as data resulting in a warning or error message.
- There should be only one worksheet with data in the Excel file. If there are other worksheets, they must not contain any data.

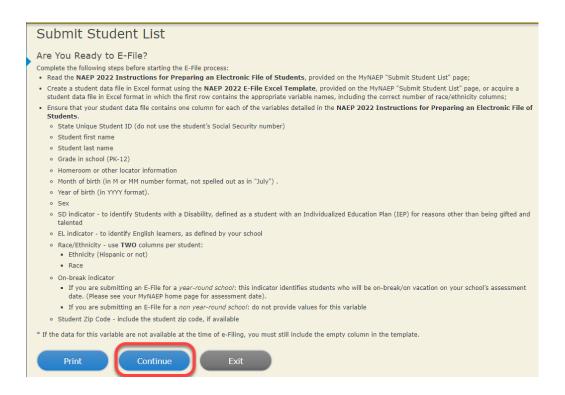

Step 3 – E-File

Once your file is prepared and checked for accuracy and completeness, log in to the MyNAEP website and select "Submit Student List" from the left-hand menu.

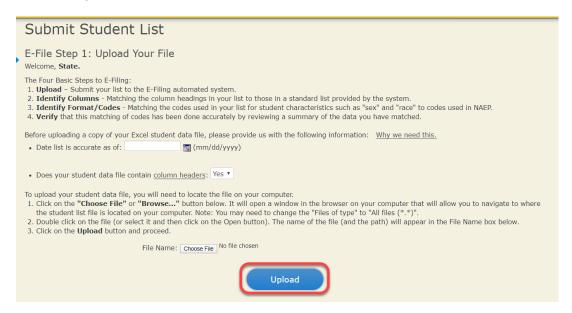

Select the "Start E-Filing Age 9" button.

You will see a checklist on the next screen; please review it carefully to be sure your file is set up correctly and is ready to be submitted. Then, select "Continue."

 Enter the required fields, and then, browse for the name of your file and select "Upload."

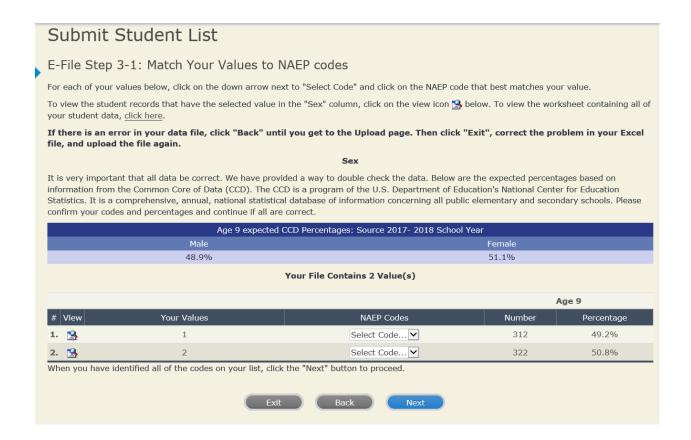

Step 4 - Map Your Columns and Rows to NAEP Values

The field names used by your database system may not have the same names as the NAEP values. You will need to match the names of your columns to the names of the NAEP columns and then match row values to NAEP values.

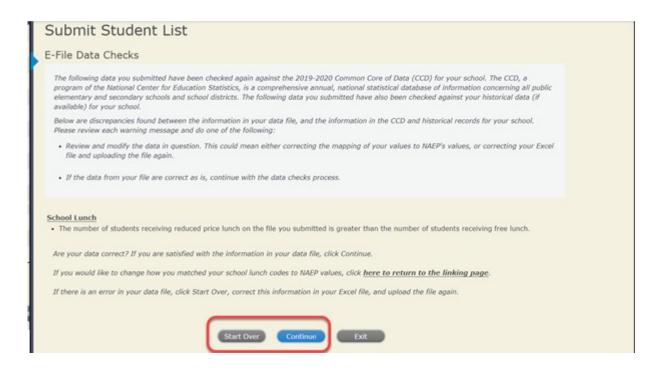

Shown below is an example of row mapping. You need to match the values in each of your columns to the NAEP codes (in drop-down). Once you map a value, select "Next" to move to the next value.

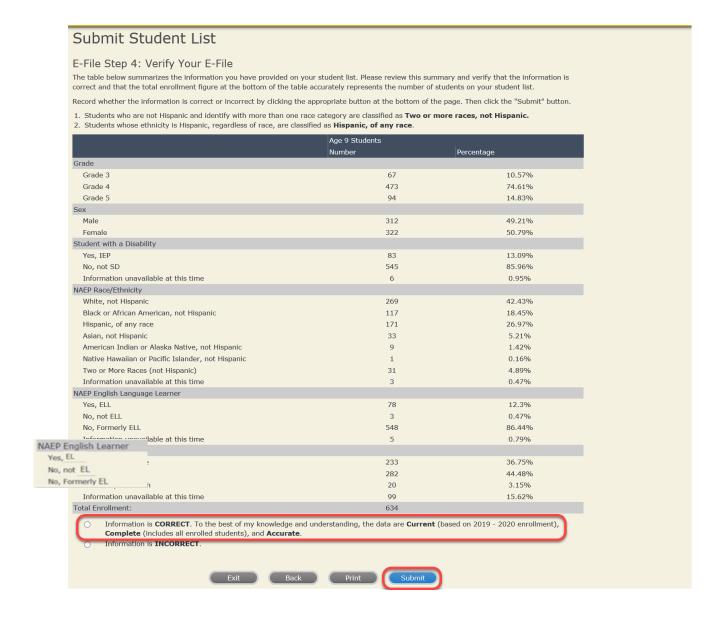

Step 5 - Review Warnings and Verify Data

When you finish row mapping, the E-Filing process will continue and a series of E-File checks will be run. These checks may produce warnings that you will need to review. If you find there are problems with your data, you can return to any mapping page to make any necessary changes. If your data are incorrect, you can choose "Start Over" and resubmit a new corrected file. If your data are correct, select "Continue" to move to the next screen.

The next screen will show you a table that summarizes the data in your file. If you verify your data as correct, you need to select "Information is Correct" and then "Submit."

If your data are incorrect, you should select "Information is Incorrect" or select "Back" and then "Start Over" to submit a new list.

If you need assistance, call the NAEP help desk at 1-800-283-6237.

Age 9 students, Race/Ethnicity - six columns

NAEP 2022 LTT 9 Instructions for Preparing and Submitting an Electronic File of St of Dictional Its (Six Columns Race/Ethnicity)

NAEP needs a complete list of students in the selected age group(s) at your school in order to draw a random sample of students to participate in the assessment. Your student data electronic file (E-File) must be submitted as a Microsoft Excel file.

We recommend that you create your student file using the NAEP E-File Excel Template, which is available on the MyNAEP website on the "Submit Student List" page. If necessary, you may alternatively provide an Excel file with the same column headers and data in a different order. If you cannot submit your student data in an Excel file, call the NAEP help desk at 1-800-283-6237.

Step 1 - The E-Filing Template

Download and review the E-Filing Template. Note the column headers (fields) that must be included in your student list. If you do not have data for a particular field, you may leave the column blank.

Step 2 - Compile Data for the Template

Prepare and submit a separate Excel file of all students in your school with birthdates between **January 1**, **2012** and **December 31**, **2012**. Students may be in any grade; however, we expect most of the students to be in the following grades: **2**, **3**, **4**, and **5**.

- Include in the file data for **all students in the age group**, even those students who typically may be excluded from other testing programs, such as students with IEPs (SD) and English Learners (EL). Make sure there are no duplicate students in your file.
- Make sure you provide information for all students in the age group, including students participating in virtual/remote learning due to COVID-19.
- Also include students in the age group who were displaced from other locations due to hurricanes and other disasters.

• If this is a year-round school, 11 include students who will be on break/on vacation on the scheduled assessment day along with all of the other students in the sampled age group. The NAEP E-File Excel Template contains an "On Break" column you will use to identify those students who will be on break/on vacation by filling in "Yes." (If you are not using the template, be sure to create and provide data for an "On Break" column in your file.)

Your Excel file must contain the following data:

Excel Header/		
Field Name	NAEP Values	Comments
State unique Student ID	N/A	If available; do not use the student's Social Security number
Student First Name	N/A	Text; must be in its own column
Student Middle Name	N/A	Text; Middle Name is optional, but the column must be included in the Excel file
Student Last Name	N/A	Text; must be in its own column
Grade in School	Any	Use current year data
Homeroom or other Locator	N/A	If available; locator information is helpful in finding students and notifying them of the assessment
Month of Birth	M or MM (numeric format)	Numeric format; must be in its own column
Year of Birth	YYYY (numeric format) The expected ranges for Year of Birth are listed below: 2012	Numeric format; must be in its own column
Sex	School-defined codes	Codes (numeric or text) for Male/Female
Ethnicity (Hispanic or not)	 School-defined codes for Yes, Hispanic: A person of Mexican, Puerto Rican, Cuban, Central or South American, or other Spanish (but not Portuguese) culture of origin, regardless of race No, Not Hispanic Information unavailable at this time: If you currently do not have this information for one or more students, blank cells or an indicator such as "N/A" (Not Available) in the cell(s) can be mapped to this code to notify your NAEP representative of the need to collect the data at a later date. 	Indicate all Race/Ethnicity categories that apply for each student, text or numeric

1

¹¹ In year-round schools, students attend classes throughout the 12 calendar months unlike traditional schools that follow the 9-month calendar. However, at any one time during the year, a percentage (e.g., 25 percent) of the students will be on break or on vacation.

Excel Header/				
Field Name	NAEP Values	Comments		
Race: White	 Yes, White: A person having origins in any of the original peoples of Europe, North Africa, or the Middle East No, not White Information unavailable at this time: If you currently do not have this information for one or more students, blank cells or an indicator such as "N/A" (Not Available) in the cell(s) can be mapped to this code to notify your NAEP representative of the need to collect the data at a later date. Race: Black or African American	 Yes, Black: A person having origins in any of the Black peoples of Africa No, not Black Information unavailable at this time: If you currently do not have this information for one or more students, blank cells or an indicator such as "N/A" (Not Available) in the cell(s) can be mapped to this code to notify your NAEP representative of the need to collect the data at a later date. 	Indicate all Race/Ethnicity categories that apply for each student, text or numeric		
Race: Asian	 Yes, Asian: A person having origins in any of the original peoples of the Far East, Southeast Asia, the Indian Subcontinent, including, for example, Cambodia, China, Japan, India, Korea, Malaysia, Pakistan, the Philippine Islands, Thailand, and Vietnam No, not Asian Information unavailable at this time: If you currently do not have this information for one or more students, blank cells or an indicator such as "N/A" (Not Available) in the cell(s) can be mapped to this code to notify your NAEP representative of the need to collect the data at a later date. 	Indicate all Race/Ethnicity categories that apply for each student, text or numeric		
Race: American Indian or Alaska Native	 Yes, American Indian or Alaska Native: A person having origins in any of the original peoples of North and South America (including Central America), and who maintains tribal affiliation or community attachment No, not American Indian or Alaska Native Information unavailable at this time: If you currently do not have this information for one or more students, blank cells or an indicator such as "N/A" (Not Available) in the cell(s) can be mapped to this code to notify your NAEP representative of the need to collect the data at a later date. 	Indicate all Race/Ethnicity categories that apply for each student, text or numeric		

Excel Header/		
Field Name	NAEP Values	Comments
Race: Native Hawaiian or Pacific Islander	 Yes, Native Hawaiian or Pacific Islander: A person having origins in any of the original people of Hawaii, Guam, Samoa or other Pacific Islands No, not Native Hawaiian or Pacific Islander Information unavailable at this time: If you currently do not have this information for one or more students, blank cells or an indicator such as "N/A" (Not Available) in the cell(s) can be mapped to this code to notify your NAEP representative of the need to collect the data at a later date. 	Indicate all Race/Ethnicity categories that apply for each student, text or numeric
National School Lunch Program (NSLP)	School defined codes for Student not eligible to participate: Student is not eligible for free or reduced-price lunch. Schools participating in Provisions 2 or 3 of the NSLP should code all students as "free lunch." Reduced-price lunch: Student is eligible for reduced-price lunch School not participating: School does not participate in the NSLP. When used, this code must be applied to all students. Information unavailable at this time: If you currently do not have this information for one or more students, blank cells or an indicator such as "N/A" (Not Available) in the cell(s) can be mapped to this code to notify your NAEP representative of the need to collect the data at a later date. SPECIAL INSTRUCTIONS FOR CEP SCHOOLS: If your school participates in the Community Eligibility Provision (CEP), note that for NAEP, only students who are economically disadvantaged students can be classified as eligible for free or reduced-price lunch.	Use ONE code per student, text or numeric

12 If it is not possible to distinguish between "free" and "reduced-price" for some students, code these students as eligible for free lunch.
