

Evaluation, and N1-563-08-30-5. DHS/S&T is required to destroy or delete Technical Assessment project files, excluding Final Reports, at end of the calendar year five years after completion or cancelation of assessment or one year after the responsible office determines the records are no longer needed for legal, audit, administrative, or business purposes. DHS/S&T must destroy Program Evaluation legal and regulatory compliance records when the records are five years old.

Given the scope of RDT&E activities, additional NARA-approved schedules apply to S&T records. Some records are permanent records and other records are temporary records. The records have different disposition instructions based on the applicable records retention schedule.

DHS/S&T also has RDT&E records schedule requests pending, for example, for DHS/S&T National Laboratory research and development files, not used in law enforcement cases, and records that document compliance with standards-organization requirements to carry out test and calibration. Records subject to pending records schedule requests shall be retained until a records retention schedule has been approved by NARA.

Researchers may retain aggregated research data indefinitely, as it may help inform future RDT&E efforts.

ADMINISTRATIVE, TECHNICAL, AND PHYSICAL SAFEGUARDS:

DHS/S&T safeguards records in this system according to applicable rules and policies, including all applicable DHS automated systems security and access policies. S&T has imposed strict controls to minimize the risk of compromising the information that is being stored. Access to the computer system containing the records in this system is limited to those individuals who have a need to know the information for the performance of their official duties and who have appropriate clearances or permissions.

RECORD ACCESS PROCEDURES:

Individuals seeking access to and notification of any record contained in this system of records, or seeking to contest its content, may submit a request in writing to the Component Privacy Officer or Component Freedom of Information Act Officer, whose contact information can be found at <http://www.dhs.gov/foia> under "Contacts Information." If an individual believes more than one component maintains Privacy Act records concerning him or her, the individual may submit the request to the Chief

Privacy Officer and Chief Freedom of Information Act Officer, U.S. Department of Homeland Security, Washington, DC 20528-0655, or electronically at <https://www.dhs.gov/dhs-foia-privacy-act-request-submission-form>. Even if neither the Privacy Act nor the Judicial Redress Act provide a right of access, certain records about him or her may be available under the Freedom of Information Act.

When an individual is seeking records about himself or herself from this system of records or any other Departmental system of records, the individual's request must conform with the Privacy Act regulations set forth in 6 CFR part 5. The individual must first verify his/her identity, meaning that the individual must provide his/her full name, current address, and date and place of birth. The individual must sign the request, and the individual's signature must either be notarized or submitted under 28 U.S.C. 1746, a law that permits statements to be made under penalty of perjury as a substitute for notarization. An individual may obtain more information about this process at <http://www.dhs.gov/foia>. In addition, the individual should, whenever possible:

- Describe the records sought, including any circumstances or reasons why the Department would have information being requested;
- Identify which component(s) of the Department or Department Headquarters Office he or she believes may have the information;
- Specify the timeline when the individual believes the records would have been created; and
- Provide any other information that will help the FOIA staff determine which DHS Headquarters Office or component agency may have responsive records;

If the request is seeking records pertaining to another living individual, the request must include a statement from the living individual verifying the identity of the individual, as described in the verification steps above, and provide a statement from the living individual certifying the individual's agreement that records concerning the individual may be released to you.

Without the above information, the component(s) may not be able to conduct an effective search, and the individual's request may be denied due to lack of specificity or lack of compliance with applicable regulations.

CONTESTING RECORD PROCEDURES:

For records covered by the Privacy Act or covered JRA records, individuals may make a request for amendment or

correction of a record of the Department about the individual by writing directly to the Department component that maintains the record, unless the record is not subject to amendment or correction. The request should identify each particular record in question, state the amendment or correction desired, and state why the individual believes that the record is not accurate, relevant, timely, or complete. The individual may submit any documentation that would be helpful. If the individual believes that the same record is in more than one system of records, the request should state that and be addressed to each component that maintains a system of records containing the record. Even if neither the Privacy Act nor the Judicial Redress Act provide a right of access, individuals may seek to amend records following the "Record Access Procedures" above. DHS/S&T, in its discretion, may choose to make the requested amendment. However, neither this system of records notice, nor DHS/S&T's making a requested amendment, confers to individuals any right to access, contest, or amend records not covered by the Privacy Act or Judicial Redress Act.

NOTIFICATION PROCEDURES:

See "Record Access Procedures" above.

EXEMPTIONS PROMULGATED FOR THE SYSTEM:

None. When this system receives a record from another system exempted in that source system under 5 U.S.C. 552a, DHS will claim the same exemptions for those records that are claimed for the original primary systems of records from which they originated.
