DISS serves as the enterprise-wide solution for personnel security, suitability, and credentialing management for DoD military, civilian, and contractors. DISS replaced the Joint Personnel Adjudication System (JPAS) as the System of Record on March 31, 2021. An innovative, web-based application, the platform provides secure communications between adjudicators, security officers, and components, allowing users to request, record, document, and identify personnel security actions. DISS will be an integral step toward the National Background Investigation Services (NBIS) platform currently in development and full implementation of the government-wide policy to overhaul the personnel vetting process known as Trusted Workforce 2.0.

OPERATING STATUS:
Current DISS CgATS Status: **YELLOW**
Current DISS JVS Status: **YELLOW**
Current DISS Appeals Status: **YELLOW**

KEY:
GREEN System is fully functional without any issues.
YELLOW System is experiencing functionality issues or partial outage.
RED System is down and users do not have access to the application.

PLANNED SYSTEM OUTAGES:
22 July 2021 at 6:30PM ET – 23 July 2021 at 6:00AM ET
28 July 2021 at 6:00PM ET – 28 July 2021 at 9:00PM ET

Situation: DISS Users are currently experiencing latency or login issues when trying to access the application. Users are unable to login to CATS, JVS and Appeals application. The DISA DBA team is currently working on issues with one of the Database nodes.

Situation: DISS is still experiencing issues with IT OPS Reports. At this time DISS reports are again displaying old historic data up to 6 July. Oracle and DISA DBA's have identified the issue as Golden Gate and are restoring files. Once complete, the IT OPS team will be notified that the correct data will be reported once full restoration is complete.
