The following information is provided to inform you about the NORC [FILL1] Survey and your participation in it.

Please read this form carefully.

1. Purpose of the study:

You are being asked to participate in the NORC [FILL1] Survey because you are a [FILL2] at the United States [FILL3] Academy ([FILL5]). The purpose of this study is to evaluate [FILL4] activities at [FILL5].

2. Procedures and approximate time requirements:

You will be asked to complete two online surveys: a baseline survey now, and a follow-up survey next year. Each survey will take about 15 minutes. The survey includes some questions about you and how you think about sexual harassment and assault.

Your participation in this research is voluntary. There is no penalty if you choose not to respond. You can skip any question and you can stop the survey at any time. Because it is an anonymous survey, it needs to be completed in one session. IT INFO: DO NOT DISPLAY THIS NEXT SENTENCE IF [INSTRUMENT] = USNA25 You will need to begin again (using the anonymous link from [FILL6]) if you exit unexpectedly.

You can complete the survey using a personal device (e.g., laptop, tablet, or mobile phone) in a private location of your choice. We recommend using a device with a larger screen for better viewing.

3. Anonymity:

IT INFO: DISPLAY IF [INSTRUMENT] = USNA25 OR USNA23

This study is anonymous. No one in your chain of command will ever see your responses. Demographic responses will be recoded to prevent anyone from figuring out your identity based on unique characteristics.

IT INFO: DISPLAY IF [INSTRUMENT] = USMA25 OR USMA23

This study is anonymous, which means that there is no way for anyone to link your responses to your identity. No one in your chain of command will see your responses. If you report a crime, no one will be able to follow-up on this report. If you report that you are the victim of a crime, no one will be able to reach out to you to offer help. There are other ways to report and ask for help and a list of resources is available in section 6 below. Demographic responses will be recoded to prevent anyone from figuring out your identity based on unique characteristics.

4. Compensation for participation:

IT INFO: DISPLAY IF [INSTRUMENT] = USNA25

There is no financial compensation for taking this survey today. However, if you choose to participate in the study today and then complete the follow-up survey next year, NORC will email you a \$15 gift code redeemable at the Midshipmen Store, Gift Shop, Uniform Store, 1845 Coffee, or Navyonline.com at that time.

IT INFO: DISPLAY IF [INSTRUMENT] = USNA23

If you choose to take this survey today, NORC will email you a \$10 gift code redeemable at the Midshipmen Store, Gift Shop, Uniform Store, 1845 Coffee, or Navyonline.com. If you do not receive your code within 7 business days after we close the survey period, please email the project director Elizabeth Mumford at SAPR-Survey@norc.org. If you also complete the follow-up survey next year, NORC will email you an additional \$15 gift code at that time.

IT INFO: DISPLAY IF [INSTRUMENT] = USMA25 OR USMA23

If you choose to take this survey today, you will receive one PMI. If you also complete the follow-up survey next year, you will receive an additional two PMIs.

5. Benefits and risks:

There are no direct benefits to you. However, benefits to future [FILL7] may include better prevention programming and less sexual harassment and sexual assault at [FILL5]. Your voice is important to us, therefore, we will all benefit by allowing your voice to be heard.

Completing this survey is not expected to involve any risk or discomfort to you. But a respondent who has experienced sexual harassment or sexual assault may feel discomfort and/or other emotions. Helpful resources are provided below.

6. Resources:

If you are a victim of sexual assault, or a person who wishes to prevent or respond to a crime, you may want to contact a Sexual Assault Response Coordinator (SARC) or Victim Advocate (VA). Data will be secured on dedicated servers, and access to sensitive data will be restricted to authorized users. All NORC systems reside within secure facilities with controlled physical access with restricted hours of access. Systems are in a data center with boundary protection utilizing network firewalls, Intrusion Prevention Systems (IPS) and security monitoring using a unified situational platform. The IT environment is documented and managed utilizing NIST 800-53 Revision 3 security framework and is audited by third party auditors on a regular basis.
