

American Industrial Hygiene Association Survey Request

AIHA invites you to participate in the NIOSH Occupational Exposure Banding Survey. The survey is available to all AIHA members and email subscribers.

The goal of this short survey is to understand how the NIOSH Occupational Exposure Banding process and electronic tool (e-Tool) are utilized by industrial hygienists, toxicologists, risk managers, and other health and safety professionals. The survey is administered through Survey Monkey and should take approximately 10 minutes complete. Your responses will be used to guide future outreach and dissemination efforts by AIHA and NIOSH.

1. By which of the following organizations are you currently employed?

- Academic institution
- Union
- Professional or trade association
- Private business
- Government
- Other (please specify)
